Jontpal sontempt. "You're a cheap skate," he aid deliberately.-Chirsgo Record.

THE HUMAN VOICE. not yet perfectly persistent young friend, who asks me about 1t, " said Mr. Stay-Its Quality Depends Upon How the oolt, "that there is no such thing as an Breath Is Managed incubator that will hatch out engles from dollars while you wait; that the

The voice is preduced by various organs, which have functions of life to discharge before and above speaking. These are the lungs, the windpipe, the threat and the month. The lungs are the believe of this wonderful organ, viewed as a wind instrument. For it is both a wind, a string and a reed instruments. It is of the nature of all the solunding instruments and is superior to each of them. We live by breathing, and we must breathe wisely to speak well. Speaking is a use of the lungs which human beings have found

The breathing to live is of the same na-The breaking to live is of the same na-ture as the function of the cyc or the ear. The breaking is to be done well. To man-age the incents properly is the first re-quirement of the set of speaking. To compress and condense the air in the lungs and then to force it straight at the vocal and user to force it satight as no yoan organ in the threat is to manage the breath properly. It is an artificial process. There is deep breathing, called disphrag-matic or aldominal breathing; there is bread or wide breathing, called rib breath-ing, and there is shallow breathing, called collar bone breathing. The full explana-tion of breathing. The full explana-tion of breathing. tion of investiging must be left for the in-structor. Suffice it to say that deep breathing is the only possible irreathing for the true mee of the voice. Sound must come without breath. Breath coming with the sound exhausts itself too soon, and it makes the sound exhausts makes the sound harsh. You have only to try it to become conscious how the tone

to try it to cocome contactous now the tone is affected by it. Mr. Sandlands tells us of a very good hint he got on this point. Hold a lighted-candle before your mouth while you are giving forth the sound. If the finne flickers, there is breath with the sound. The finme will not flicker if there is only sound.—Chambers' Journal.
