### Rad for Pillpinos.

WASHINGTON, March 8 .- A fact in con ction with the regulars sent to reinree General Otis in the Philippiaes that gives considerable satisfaction to the War Department is that they are all armed with the "caliber-30" rifle, comonly known as the Krag-Jorgenson.

There has been considerable uneasiless because the volunteers on the firing line around Manila were at a decided dendvantage against the natives, as the Pilipino sharpshooters, armed with Mat sers, could lay out of range of the Springfields, with which our volunteers are armed, and shoot them to an extent limited only by the bad mark-manship of trast to former sessions when it has hap- can do.

With the arrival of the regulars this situation will be completely changed. They have the Krag-Jorgenson rifle, which is practically just as good a gun good feeling displayed. Lieut.
