Raleigh Elections.
City Election May 3rd, Bond
Election Later.

**THE VANCE MONUMENT. THE EDITORS

POX IS SPREADING. THE FIRST

JOURNAL BUREAU.
RALEIGH, N. C., March 13.

Talking with some interesting men, who
may or may not represent the majority
of their class, the sentiment was ex-
pressed that they would not vote for the
new issue of bonds for more street im-
provements. They said they were not op-
posed to improvements but thought
there were too many \$4 a day men to
pay for them. They said that it
cost \$200 to survey one street and
that an overseer would be placed over
one or two workmen and he would sit
and smoke while superintending. Per-
haps these complaints are not well based
but the matter should be presented to
these men in a different light, if their
votes are to be obtained on election day.
It has been desired that the bond elec-
tion should be held as soon as possible,
or at the city election which occurs
May 3rd. It has been found however
that on account of the required time for
notice and publication that this is not
possible and the bond election will not
be held for at least 60 days after May 3,
which postpones the matter for quite
a long period.

The city election this year will be un-
der the new election law. The call has
been issued by the chairman for a meet-
ing of the executive committee tonight.
They will meet and fix the time and
place for the primaries. The nomina-
tions will be for a mayor and other offi-
cials and for two aldermen from each
ward. The four wards are di-
vided each into a first and second divi-
sion, so there will be 16 aldermen to be
elected from the four wards of the city.

The site for the new Vance monu-
ment for which the legislature appropri-
ated \$5000 will be at the head of New
Bern Avenue on the east side of Capitol
square. This is on the opposite side
from the Confederate monument which
looks down Hillsboro street. The execu-
tive committee has funds already on hand.
They have elected H. H. Battle as presi-
dent and the committee will meet with
the legislative committee appointed by
the General Assembly. Prominent artists
will be asked to submit plans and draw-
ings which will be carefully gone over
before a decision is made.

The party of editors from New Eng-
land are expected here on the 20th and
tomorrow night the Chamber of Com-
merce will make arrangements for enter-
taining them. They will be given a
good opportunity to see the good points
at Raleigh and as they represent the
leading dailies from "down east" the
occasion of their visit is considered "an
important one."

The much talked of corner stone on
the Institution for the Blind containing
the names of the fusion directors, in-
cluding that of Jim Young, on account of
which a special law was made by the
legislature, is all right now. The names
have now been all chiseled off and in
their place are cut the dates 1815-1893,
the years when the old and new parts of
the building were constructed. Even
stone could not perpetuate fusionism
when Democracy got on the war path.

Walling has been heard from the far
east that the "Jim Crow" law was not
sufficient enough for the purpose. Senator
Ward and other eastern members did
not get it in just the shape they wanted,
but it is a good beginning, all that could
be passed, and will serve the purpose if
carried out. It means something
to the railroads was shown when the bill
passed making the law "in effect from
and after its ratification." Judge Allen
and others were sure that there was
time given for the railroads to provide
separate accommodations but investi-
gation showed otherwise, and a bill to
amend by making the date June 1st was
rushed through. If the new law did not
mean anything, the roads would not
have been so anxious to obtain time be-
fore it went into operation.

Judge Thomas C. Fuller of Raleigh
has been re-appointed by the President
as Associate Justice on land claims.
The office pays \$5000 a year and the
court sits at Santa Fe.

The small pox scare is something
serious and the disease is widely spread,
although it does not seem to be very
severe in any section. It is reported
now from 17 counties in the State. Vac-
cination as the only safety is strongly
recommended by the authorities. Travel-
ing men are especially careful in being
vaccinated as they are more exposed
than others. Dr. R. H. Lewis of the
State Board of Health, warns people to
take this precaution or an epidemic may
follow. The latest report on the disease
comes from Burlington where there are
11 cases and great alarm is felt. Raleigh
so far has escaped with the one case re-

**REPORTED SOME TIME AGO AND THE VERY GREAT
CARE TAKEN TO PREVENT ITS SPREAD WAS
EFFECTUAL. NO ONE WAS ALLOWED NEAR THE
HOUSE EXCEPT THE DOCTOR AND ATTENDANT
AND A SENTRY BOX WAS BUILT IN THE STREET
WHERE AN ARMED MAN KEPT SEIGE OVER THE
PLACE DAY AND NIGHT.**

The people of Raleigh are looking for
the home coming of the gallant First
and will prepare them a hearty welcome.
This will be done at no very distant day.
Meantime the cruiser Raleigh is ap-
proaching these shores and will so on ar-
rive at Norfolk. On board is a souvenir
gun from the Spanish ship at Manila, to
be presented to the city of Raleigh. The
Raleigh Post wants the city to furnish a
set of silk colors for the cruiser, costing
about \$250 and will receive contributions
towards a fund for that purpose. The
cruiser is due some time in April.

The new tax on theatres and opera
houses operated for profit is as follows:
In cities of ten thousand people and up-
ward \$200 a year, in cities of 5,000 to 10,
000 inhabitants \$100 a year, in cities
from 2,500 to 5,000 the tax is \$50 yearly.
Theatrical companies are taxed \$10 for
each entertainment. The proceeds from
the tax is to be equally divided between
the county and State, and the sheriff of
the county is to levy and collect the same.

DELAY IN RATIFYING.
Spain's Course in Regard To The Peace
Treaty Not Understood. Treaty Must
Be Ratified Before June 1st.

WASHINGTON, March 12.—There can be
no reason not apparent on the surface
for the delay of the Spanish govern-
ment in ratifying the peace treaty.
Twenty million dollars in gold is waiting
to be dropped into the impoverished
Spanish exchequer. Although the Span-
ish Cortes has failed to take action, the
Queen regent has the power at any mo-
ment to put the treaty into effect by her
signature. It would appear scarcely
probable that Spain could have any hope
of regaining the Philippines, and the
\$20,000,000 would be a most desirable
acquisition for a government which has
nothing in its treasury.

There is much gossip in diplomatic
circles here over this. One suggestion
is the government is afraid of the people
and for this reason hesitates. But there
cannot be much in this, as popular wrath
and disapprobation have already been
spent. The other suggestion is that
Spain still clings to the vain hope of
foreign intervention and the prospect
that she may, in some way or other, be
enabled to hold on to a portion, at least,
of the Philippines. The President does
not take any such view, and is of the
opinion it will not be long before Spain
formerly accepts the terms of the
United States.

In the meantime there can be no dis-
guise of the fact that the uncertainty
of the situation constitutes more or less
of an embarrassment. Technically, hostilities
between the United States and Spain
have not terminated, but are only sus-
pended. Until the treaty is definitely
concluded the protocol stands. By its
terms the United States are entitled to
the occupation of the city, bay and har-
bor of Manila. It is claimed we are vio-
lating international law in going beyond
these boundaries, and the advance of
General Otis into the country of the In-
surgents now in progress is an invasion
of territory over which we can have no
lawful right until ratifications of the
treaty are exchanged between Wash-
ington and Madrid.

Authorities on international law would
doubtless, uphold this construction, yet,
as has been said, a strong government
respects any more of what is called inter-
national law than happens to suit its
purposes for the time being. Spain, if
so disposed, could enter a protest against
the United States forces going beyond
the boundaries fixed by the protocol,
but the only reply conceivable would
practically be "what are you going to do
about it?" This government is in for the
whole business, and the determination
is shall be "forward march!" If mili-
tary calculations are borne out, our
troops will have unimpeded possession
of all the strategic and important points
in the Philippines by June 1. According
to the terms of the treaty, it must be
fully ratified before that date. If Spain
has still failed to act at that period, we
will, according to what is said, be in
complete occupation of all of the Philip-
pine territory worth having, and can do
as we please about giving her the money.

AN ADVANCE MADE.
Gen. Wheaton's New Brigade Moves For-
wards to Corral the Philippines. Natives
are in Full Retreat.

MANILA, March 13.—General Wheat-
on's newly formed divisional brigade ad-
vanced this morning from San Pedro
Macati for the purpose of corraling the
Filipinos.

It is now moving on Pasig, meeting
with slight resistance, as the Filipinos
are in full retreat.

A gunboat is clearing the jungles along
the river banks, which have been carried
as far as Guadalupe.

The purpose of the move is to clear the
country to Laguna Bay.

San Pedro Macati, which is the base
of General Wheaton's advance, is a town
of 3,211 inhabitants, three miles from
Manila.

Pasig is a town of 22,000 inhabitants,
seven miles distant from the capital.

Volunteers Want to Stay.
WASHINGTON, March 12.—The follow-
ing is an extract from a letter from
Major Theodore Stenberg, paymaster of
United States Volunteers, dated Manila,
January 29, 1899, to an officer in the War
Department:

"I wish you would call the attention
of the President and Secretary of War
to this. There is not less than 10 per
cent of the volunteers who honestly wish
to remain in these islands and make
homes here and engage in agriculture,
timbering and mining. From every
point of view this should be encouraged,
unless America means to haul down its
flag and sneak home. The time will
come when every American will recog-
nize the value of these islands.

"Knowing the value of the pioneer I
say deliberately that each of these plain
soldiers, young, vigorous and used to
this climate, by remaining here will be
of incalculable value to our country. I
take no stock in the cry that white men
cannot work in the tropics. They can
when working for themselves. There
are no healthier people than the English
and Scotch who have lived here for
many years. At all events, the govern-
ment has here now the cream of Ameri-
can young manhood, who are anxious to
try the thing."

PROOF.
It is an easy matter to claim
that a remedy has wonderful cur-
ative power. The manufacturer
