Tablets are the best and most effectual cure for every form of indigestion.

They are in the tablet form which retains their good qualities indefinitely, while liquid preparations become stale and useless with ago.

They are convenient, can be carried in the pocket and taken when needed. They are pleasant to take.

After each meal dissolve one or two of them in the mouth and, mingling with the food, they constitute a perfect di-gestire, absolutely safe for the most sen-

altire stomach.

They digest the food before it has time to ferment, [thus preventing the formation of gas and keeping the blood pure and free from the poisonous products of fermented, half digested food.

Stimat's Dyspersia Tablets is the only reinsdy designed especially for the once of atomach troubles and nottling else.
