**RUSSELL IS NOTHING.**

The influence of Washington had not been forgotten. The Smith's Island news is not a new chapter. RALEIGH, N. C., Dec. 13.—The papers are having so little fun about Governor Russell's visit to Washington and its failure. The Secretary of War, it is said, refused point blank his request to have 600 of the men of the First North Carolina Regiment discharged. To have succeeded to such an absurd request as that would have emasculated a regiment of which the State is very proud. The regiment wanted to go to Cuba with full ranks and has had its wish. The Governor is said to have no standing at all with the War Department. No Governor was less helpful to it.

A leading attorney here, F. H. Busbee, has tendered his services free of charge to Mayor Waddell or any other citizen of Wilmington who may be prosecuted in the federal court here for riding the city of a lot of bad and worthless citizens. Mayor Waddell, in thanking Mr. Busbee, expresses the belief that the government will become very tired of prosecuting anybody for driving such a class of men out of Wilmington. The appointment of a new United States Commissioner in place of R. H. Bunting is understood to eliminate Bunting from the game. The officials here, with one exception, appeared from the very start to have no sympathy with the movement to prosecute. It now seems that Attorney General Griggs has the "bag to hold". The fact that it is Mayor Waddell at whom Griggs was aiming. Ninety nine out of every hundred white men in this State applaud Waddell for his manly and open course.

It is said here that Governor Russell will give the President his views as to the Wilmington revolution. If so, it will be more than he has ever done here, for he has persistently refused to say one word about the matter.

Several years ago a wealthy Chicago man got an option on Bald Head, or Smith's Island, at the mouth of the Cape Fear river, thirty miles below Wilmington. There was then, and has been until now, a contest in the federal courts between the government and the heirs of the late Joshua Walker for the owner ship. At last this ends. The Walker heirs get it, and the government, having lost in two courts, will not carry the matter to the United States Supreme Court. The Chicago man who has the option desires to build a winter hotel there. The island is covered with magnificent live oaks and palmettos. It is a strange thing that this island has the winter temperature of Jacksonville, Fla. A powerful engine was tested Saturday afternoon by the Southern Railway in a run from the shops at Spencer to Greensboro. The engine was completed last Friday. Engines and tender weigh 100 tons. The driving wheels are 6 feet 2 inches. Three of these engines will pull the fast trains between Washington and Atlanta.

**TO CURE A COLD IN ONE DAY**  
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. on each tablet.

**Cruiser Raleigh Re-arriving.**  
MANILA, December 12.—The Isle de Cuba, one of the cruisers sunk by Admiral Dewey in the battle of Manila, May 1, and which he subsequently caused to be raised, started for Hong Kong today under her own steam. She is of 1,000 tons displacement.

Captain Whiting, formerly of the Monardock, has relieved Captain Giese, of the Charleston, who has gone home sick.

The cruiser Raleigh will leave for home Thursday by way of the Suez canal.

**A POPULAR MISTAKE**

Regarding Remedies For Dyspepsia and Indigestion.

The national disease of Americans is indigestion or in its chronic form, dyspepsia, and for the very reason that it is so common many people neglect taking proper treatment for what they consider trifling stomach trouble, when as a matter of fact, indigestion lays the foundation for many incurable diseases. No person with a vigorous, healthy stomach will fall a victim to consumption. Many kidney diseases and heart troubles date their beginning from poor digestion; thin, nervous people are really so because their stomachs are out of gear; weary, languid, faded out women owe their condition to imperfect indigestion.

When nearly every person you meet is afflicted with weak digestion it is not surprising that nearly every secret patent medicine on the market claims to be a cure for dyspepsia, as well as a score of other troubles, when in fact, as Dr. Werthler says, there is but one genuine dyspepsia cure which is perfectly safe and reliable, and moreover, this remedy is not a patent medicine, but it is a scientific combination of pure pepsin (free from animal matter), vegetable essences, fruit salts and bismuth. It is sold by druggists under name of Stuart's Dyspepsia Tablets. No extravagant claims are made for them, but for indigestion or any stomach trouble, Stuart's Dyspepsia Tablets are far ahead of any remedy yet discovered. They act on the food eaten, no dieting is necessary, simply eat all the wholesome food you want and these tablets will digest it. A cure results, because all the stomach needs is a rest, which Stuart's Dyspepsia Tablets give by doing the work of digestion.

Druggists sell these tablets at 50c. per package. Cheapest and most reliable sent free by addressing F. A. Stuart Co., Boston, Mass.

**WANT TO BE CITIZENS.**

Two Wealthy Men of Manila Apply to the President. A President's Answer.

WASHINGTON, Dec. 13.—Probably the only plea of his kind ever submitted to the President of the United States by word of mouth, was that made for American citizenship by Don Maximo Cortes and his brother, Don Angel D. Cortes, members of an influential and wealthy family of Manila. The President was interested in the plea of the two young men, both of whom are educated and speak good English, but it is beyond his power to make them American citizens. The only way it can be done outside of the usual method through the courts, is by an Act of Congress. This being an exceptional case, it is possible that the President may use his influence to secure the necessary action from Congress.

The elder brother carries the following letter of introduction, written by United States Consul General Whitman, at Hong Kong: "On May 6th, 1898, Don Maximo Cortes, on behalf of his family, the wealthy and distinguished Cortes family of Manila, sent a cablegram through this Consulate to President McKinley, submitting his allegiance and praying for citizenship. Shortly after, in my presence, he gave General Aguinaldo \$10,000, with the understanding that Aguinaldo was to fight solely for annexation. With the occupation of Manila by Admiral Dewey and General Merritt, he placed all his palaces and houses at the disposal of our forces, and they are now occupied, rent free, by the American forces. Gen. Merritt acknowledged the great services rendered to our forces, both in my presence and to his successor, General Otis. In many other ways such as giving information, the Cortes family has rendered invaluable aid to our people."

Speaking of the situation in the Philippines, Mr. Cortes said: "The wealthy and the very best people of Manila are heartily in favor of annexation; in fact, nearly all of the Philippine islanders are in favor of becoming a part of and under the rule of the United States, with the possible exception of the few political insurgents who are now in power and who for selfish reasons desire independence."

A cough is not like a fever. It does not have to run a certain course. Cure it quickly and effectively with One Minute Cure, the best remedy for all ages and for the most severe cases. We recommend it because it's good. F. S. Duffy.
