No trouble is more com alsunderstood than nervous dyspepsia. People having it think their nerves are o blame and are surprised that they are not cured by nerve medieines. The real seat of the mischie is lost sight of. The stomach is organ to be looked after.

Nervous dyspeptics often do not have any pain whatever in the stomach, nor erhaps any of the usual-symptoms of tomach weakness. Nervous dyspepsia shows itself not in the stemach so much as in nearly every organ. In some cases the heart palpitates and is irregular; in others the kidneys are affected others the bowels are constipated with headaches; still others are troubled

The genuine has L.B. Q. the place. The bill was to pay him \$120 on each tablet. of the salary of which he was deprived. The claims committee had reported

favorably on the bill. When the matter came up for discusdon a number of members spoke against it. Curtis of Buncombe said he "thought Swinson should have admitted negro appointees to his office, that he received the office by virtue of the negro vote and that he failed to see anything con sistent in Swinson's course. The mem ber from Union said that the Democrati party had achieved its victory upon the issue of White Supremacy and that Swinson should be sustained in his action by the payment of his claim. The first kind of "logic" was popular however and the bill was lost by a vote of 37 to 60. The argument of Mr. Justice or behalf of the committee had no effect either. He said that the committee based its action on a decision of the Supreme court of North Carolina, where it was decided in the case of Woods that yo can't take a man's office from him b abolishing it-creating it under a new name. He said this was a constitutions right; that it was a matter of justice and tight that he did not have any more sympathy for Swinson and his politics than the other members in the House but that the legislature of 1807 violated the constitution and violated all proper

ty rights in ousting Swinson and putting in his office two political beelers. The investigating committees are ge ting in their work. The one at the peni tentiary reports it will take all the week or more to look into things; the Wilson Railroad commission committee met last night for the first time. Able consul for the Governor and for the Wilsons are in the case. It is a good thing for lawyers a any rate. The printed statement of Russell against the Wilsons as presented in the message is in circulation for those who wish to study the matter, but as the newspapers give everything in full, it would seem superfluous to print it in pamphlet form. The people of Fayetteville are still flocking into Raleigh, all on all account of the Dispensary law. Some are for and some are against. The law to a decision of the vote of the citizens of the county, is the 1900 negro vote. So the White Supremacy issue is still in force and will be until the Legis-
