Havana, Jan. 1.- The savereignty of lubs passed from Spain to the United scuated Havana,

The form of the transfer was simple nsisting only of an exchange of sches in the saloon of the palace here, hauling down of the Spanish flag and the raising in its stead of the United tates fing on the palace and other public Salutes were fired from the heavy uns of the forts and warships.

The raising of the stars and stripes was greated with cheers by people who evered the roofs of the buildings around the palace and the plaza. No crowd was sitted to gather in the streets in the richtly of the palace.

At the last stroke of 12 the boom o the gun brought all eyes to the point in the room where stood the captain-general who was talking with an American officer. The captain-general stepped to to the left, taking a position directly in Capt. J. S. Hart, interpreter to the United States military commission. Next to Captain Hart, in the order named, were Seneral Chaffee, Brooke, Ludiow, Lee, Wade, Butler and Clous. Behind General Chaffee was Senator John W. Daulels of Virginia, who arrived here yesterday.

At this moment the hand on the plaza was playing the Spanish national hymn. As the guns of Cabanas Fortress ceased fring, there was a breathless pause in the saloon. Everybody knew that the merican flag was being raised on the taff on the roof of the palace by Major Butler, son of General Butler, and that the stars and stripes were going up on all the other official buildings in

After a brief silence the band on the staza began to play "The Star Spangled Banner," when the guns of the fleet and forts began to roar out the nations salute of twenty-one guns.

On the right stood Treasurer Knight had placed this amount in bank, so as to put it in its proper place as soon as the error was found. He had spoken of it to several persons, and has given his check for the amount.

Superintendent Day, recently appointed by Governor Russell to succeed Mewborne, took charge of the penitentlary oday. He says that all offices held by Republicans and fusionists will immediately be filled by competent Democrats. There is some question as to whether the legislature will endorse any of Russell's appointments. It would surely look better should every act of his be un done, that the legislature has the pow er of looking into. In appointing Dem ocrats he is only catering to a Democratic legislature
