Copper Mining Excitement Continues at Salisbury.

Presumed to be Postoffice Thief.

Black Diamond Railroad. Telegraph and Telephone Sales to Continue Some.

RALEIGH, N. C., April 10.—John O. Dandridge, alias John O'Donnell, is the last arrival at the jail here. He is charged with the robbery of the postoffice at Plymouth, N. C., and his capture was made in West Virginia. He is said to be a professional robber of postoffices and his capture is the cause of much satisfaction.

Beyond the Blue Ridge people are saying that they are sure the Black Diamond Railroad will be built from Zanesville, Ohio, to the water, double tracked, and that it will be the greatest development of the Valley of the Upper Tennessee river has ever known. Corporation Commissioner T. L. Rodgers says he is convinced that work will begin May 1 and will be rapidly carried on.

The corporation commissioners have decided that they have no jurisdiction in any of the suits brought before the railroad commission. They further decided that this applies to the suits now in the federal courts to reduce the ten-cent message rate of the Western Union Telegraph Company from twenty-five cents to fifteen cents, and to reduce telephone rentals 25 per cent. The telegraph people appear to think that the matter is now ended.

The attempted murder of Chief of Police Flowers, of Fayetteville, by M. W. Cooper, a Croatan Indian, and the shooting of the latter by Policeman Benton just in time to save the chief's life was the sensation of the past week. Cooper was from Darlington, S. C., and he is thought to have been insane. Two years ago a man of his name, perhaps a kinsman, "ran amuck" and killed a man, two women and two or three children.

The State has chartered the Piedmont Park Company, of Winston, P. H. Hapes and other stockholders. The company will conduct races and fairs and will construct buildings and a fine race course.

A charter is also granted the Bals Cotton Mills, in Cabarrus county, J. W. Cannon and other stockholders. The colors of the First North Carolina Regiment, United States volunteers, have been sent here from Savannah to be kept in the capitol. These were the first flags borne through the city of Havana, and hence they have a historic interest. The First Regiment has turned in its rifles and equipments.

A special from Charlotte, N. C., says: The discovery of copper ore near Salisbury, N. C., at the Union Gold Mines, are exciting intense interest all over the South, and claims are made that the supply will equal the famous Calumet and Hecla and Anaconda mines. According to J. J. Newman, the mining engineer, an immense vein of gold and copper bearing ore runs for half a mile from thirty to two hundred feet back on the surface.

ADMIRAL DEWEY AND POLITICS.

Not a Candidate for President Under Any Conditions. Will Stick to the Sea.

NEW YORK, April 9.—Admiral Dewey has given to the Manila correspondent of Leslie's Weekly an interview regarding the suggestion that the Admiral be made a candidate for the presidency next year. He said as to his politics:

"I am a sailor. A sailor has no politics. The administration is his party, and, republican or democrat, it makes no difference."

"Then again, I come from Vermont, and you know what that means. To be anything but a republican in Vermont is to be a man without a party."

"My flag lieutenant comes from Georgia. He tells me that to be anything but a democrat in the South is to be nobody. If I lived South I would probably be a democrat."

"Have you ever voted?" the correspondent asked.

"Yes, years ago," was the reply, "but my vote was usually influenced by personal preference or local conditions. I am not a politician, have never held political office, and am totally ignorant of party intricacies and affiliations."

The Admiral said that not by vocation, disposition, education or training was he capacitated to fill the presidency. He stated that he was too well along in life to consider such a possibility. His health would not admit it.

All his life's work, he said, had been in different lines of effort, and while the kindness and enthusiasm of his friends were grateful to him and the generous tributes of the American people were dear, he could not and would not be a candidate for the presidency of the United States under any conditions.

The Georgia flag lieutenant to whom Admiral Dewey refers in his interview is Thomas M. Brumby, of the Olympia, who has distinguished himself by his service at Manila.

IN FRONTIER STYLE.

General Lawton Will Search For Filipinos. Men in Squads.

MANILA, April 9.—An expedition of fifteen hundred men, under Gen. Henry W. Lawton, which started last night with the intention of crossing Laguna de Bay, a large body of water east of Manila, capturing the town of Santa Cruz, on the eastern shore of the lake, and then sweeping the country to the south.

The flotilla which carries the expedition consists of twenty canoes, towed by tug and conveyed by the gunboats Laguna de Bay, Oenta and Napidan, preceded by a launch containing General Lawton and General King. It started from San Pedro Macati, on the Pangasinan river, moving toward the lake just as evening was setting in.

The men were all in high spirits. They carried rations for ten days, with the lightest marching equipment.

General Lawton's plan was to reach Santa Cruz quickly, to capture or destroy any Filipino gunboats or shipping which might be there, to take the town and then scour the country to the south of the lake, a district not yet explored by the Americans. The tactics will be those of the old-time frontier fighting, and it is probable that the expedition will be divided into squads of twelve, under non-commissioned officers.

The withdrawal of the companies constituting the expeditionary force made a gap in the line from the beach to Cull-cull, just southwest of San Pedro Macati which was subsequently filled by the Fourth Regular Infantry. The Filipinos on the extreme right had evidently been informed of the withdrawal of the troops and they attempted to sneak through after nightfall, but they met a warm reception and fell back in disorder on discovering that the line was still strong.
