### DOINGS AT TRINITY.

Plans for Commemoration New Literary Club Organized. Improvements to the Grounds. Lectures.

At commencement next June the Baccalaureate services will be presided by Bishop W. W. Duncan of Spartanburg, S. C., and the Literary address will be delivered by Bishop John H. Vincent, of the Northern Methodist Church. The Alumni Address will be delivered by Dr. E. T. White, of Oxford. The commencement exercises will be held in the Craven Memorial Hall, which will be completed by March 1st.

Bishop Warren A. Candler will deliver a series of Lectures before the department of Biblical Literature in the Spring. Bishop Chandler is one of the Bishops elected at the last General Conference and was for several years President of Emory College. He is one of the most forceful speakers in the Southern Methodist Church.

A Current Topics Club has recently been organized among the students. It meets every other Saturday evening. Reports are presented by instructors and students on various matters of current interest. Tomorrow evening there will be discussion of Kipling, Thomas Nelson Page's "Red Rock", Mrs. Ward's latest novel, and other topics. The meeting was largely attended.

The Park is now the scene of great activity. Large forces of hands are at work on the Memorial Hall and the Gymnasium. The landscape gardener in charge of the Campus is also working great improvements. The new dormitory for the Trinity Park High School has just been completed and is now occupied.

Bishop O. P. Fitzgerald visited the College the first of the week and made a talk to the students. He spoke in a very happy manner, and greatly pleased and interested all. This was the Bishop's first visit to Trinity, and he was much impressed by the growth and progress of the institution.

Dr. W. E. Fawcett will lecture at Guilford College, Saturday evening, December 10, on "Shakespeare in the Education of English Speaking People".

Mr. H. B. Craven of the class of 04, was a recent visitor to the Park. He comes here to take charge of the new East Durham Public School soon to be opened.

### Reciprocity with Canada.

WASHINGTON, December 3.—A number of Canadian manufacturers were brought to Washington by the report that the High Joint Commission had partially agreed to terms of commercial reciprocity between the United States and Canada, and they are button-holing their Commissioners and entreating them to stand by the manufacturing interests of Canada. What effect, if any, their visit to Washington will have remains to be seen. But one thing may be put down as certain. If the commission does agree upon commercial reciprocity between the two countries, there will be more or less grumbling on both sides of the line, as in any such arrangement some individual interests are bound to suffer. Previous attempts to secure reciprocity have failed because the representatives of Canada have asked more than they were willing to give.

### PECULIAR POISONS. GENERATED IN THE HUMAN BODY.

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of disease and death (called by scientists Ptoimines), are usually the result of imperfect digestion of food; the result of indigestion or dyspepsia.

The stomach, from abuse, weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first process of decay) poisoning the blood, making it thin, weak and lacking in red corpuscles; poisoning the brain causing headache and pain in the eyes.

Bad digestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's disease and diabetes.

And this is so because every organ, every nerve depends upon the stomach alone for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The great English scientist, Huxley, said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (hydrochloric and pepsin) and peptogenic products; the most sensible remedy in all cases of indigestion, is to take after each meal, one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach.

They increase flesh, insure pure blood, strengthen nerves, brighten eyes and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized package or by mail by enclosing price to Stuart Co., Marshall, Mich., but seek your druggist first.

A little book on stomach diseases mailed free. Address F. A. Stuart Co., Marshall, Mich.

### UNDER THE MISTLETOE

The well-dressed man is usually the one favored by the ladies. No one can be faultlessly dressed unless his clothing has been made to the right measurements and perfectly fitted. We not only fit and finish your clothing expertly, but we correct all imperfections of form and give you that indelible something called "style."

**F. H. Chadwick, 114 Pollock Street, NEW BERNE, N. C.**

### BONDS FOUND.

#### A Hoax of Old Issues Unearthed by Treasurer Worth.

Not Known Who Can Claim Them. An Efficient Mayor. Collecting Old Taxes. Tobacco Sales Still Large.

JOURNAL BUREAU, RALEIGH, N. C., December 3.

State Treasurer Worth has just unearthed from some old corner of a vault in his office bonds amounting to \$69,000 issued under the act of 1863. These were found under the act of 1879 at 15 cents on the dollar. There is nothing to show to whom the bonds belong. If they were held by a private party they would be worth \$9,135 in 4 per cent. He reported the matter to the Council of State and was advised to report the matter to the Legislature. If they belong to the State it is not known whether the Treasurer can destroy them or whether he will have to issue new bonds in place of these old ones.

Mayor Ross ended his connection with the city last night as Mayor and was succeeded by Alderman A. M. Powell. Seldom has Raleigh had so efficient and popular Mayor as Mr. Ross, and he will make an equally acceptable Clerk of the Court. The city treasurer in his report made a good showing.

The county commissioners yesterday decided that the road owned by the Raleigh and Gaston railroad in the Richmond, Fredericksburg and Potomac railroad amounting to \$10,000 is to be taxed for six years back. It was found that they could not make the road pay on its bonds as well as on its stock in foreign corporations amounting to \$10,000, so the bonds are offset to the indebtedness of the road.

The tobacco warehouses were all full yesterday, and the sales as well as the quality were splendid. Some of the tobacco brought \$1.00 per pound and a small lot of specially fine brought \$1.25 per pound.

The names of the new field officers of the Second and Thirty-third Regiments of the State guard have not as yet been sent to the Adjutant General's office.

### National Naval Reserves.

PHILADELPHIA, December 2.—The fourth annual meeting of the Association of Naval Militia of the United States met here today on board the old receiving ship St. Louis, representatives being Florida, California, Georgia, Louisiana, Maryland, Virginia, New York, New Jersey, Missouri and other States.

The meeting will be one of national importance on account of the movement now on foot looking toward the formation of a national naval militia.

The conference was called to order by Captain J. W. Miller, of New York, president of the association, who in a few remarks introduced Governor Hastings.

In a brief speech the Governor formally welcomed the delegates to the State and expressed his high appreciation of the records made by the militia during the recent war.

Upon the conclusion of the reading of the reports the remainder of the day was given to a general discussion of the advisability of forming a naval reserve of a national character.

It appeared to be the opinion of all those participating in the discussion that such a step would be a move in the right direction and about the only point on which there seemed to be a difference was whether or not State naval militia should be dispensed with.

Bradham's Pharmacy has been fitted with the most modern and improved appliances for filling prescriptions, besides having the largest and most select stock in Eastern Carolina, and if you are not a regular customer, and can't get your prescription filled elsewhere take it to Bradham.

### No Notion of It.

WASHINGTON, Dec. 2.—It can be stated positively that no hitch has occurred in the proceedings of the Peace Commission at Paris, and an impression to the contrary in certain quarters probably arose through a misunderstanding of the phrase the proceedings have reached.

With the acquiescence by the Spanish Commission in the American demands set out in the original protocol, all danger of a failure to reach the point of signature of a peace treaty disappeared, and that such a treaty will be forthcoming, covering at least all the protocol points, is considered assured.

Fifteen years ago Mr. Jas. F. Taylor was given the prescription for Anway's Drop Syrup by an eminent physician, and specialist of disease of children, practicing in New York, since that time it has been constantly used, always with good effects. It cures croup almost instantly. Sold by C. D. Bradham, Druggist.

### Honoring Their Empire.

VIENNA, December 3.—Fina weather lent great brilliancy to the celebration today of the fiftieth anniversary of Emperor Francis Joseph's accession to the throne. The public spontaneously united to honor the imperial anniversary.

## ROYAL BAKING POWDER

ABSOLUTELY PURE

Makes the food more delicious and wholesome

ROYAL BAKING POWDER CO., NEW YORK.

### TO REORGANIZE.

General Miles Submits a Plan For the Army. National Guards in the Scheme.

WASHINGTON, December 2.—Secretary Alger has asked General Miles to submit a plan for the reorganization and enlargement of the army. General Miles was already preparing a scheme, regarding the re-organization of the army, which is evidently being handled by Congressman Hull. It has excited comment throughout the army that the War Department should allow the chairman of the House military affairs committee to prepare so important a bill, and that General Miles, the head of the army, was not consulted. The circumstances, of course, did not fall to attract attention at the headquarters of the army, but there it seemed to be accepted as another phase of the anti-Miles policy of Secretary Alger.

The Miles bill, of course, proceeds on the basis of an army of 100,000, and makes some provision for using the National Guard and a colonial force, the former only in time of war. It provides, also, for the instruction of the militia and for an allowance for volunteers in time of peace, not only in the way of equipment, but in compensation for the period spent in drilling or in camp, say from fifteen to thirty days annually. General Miles believes that the war with Spain showed very clearly that the State troops as such were of little value when the time came for their incorporation into the federal organization.

There was not only hopeless confusion, but they were not fully equipped, and lacked training, experience and competent officers. Something must be done to place the National Guard on a footing of greater usefulness. The terms of the Miles bill contemplate this and authorize the President in time of war to draw upon trained organizations and appoint officers for staff duty with volunteer regiments.

### THE MARKETS.
