CONFIDENCE AT WASHINGTON

Final Settlement With Spain Believed to be Certain. Most Very Skillful.

WASHINGTON, Nov. 23.—A feeling of calmness and confidence as to the peace negotiations was discernible on all sides in official circles today.

In regard to the outlook, it can only be repeated that anticipations of a satisfactory conclusion are strong. It is understood that several members of the peace commission have made arrangements to sail for home December 10, two weeks from next Saturday. This may be taken as an indication that all preliminaries will be disposed of before that date, and that probably the treaty of peace will be ready to bring for submission to the President.

It is realized now that Paris was not a good place to hold the session of the commission. The sentiment there was and is pronounced in favor of Spain and against this country. The newspapers of Paris have done everything possible to embarrass the American commissioners, and their efforts have been seconded, although in a covert way, of course, by the whole body of French official society.

Most probably the conditions would have been exactly the same if the meetings had been held in any other of the capitals on the continent of Europe, for the sentiment in all of them has been distinctly pro-Spanish. If the United States had proposed London as the place of meeting, Spain, however unwillingly, would have been compelled to consent. But that is all past now.

From the private intimations of the American commissioners reaching here from time to time there is no doubt they are welcoming their approaching departure with much satisfaction. They have not had a particularly pleasant social time and have been subject to many personal discomforts owing to the disagreeable climate, the smoking wood fires and the candles. Their labors have been arduous and they have been on the stretch without intermission.

There has been little oral discussion. Every position and almost every statement has been submitted in writing by one or the other side and then required to go through the process of translation.

Rios, the head of the Spanish commission, has done all the work for that side, as his colleagues are said to be mere figure heads. He is regarded as without a superior in all Europe in the ways of diplomacy. His skill, adroitness and finesse are said to be marvelous, and our commissioners have been under the necessity of watching him with hawk's eyes for fear he would make some turn on them. He knows he will lose, but is playing his deep and desperate game to the end.

Flooded Half-Cent in China.

SAN FRANCISCO, November 23.—Details were received today by steamer from China of the misery caused by the Yellow River floods. A missionary engaged in relief work says many were standing in the water for days, holding their children up out of it. Thousands of small farmers and villagers are huddled together on the banks, living in straw huts and dependent on charity for food. Others are camped on the roofs of their houses, exposed to the cold rain. Others climbed trees and clung to the branches until they dropped into the water exhausted.

The Empress Dowager has issued a decree ordering high authorities in the provinces to employ skillful men to stop the leaks in the dikes of the river, but it is not believed probable that anything will be done. It was to supervise this work that Li Hung Chang was transferred from the power at Peking.

Order in Porto Rico.

WASHINGTON, November 23.—The War Department has received the following dispatch from General Brooke about the reported disorders in Porto Rico:

"Advice received daily from San Sebastian and other troublesome regions. Disorders were reported from that part of the island immediately after it came into our possession, but I have had it thoroughly patrolled and am still patrolling it. Everything has been quiet for three or four weeks. Several bandits have been killed or wounded by patrols. Reports very much exaggerated. Every point has been heard from today and quiet and good order prevails."

JOURNAL BUREAU.

RALPH, N. C., November 23.

At the meeting of the Railroad commission yesterday, Commissioner Pearson had his resolution ready to demand separate cars for the two races. He was urged not to introduce it, and have the law passed by the Railroad commission. Chairman Caldwell and Dr. Abbott, the other two commissioners did not want to take so much glory from the legislature. It was urged that this law had been passed by the legislature in other States so in spite of Commissioner Pearson's protest the commission voted for a postponement, so as not to be too heavily loaded with honors for passing a law that would be most acceptable to the white people of the State.

Rev. L. G. Broughton of Atlanta is here conducting a revival in the Baptist Tabernacle. Last night he preached a sensational sermon. He struck social clubs declaring that they were the meanest of all dives, and the hardest the preachers had to contend with. He said that Raleigh was put down among evangelists as one of the hardest places in the south to move.

It seems that the press owned by the negro Manly, in Wilmington which the Democrats destroyed cost Manly the big sum of \$8.50.

The Agricultural and Mechanical college football team will tomorrow play the Guilford college team here at the Fair grounds.

State Auditor Ayer is here making his annual report. It will be ready early in January. During the session of the legislature Mr. Ayer will have an extra clerk in his office, for the work then is so heavy.

State Treasurer Worth is trying to collect the taxes on steamboats and vessels for 1898. The total amount is \$738,58, only about half of which has been paid. The Railroad Commission made the assessment and the State Treasurer is to collect it.

Governor Russell yesterday pardoned Mitchell Byrd who a year ago was sentenced to 12 years in the penitentiary for killing a man named Thomas Butler. Over 100 citizens of Mitchell county petitioned the governor for pardon.

The Progressive Farmer has published a list of railroad attorneys who ride on free passes and use telegraph franks. The Southern Ry. has 30 attorneys and agents; S. A. L. has 22; Atlantic Coast Line 30; Cape Fear and Yadkin Valley 3; Carolina and North Western 7; Norfolk and Western 16; Atlantic and North Carolina 21; Western Union Telegraph Co. 10.

Bills have been drawn against those charged with driving U. S. Commissioner Bunting from Wilmington, thus preventing him from attending to his duties. It is said that Lt. Beavers of company K, 1st North Carolina regiment will be given the appointment of Captain of the company by Governor Russell to succeed Capt. Crawford, resigned.

There was a pretty wedding this morning at Edenton street Methodist church. Miss Bessie Belvin, daughter of Bank President C. H. Belvin, was married to Mr. C. W. Horne, of Clayton.

The Fight a Fiasco.

NEW YORK, Nov. 23.—The Sharkey-Corbett fight, which was witnessed by the largest and most representative gathering of sporting men that ever congregated to see a ring contest, ended in a most disgraceful fiasco tonight at the Lenox Athletic Club.

Corbett had all the worst of the encounter when one of his seconds, "Connie" McVey, jumped into the ring, appealing to the referee, thus violating the rules, and the referee, "Honest John" Kelly, had no alternative but to disqualify Corbett and award the bout to Sharkey.

Travellers in Austria.

BUDAPEST, Nov. 23.—Stringent police precautions were taken today in view of a possible repetition of disturbances during the session of the lower house of the Hungarian Diet. These disturbances are the outgrowth of intense party spirit and the agitation for and against continuing the union with Austria.

The North Becoming Friendly.

WASHINGTON, Nov. 23.—It is becoming more evident every day to the radical element of the Republican party that the South will sooner or later rid itself of the dangers of unlimited negro suffrage, and that a formidable and increasing number of people North and West are in sympathy with the movement, or at least, realize the necessity of it, and will silently acquiesce in the programs. The effect on the pro-negro contingent would really be distressing but for the ridiculous figures they cut. One organ after bemoaning the fact that the nation at large declines to allow its equality to be disturbed by the refusal of North Carolina to submit to negro rulers, advocates a method which it, perhaps, thinks is suggested for the first time, the reduction of representation in the South by means of the clause in the fourteenth amendment, which provides for reduction of the basis of representation in case of default acts of States with reference to the abridgment of the right of suffrage.

Norfolk's New Custom House.

WASHINGTON, November 23.—Bids were opened today for the construction of the new public building at Norfolk. Owing to the multitudinous details and differences in material proposed to be used it has not been determined where is really the lowest. Apparently, however, the successful firm is the McIlvane, Unkefer Company, of Pittsburgh, Pa., whose bid is between \$170,000 to \$175,000.

The architecture of government buildings has long been a source of adverse comment from an artistic standpoint and recently architects not in the government employ have been asked to compete on designs. The Norfolk building is the third on which the innovation has been tried and the result is said to have been eminently satisfactory.

Bermy For Admirals.

WASHINGTON, November 23.—Rear Admiral George Dewey will be the ranking admiral in the navy upon the retirement of Admiral Bunce next month. It is understood that the President will recommend to Congress the recreation of the office of admiral or vice admiral for the special benefit of Admiral Dewey and there is not much doubt that Congress will enact the necessary legislation.

First Troops For Havana.

SAVANNAH, Ga., Nov. 23.—The first Battalion of the Second United States Volunteer Engineers left tonight by the Plant system for Port Tampa and will sail from there by the steamer Florida for Havana. These will be the first troops sent from the United States to Havana. The battalion is commanded by Major Richard Henry Savage the novelist.
