NO DISCUSSION

Followed Reading Governor's Message on Wilson, Business of the House.

Special to Journal, Raleigh, January 12.—Governor Russell's message on the Wilsons was read to both House, today, but no discussion followed its reading. Two hundred copies of the message were ordered to be printed.

Otto Wilson was present in the House. Winston of Bertie, introduced a bill in the House to discontinue the Penitentiary farms after 1900, and to place the convicts on the county farms, to raise food for themselves and the county poor, and to work the county roads.

A bill was introduced for the better government of Herford county, which caused much discussion.

This bill provides for five new commissioners; and the county commissioners shall have the right to reject bonds which may be given in Surety Companies.

This bill was of special importance to the counties of Eastern North Carolina. It passed by a vote of 90 to 25.

The proposed new Election Law is being discussed in committee.

Comment on the Wilson message reveals nothing new. A joint committee of five will now be appointed to investigate the entire matter.

La Grippe is again epidemic. Every precaution should be taken to avoid it. Its specific cure is One Minute Cough Cure. A. J. Shepard, Publisher Agricultural Journal and Advertiser, Eden, Mo., says: "No one will be disappointed in using One Minute Cough Cure for La Grippe." Pleasant to take, quick to act. F. S. Duffy.

COMMISSION FOR FILIPINOS.

President McKinley Will Appoint One to Manila of Mutual Interest.

WASHINGTON, Jan. 10.—General Otis was heard from again today from Manila, and the contents of his cablegram were so reassuring as to the situation there and at Iloilo that the officials here have come to accept without question the correctness of his statement that the critical stage is past, and that he had control of the situation.

The commission which the President is about to appoint to proceed to the Philippines will not be subject to the confirmation of the United States Senate, but will be named under reserved authority of the President, and its expenses will be paid out of the war expenses.

It is not expected to commit the United States government to recognition of the natives; nor is it to frame a government for the islands as was the case with the Hawaiian commission. Undoubtedly, however, the commissioners will unofficially confer with the natives and advise the military authorities, it being felt here that men of their experience and consequence will be valuable counselors in the condition now existing.

It is believed that the natives can be kept from hostilities until the arrival of the commission at Manila, and then it is hoped that the best results will follow the visit, including the reassurance of the natives upon many points as to which they are now doubtful. It will be perceived also that by the appointment of the commission the President is granting the appeal of some of the best Filipinos who are confident that both sides will be enlightened by its creation, and declare that the United States government will be induced to have patience before insisting upon instant self-government.

So far as can be gathered, the President has not completed the list of the commissioners. Supposing that he includes General Otis and Admiral Dewey he would add the names of President Schurman, of Cornell University, and Professor Worcester, of Ann Harbor. He has under consideration the name of Mr. Denby as engaged with the War Investigating Commission at present, but he has not positively decided to appoint him.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo-Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. on each tablet.

Pest Germs in Havana.

HAVANA, Jan. 10.—The casemate in the artillery building chosen for General Ludlow's office near the Palace has proved so foul that the air extinguished candles and suffocated dogs and cats which ran in.

The colossal task of putting into proper sanitary condition every dwelling in Havana began today. Surgeon Davis hiring one hundred resident physicians for a house to house inspection, to compel obedience to the new regulations. All cess pools under houses are to be closed and sealed. Garbage is to be removed daily.

It is expected that the city will be in fairly good condition within three months.

These are dangerous times for the health. Croup, colds and throat troubles lead rapidly to Consumption. A bottle of One Minute Cough Cure used at the right time will preserve life, health and a large amount of money. Pleasant to take, children like it. F. S. Duffy.

INTO FORMER DISTRICTS

Bills to Place Counties Back in Old Districts.

To Prevent Seating Congressman Roberts. Plenty of Committee Work Done. Death of W. R. Tucker. Capital Club Reception.

JOURNAL BUREAU.

Raleigh, N. C., January 17.—Whereas, at an election held in Utah in November, B. H. Roberts was elected as a member of the 56th Congress of the United States, and as the said B. H. Roberts is a polygamist, having three wives and living in willful defiance of the sense of morality of the American people.

Resolved, That our representatives of the 56th Congress be requested to use all the means in their power to prevent the seating of the said B. H. Roberts, member-elect from Utah.

Such are the instructions issued to the Congressmen from North Carolina. They were introduced in the House yesterday and referred to the Committee on Federal Relations. They will report favorably on the same, and the Senate will concur as soon as the resolutions are presented.

There will be a switching back of counties into the old Congressional districts where they were located before the days of fusion legislation. A bill was introduced in the House putting Mitchell county, one of the strongest Republican counties back into the Eighth district. Pearson had this county put into the Ninth district to make his election sure. Yarkin and Davis will go from the Eighth back into the Seventh. This will be as of old and will restore the balance of power.

Senator Bryan yesterday introduced the bill known as "S. B. 139," a bill to be entitled an act to repeal the charter of the City of New Bern. It was referred to the Committee on counties, cities and towns.

Although both the Senate and the House adjourn early in the day, the talking is not over for the day by any means. In fact it is just begun. The bills are before the committees which meet in all sorts of places, the Supreme Court building being the favorite place. At these meetings the talk goes on unceasingly. As an instance the joint committee on Fish and Fisheries debated for three hours the bill to repeal chapter 81, laws of 1897, which forbids fishing with gill nets over 20 yards long in Albemarle sound. The Committee on Pensions passed favorably upon a number of bills. The pension bills will mainly go into one bill and passed in a lump.

Forty bills and resolutions were introduced in the House yesterday, most of them of small importance except to the local interests involved. The bad weather of last week has laid up a number of Senators and Representatives and the attendance was smaller than usual.

Last night the politicians and railroad men gave a reception to the Legislators at the Capital Club. Among the ones who paid for the blow out were Col. A. B. Andrews, Capt. W. H. Day and Hon. F. J. Simmons. Wine flowed freely and a festive time passed by entertainers and entertained alike. Capt. Day as the new appointee of Russell for Superintendent of the penitentiary entertaining the representatives of the people with a wine sipper is something worth seeing. Will the bid be accepted is the question now.

The State Museum is receiving constant accessions. Yesterday a lot of Indian pottery, pipes and other relics, and valuable mineral specimens from Macon and Mitchell counties. One of the minerals was a specimen of green cyanite. Through the courtesy of Col. F. A. Olds, the museum also received a piece of the Spanish flag that came down from Morro Castle at Havana January 1st, when the American troops, led by the First North Carolina Regiment took possession of the city.

Old Yets will be interested in seeing the flag of the Second North Carolina Regiment which is back to its native place after thirty years absence. The flag was taken at Richmond and is splendidly preserved. It is to be seen in the office of the Adjutant General in the Capitol.

Last night at eleven o'clock occurred the death of Mr. Wm. R. Tucker at his home on Hillsboro street. The Tucker family is widely known and has large interests in the Raleigh and Gaston and Atlantic and North Carolina railroads and other corporations.

The big new building on Fayetteville street, five stories high of pressed yellow brick and by far the most prominent office building in the city, was being built by Mr. Tucker. It is not yet completed. Mr. Tucker was only 33 years of age. He married Miss Gertrude Winder, daughter of the late Maj. John C. Winder.

der. They have three children. He was known in his college days and afterwards as an athlete and was tall and fine looking and the picture of health. Yet with abundance of wealth his health has been declining until the end came. His death is a loss to the city and community as well as to his numerous friends.

The news that the suit of Thomas F. Ryan at Baltimore to prevent the sale of the Seaboard railroad stock to the new syndicate was decided against Ryan was received with interest here. It is denied that the Southern has any interest in the purchase.

Paul Perry, of Columbus, Ga., suffered agony for thirty years, and then cured his Piles by using De Witt's Witch Hazel Ointment. It heals injuries and skin diseases like magic. F. S. Duffy.

We have everything that is kept in a First-Class Bicycle Establishment.

GASKINS' CYCLE COMPANY, Plumbers Building.

Money Lost on Wheels

LONDON, Jan. 16.—The year just closed has been unfortunate for the shareholders of many bicycle manufacturing companies. Particularly in this case in the Birmingham district, where the effects of the great bicycle boom of 1896 are more apparent than anywhere else.

Within the last few weeks no fewer than four big companies have gone into liquidation and others are reported in a precarious condition. It has been estimated by a writer on the subject that the purchasing of the boom has cost Birmingham and the surrounding district \$60,000,000.

Volcanic in Eruption.

NAPLES, Jan. 16.—An eruption of Mount Vesuvius is attaining great proportions. The flow of lava is almost unprecedented, and streams of fire are pouring in all directions, though as yet no severe damage has occurred.
