DEES GETS SEATED.

Discussion of this occupies both Houses. This morning for the first time, Special to Journal.

RALEIGH, January 11.—The contest for representative from Pamlico county, between Dees, Democrat, and Paul, Fusionist, was decided tonight by the committee in favor of Dees.

The discussion of bills occupied the attention of both Houses today.

The report of the Senate committee sent Franks was held over until tomorrow, in order to give Senator Glenn an opportunity to present the facts regarding the Cherokee Indians for citizenship. A. E. S.

THE CHEROKEE VOTE

Gives Republican Senator in 31st District.

It Also Insures Democratic Congressmen. Important Bills. Third Regiment Mustered Out a Matter of Danger To Raleigh.

JOURNAL BU BUAU.
RALEIGH, N. C., January 11.

In the contest between Cannon and Franks in the 31st Senatorial District the committee has decided to have Franks, Republican, retain his seat. The contest devolved upon the vote of the Cherokee Indians of Swaine county who voted for Franks and the committee decided that they were not tribal under the treaty of 1835, and were therefore citizens. The Indians voted solidly to the number of 278, for Franks their county man but voted for the Democratic ticket and the decision makes quite certain the election of a Democratic Congressman in future as they voted for Crawford, Democrat, last election.

The Judiciary Committee advised for favorable action the bill for relieving the disability of married women in the matter of real estate titles and also on the divorce bill making one year separation ground for divorce instead of two years as in the laws of 1895.

Senator Wilson's bill to investigate the Agricultural and State Departments was reported favorably and also the bill to repeal the Act regarding the distribution of dead bodies.

The Senate bill to repeal the charter of Elizabeth City passed a final reading.

In the House a favorable report was made on the bill raising a special committee to look at the Acts of 1895 and 1897 and decide what ones are meritorious. The bill repealing all said laws was voted down.

The bill was reported favorably providing for a complete investigation of the penitentiary and the refusal of any witness to attend and testify was made punishable by a fine of not less than \$100 or more than \$1000.

There was an unfavorable report on the prohibiting convict labor on farms to the extent of only raising enough produce to provide food for the penitentiary.

A resolution was introduced inviting Rev. J. B. Aivrett to deliver the oration before the Legislature on Robert E. Lee's birthday January 19th.

The Grand Lodge of Masons met in the Masonic Temple on Fayetteville street last night and there was a very large attendance. Reports were read and referred to committees. The address of the evening was delivered by Mr. Locke Craig, the annual orator. The Lodge was called to order by Most Worshipful Grand Master Walter E. Moore. The order is in fine condition throughout the State.

There is little doubt that the Third Regiment will be mustered out in this city within a short time. It is not believed that the Raleigh police force is capable of handling the disorderly negroes who will be turned loose and it is proposed to request the Governor to order a battalion of the State Guard to remain here until the negroes leave. The opposition to the mustering out here has been strong, but it seems likely that such will be the outcome.

The prominent negroes held a meeting last night and endorsed "Hon. Isaac H. Smith" for his action and condemned the "gross outrage" committed by the white Republicans in shutting him out of the caucus. They adopted the following as the 4th section of their resolutions: "We ask the other colored members, both in the House and Senate, to come to the rescue of their friend and ally themselves with the better element of this grand old commonwealth and show to the world that we are no longer to be led by men who care nothing for us or our interests save our votes."

To Probe the Canal Frauds.

NEW YORK, January 10.—Governor Roosevelt has taken a long step toward keeping his promise to prosecute the canal frauds.

He appointed as special counsel for the State, Franklin D. Locke, of Buffalo, who is a Democrat, a representative lawyer, a man above reproach in every walk of life and an active leader in several reform movements.

It was the Governor's desire to get a man who should be of the opposite political faith to himself and who would be above all suspicion of any sympathy with the constructors or officials either from party or social reasons. He has the firmest reliance in the ability of the attorney general's office, but at the same time felt the need of having his own personal representative engaged in the canal case.

Paul Perry, of Columbus, Ga., suffered agony for thirty years, and then cured his Piles by using De Witt's Witch Hazel Salve. It heals injuries and skin diseases like magic. F. S. Duffy.

LITTLE TO GAIN AT ILOILO.

Objects of the Americans Was to Remove the Spaniards, and They are Now Free.

WASHINGTON, January 10.—Such news as has been received today from General Ojia is reassuring as to the situation in the Philippines. He made no allusion to a hostile collision. The General has been instructed to use gentleness in dealing with the insurgents and to cooperate with Admiral Dewey.

A question has arisen here as to the exact purpose to be served now in attempting to seize Iloilo. Originally it was intended to release the Spaniards besieged there, but by their evacuation of the place they have removed that incentive, and were it not for the false encouragement there would give this insurgents, there is little doubt that the United States troops would not be moved against Iloilo.

Meanwhile the navy is expected to draw a corolon around the Island of Panay, and also Luzon should it be deemed necessary to do so, to prevent the further supply of arms and munitions of war to the Philippines.

Mr. Stump on Immigration.

WASHINGTON, Jan. 10.—Ex-Commissioner of Immigration Stump appeared before the industrial commission today and gave his views on the immigration question. He said that if it was desired to simply restrict immigration, the education test would accomplish it. However, we desire to secure a good class of workmen this test would not be so efficient. The importation of honest men to do the rough work even though they might be styled ignorant, had tended to elevate our own people. Mr. Stump said that the present immigration law should be amended in regard to importing laborers under contract.

Condition of Mr. Dingley.

WASHINGTON, January 10.—No material change has been reported in Representative Dingley's condition today. He has been a trifle more comfortable, and there has been a very slight abatement of the nervousness which was so severe yesterday. About the best that can be said is that he is not appreciably worse. At 10 o'clock tonight one of his sons made the following statement: Mr. Dingley is holding his own and resting quietly; Pulse good. Doctors expressed themselves more hopeful.
