NEEDED MONEY

For Penitentiary Expenses Which Was Paid Over.

Governor Makes Off Leasing No Fresh Wheat and Oats Poor. Naval Reserves Can Increase to 5,000. Another Case of Small Pox.

RALEIGH, N. C., March 31—Information comes here that Charlie Bobo, a soldier in the regular army, is in serious trouble at Havana; that he killed a policeman, has been court martialed, and sentenced to be shot. His step father, Dr. A. Kanipe, has gone to Asheville to consult Senator Pritchard, and a strong effort is being made to save the young man's life. Kanipe is a man with a history. He is one of two men who escaped from the Custer massacre. He was carrying orders at the time, and made his escape, and after travelling some miles visited Mrs. Bobo and informed her of what had occurred, her husband being one of the victims. He rescued Mrs Bobo, whom he afterward married.

Governor Russell has left Raleigh company with J. C. L. Harris. He observed his usual queer habit of keeping his destination secret, but it is reasonably certain that it is Washington, D. C.

Dr. Nicholas Butler, dean of Columbia University, will deliver the annual address at the University of North Carolina. Bishop Hugh Miller Thompson, of Mississippi, will preach the annual sermon, and Speaker Henry G. Connor will deliver the address to the law students.

The stand of wheat and of fall sown oats in this section is reported to be very poor. The severe winter and the excessive spring rains have injured these crops.

Rains have done much damage in the state west of here. Farming operations are much delayed. It will require admirable weather in April to enable the farmers to catch on with their work.

The manufacture of shirts in the penitentiary has not been a money-making business, and as a result it will end. At one time 60 convicts were employed at this work, but at the last only 40. The machines belong to a New York firm, and are in what is known as the new chapel.

There are now in the prison only 271 Federal and State convicts. Their clothing is made from cloth manufactured in Georgia. There is little going on in the way of work in the big prison. Sore arms, from vaccination, are the rule and not the exception. As yet no brick making has been done. The clay on the leased farm near here is exhausted, and the next will have to come from the line of the Raleigh & Cape Fear Railroad.

The number of the Naval Reserves as well as of the infantry of the State Guard is being considerably increased. Under the new law there may be as many as 5,000 men. The State is able to secure equipment now for only 60 men to a company. There may be men in excess of that number, but if so they will have to get along as best they can for a time.

Thursday Chairman Travis, of the new penitentiary board, called on Father Worth and wanted $10,000 of the $50,000 special appropriation for the penitentiary, but the State Treasurer sent over and saw the attorney general, and decided, in view of the existing complications, not to pay out any of the money unless upon vouchers signed by two members of the new executive board of the State's prison, and by Capt. W. H. Day. This morning Capt Day and W. H. Osborne were seen entering the capitol together. They went into the Treasurer's office together. Day said, "Money is certainly needed to buy mules. I am willing to sign any paper to enable Osborne to get the money. If the mules are not bought within the next 20 days it will be useless to buy them." Osborne said, "Travis has made a demand for the money and will not come back." "Then I will go with you to see him," said Day. "At least 25 or 100 mules are needed, and at least $10 a head has been lost by not buying two or three weeks ago." Treasurer Worth said, "I have the money on hand and only want to be made safe. The attorney general advised me not to pay until the penitentiary question is settled. But if both sides sign the voucher it is to absolutely correct and safe. For if one did not get the money the other would do so. All I want is protection."

A little later, Travis, Osborne and Day signed a voucher and the money was paid over to Travis by the Treasurer.

The city physician has pronounced the suspected case of smallpox a true case and the patient and a negro nurse were removed to the pest house.

At this season of the year when pneumonia, la grippe, sore throat, coughs, catarrh, bronchitis and lung troubles are to be guarded against, nothing "is a fine substitute," will "answer the purpose" of is "just as good" as One Minute Cough Cure. That is one infallible remedy for all lung, throat or bronchial troubles insist vigorously upon having it if "something else" is offered you. F. S. Duffy.

May Send Back The $3,000,000.

HAVANA, March 30.—Governor-General Brooke has almost made up his mind to send the $3,000,000 back to the United States if the Cuban military assembly does not give up the army rolls.

"You may as well do so and not trifle much longer," said Secretary Alger when discussing the subject two days ago in conference with General Brooke and General Gomez. The latter said that such a course would serve the assembly right.

General Ernst called upon the Cuban general Rafael Portuondo, chairman of the Assembly's executive committee, three days ago and asked for the rolls.

"Do you come from General Brooke?" asked Portuondo.

"Yes," replied General Ernst.

"Officially?"

"I come unofficially," said the American officer.

"Then I cannot give up the rolls," declared Portuondo. "I can only do so on official recognition."

A file of United States troops would probably be sent to take the rolls if the military administration knew exactly where they were, but there is a feeling that a mistake might be made and the administration might be put in the light of over-anxiety and possibly be laughed at.

In a conversation with an old friend from San Domingo today General Gomez said:

"I am ready to go home. I am tired of this jangle with the assembly. I have learned something about this people which I did not know before. They are an ungrateful people. They do not appreciate what the United States government is doing for them—a service in which I am assisting.

"These assembly commissioners have run off again to the United States to beg for money, while I, who have a wife in San Domingo, have not money enough to bring here. But there I do have a house and might be sure of enough to live on. I am old and tired, and I feel like going back."

TO CURE A COLD IN ONE DAY

Take Laxative Bromo, Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q on each tablet

To Prevent a Cold.

A cold is the result of a stoppage somewhere of the free circulation of the blood, to which one is first sensitive through a feeling of chill.

So slight is the chill sometimes that not until the preliminary sneeze comes is the victim aware that he has been in the track of a draft, or that the temperature has changed.

The usual notion is that by going indoors, changing to heavier clothing or retreating from the moist temperature the danger is averted. These precautions are all well enough, but the first and most efficient measure should be to restore the quick flow of warm blood through every vein, and so by heat constantly counteract the little chill.

One method is to inhale three or four deep breaths, expand the lungs to their fullest extent, holding every time the inhaled air as long possible, and then slowly letting it forth through the nostrals

In doing this the inflation of the lungs sets the heart into such quick motion that the blood is driven with unusual force along its channels and so runs out into the tiniest veins.

This radiates a glow down to the toes and finger tips, and sets up a quick reaction against the chill. The whole effect is to stir the blood and set it in motion as if from rapid exercise.

Try it when taking a cold drive or when condemned, by accident, to sit in wet garments. Let the maxim to a victim of colds be always: Keep the blood in rapid action; use the deep held breaths when a first chill is felt.—Farm, Field and Fireside.

Notice to the Public Vaccination!

All persons residing in the city of New Bern who have not heretofore been vaccinated are notified that the city physician has been instructed to vaccinate all applicants at the expense of the city.

The city physician will attend for the purpose of vaccinating applicants at the City Hall daily, between the hours of 12 and 1, except Saturdays, and on Saturdays between the hours of 10 and 11 a. m and 4 and 7 p. m. beginning on Wednesday, March 29, 1899, at noon (or one week from that date).

J. J. Tolson, Clerk.

Heavy in the South West.

KANSAS CITY, Mo., March 30.—Reports from the Southwest tell of a general storm exceeding in severity that of Wednesday, which was a record breaker.

Chillicothe reports the worst snowstorm in Northern Missouri in many years, with all already exceeding a foot in depth on the level and the storm is still ranging.

Atchison, Kan., report heavy snow from there to Omaha, which is being drifted by a strong wind.

The Missouri Pacific Railroad reported from six to twelve inches of snow from Atchison to Grafton and two feet at Blue Rapids and Waterville, Kan.

At Leavenworth street car traffic has been impeded.

ST. JOSEPH, Mo., March 30.—One of the worst snowstorms of the season has been raging here since last night. The wind is blowing, and snow is so badly drifted that street cars have been unable to run. Some railroad trains have been abandoned. The temperature is 22 degrees. The storm is the worst experienced here in many years so late in the season.

OTTUMA, Iowa, March 30—There is five inches of snow here. It is still falling heavily.

J Sheer, Sedalia, Mo., conductor on electric street car line, writes that his little daughter was very low with croup, and her life saved after all physicians had failed, only by using One Minute Cough Cure. F S Duffy.

Maloles Falls.

Cablegrams from Manila state that Malolos, the Filipino capital, was captured Thursday morning by the American advance column under General MacArthur.

The attack on Maloles began at 7 a. m.

It was 9.30 a. m when General MacArthur entered Malolos. The Filipinos burned the city simultaneously with evacuating it.

They are now in full retreat toward the north, where Aguinaldo and his cabinet have been for two days.

General Otis, commander in chief at Manila, cabled to the War Department last night under date of Friday that General MacArthur "made dispositions" on Thursday for the attack on the Filipino capital.

In the fighting on Thursday the American loss was four killed and twenty three wounded. This makes the total American loss in the Philippines up to, but not including any part of today 171 killed and 947 wounded.

Dr. Bull's Cough Syrup.

Mothers! This wonderful remedy will save your child's life when attacked by Croup or Whooping-cough. It never fails to cure throat and lung troubles. Price 25 cts
