WILL NOT AWAKE.

One to Wait and see if Aguilado Has Any Fight Left in Him.

WASHINGTON, March 31.—The following dispatch was received at the War Department this morning:

Manila, March 31.

Adjutant General, Washington.

Troops moving at Manila. Considerable portion of the city destroyed by fire. Our casualties—two killed, fifteen wounded. Hall has returned with his troops to former position, north of Manila.

It is said at the War Department that General Otis will make a campaign during the rainy season and it is believed that he will at present choose the Philippine Islands as the theatre of his operations. The officials consider it evident that the fight that was in Aguilado has been whipped out of him and it is believed he cannot hold the Philippine army together much longer.

If General Otis advances, the War Department will approve a campaign of active operations in the Philippines. It is believed that the Philippine army will be defeated. A short rest will determine whether the Philippine army is to keep up a guerrilla warfare and if so a plan is already maturing to meet any such condition. Nations will be employed to fight the guerrillas, and as the government can give them better pay and afford them greater protection than Aguilado, there is no doubt about the ability to employ natives in this way. If there must be guerrilla fighting during the rainy season which will soon be upon the Philippines the United States will not sacrifice its troops in such warfare if natives can be obtained.

At this season of the year when pneumonia, the grippe, sore throat, coughs, catarrh, bronchitis and lung troubles are to be guarded against, nothing "is a fine substitute" will "answer the purpose" or "is just as good" as One Minute Cough Cure. That is one infallible remedy for all lung, throat or bronchial troubles. It is a fine substitute for anything else offered you. F. S. Duffy.

Easter Egg Dyes at Davis' Prescription Pharmacy.

On Rocks to a Fog.

Southampton, March 31.—The passenger steamer Scotia, plying between this port and the Channel Islands coasted upon the dreaded Channel Rocks, near the Island of Alderney yesterday evening in a dense fog and foundered in ten minutes, her boilers exploding as she went down. Reports as to the number lost are conflicting, but the officials of the London and Southwestern Railway Company, which company owns the boat, said that the drowned would not exceed seventy. Other reports make the loss much higher. Three boats including a collapsible boat are missing.

The Stella left Southampton at noon yesterday conveying the first daylight of curfew of the season to the Channel Islands. There were about one hundred and eighty-five passengers on board and the crew numbered thirty-five men.

THEY RIDICULE IT.

MANY PEOPLE DISMISSED THE IDEA OF AN ABSOLUTE CURE FOR DYSPEPSIA AND STOMACH TROUBLES.

Ridicule, however, is not argument and Facts are Stubborn Things.

Stomach troubles are so common and in most cases so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion. Many such people themselves on their account in never being humbugged, especially in medicines.

This fear of being humbugged can be carried too far, so far in fact, that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims made of a preparation so reliable and universally used as Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, but are made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Seal, bismuth, hydrate and nux. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only secret of their success.

Cathartic pills never have and never can cure indigestion and stomach troubles because they act entirely on the bowels, whereas the whole trouble is really in the stomach.

Stuart's Dyspepsia Tablets taken after meals digest the food. That is all there is to it. Food not digested or half digested is poison to the system, causes acidity, headache, palpitation of the heart, loss of sleep and appetite and many other troubles which are often called by some other name.

They are sold by druggists everywhere at 50 cents per package. Address F. A. Stuart Co., Marshall, Mich. for little book on stomach diseases, sent free.

LEARNED AT SANTIAGO.

Americans Profit by Former Experiences and Suffering in at Manila.

WASHINGTON, March 31.—The rapidity with which every advantage has been followed up by the American forces operating near Manila and the achievements of General MacArthur's troops in capturing the Philippine capital with comparatively slight loss are regarded by military authorities here as a stroke of the highest importance and a decisive blow to the Philippine cause.

The wonderful progress made, considering the obstructions in the way of the forces and the advance in the face of unexpected stubbornness of purpose on the part of the natives, together with the terrible climatic difficulties encountered, are declared by officers of the army to be unsurpassed in the annals of tropical campaigns. One of the main causes to which the strength of the troops has been due is the vast improvement in the commissary and quartermaster's departments, through which ample food supplies have at all times been kept right along with the army. No delay has been caused in forwarding ammunition, camp supplies and full medical chests.

Compared to the miserable arrangements made by those departments for the Santiago fight and the woeful lack of transportation facilities, by which it was impracticable to send forward heavy artillery with rapidity, the campaign against the Philippines is regarded as a decided triumph not only for the troops, but for every supply department of the army.

Callegari received from General Otis this week have made frequent mention of the satisfaction expressed by division and brigade commanders over the assistance rendered by every staff department, and possibly no army. It is said, ever fought under more trying conditions, whose forces were better supplied with every article necessary to comfort and health.

The triumph of the troops have put an important phase on the situation and greatly relieved a tension of feeling in army circles, which early in the week showed decided disappointment at the stilly displayed by the Philippines. It was not believed by General Corbin and other officers, who watch closely every movement of the advance, that it was practicable to capture Manila without loss of considerable numbers, for it was assumed that Aguilado had gathered the pick of his army and would make a decisive and determined stand before finally evacuating and leaving the way clear to the city's capture.

While Manila is a city of not much importance, the fact that it was the seat of the Philippine government will have a moral influence on the natives now that it has fallen into the possession of the American troops.

Upon the report General Otis will make will depend whether the campaign is to be actively continued or flying squadrons formed to pursue Aguilado until he surrenders or is forced into the sea. Officials of the government are inclined to believe that Aguilado has now gone off with the purpose of trying to incite some enthusiasm and life in his defeated followers, but there is little expectation that another decided stand will be made by him against a large force of the American troops.

TO CURE A COLD IN ONE DAY
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. The genuine has L. B. Q. on each tablet.

SMALLPOX SITUATION.

State Inspector Long Says Conditions Are Considerably Improved.

RALEIGH, N. C., April 1.—Dr. Richard H. Lewis, secretary of the State board of health, had a visit from Dr. H. P. Long, State inspector of smallpox, who made report on conditions in Eastern North Carolina. Dr. Long says the smallpox has been stamped out in Columbus county, and that there is now none in Wilmington and I think that it being stamped out in all the other counties of the State, all the smallpox to be discharged. He comments the authorities of Rocky Mount, especially its mayor, for admirable management, and zeal, and for thoroughness of compulsory vaccination. Two men there refused to be vaccinated and were immediately put in the chain gang. One gave up yesterday and was vaccinated, but the other holds out.

Good accounts come from Halifax and Northampton counties; in fact, the situation in the east is generally considerably better. Reports from Wayne county are not so satisfactory. There are some scattered cases there. No report from Wake, but there are no cases outside of Raleigh. An unofficial letter from Greensboro speaks of cases there.

PROOF.

It is an easy matter to claim that a remedy has wonderful curative power. The manufacturers of

RHEUMACIDE leave it to those who have been permanently and positively cured of RHEUMATISM to make claims. Among those who have recently written us voluntary letters saying they have been cured are: Rev. J. L. Foster, Raleigh, N. C.; Mr. J. B. Robinson, Editor, Goldsboro, N. C. Daily Argus; Mr. A. Davis, a prominent merchant, Macon, Ga.; and Mr. W. R. Duke, a railroad man, Kansas City, Mo.

Rheumacide Will Cure You.
