HONORS OF THE WAR.

Robert L. Stevenson's Widow Draws a Graphic Picture of Affairs.

Robert Louis Stevenson's widow has written a letter to the Westminster Gazette, from Funchal, Madeira, on the bombardment of Samoan villages by the English and American war ships.

Mrs. Stevenson says: President McKinley allowed no firing on Cuban towns unless they gave active cause of offense and Commodore Watson was ordered not to attack undefended Spanish cities. Does the President keep his humanity for civilized countries alone?

Mrs. Stevenson declares that the Samoan villages are inhabited in time of war by non-combatants, who have to choose between the shells of warships and 'taking to the bush.'

"Under such conditions," she says, "delicate women can hardly exist, while children die like flies."

Mrs. Stevenson's letter concludes as follows: "Chief Justice Chambers has been represented as saying in a letter to his brother 'I never was happier.'"

"He must be a person singularly devoid of imagination if he never pictured to himself the scenes being enacted in those bombarded villages, the exodus of panic-stricken people rushing hither and thither; shells bursting everywhere; the cries of bed-ridden and helpless wounded people burning alive in their blazing houses; women in the pangs of childbirth; mangled children crawling on the sand; the sea before them and the bush behind."

"And we read that the woods also were shelled. Who is to be held accountable for these deeds, that disgrace both England and America?"

News Notes.

Postmaster-General Smith has instructed the postmaster at San Francisco to exclude from the mails for Manila certain pamphlets prepared by Mr. Edward Atkinson, alleging that they are seditious and might have a bad effect on volunteers in the Philippines.

The cruiser Chicago has been ordered to Morocco, with a view to influencing the Moorish government to respect the rights of Americans and to pay certain claims.

A diplomat expresses the opinion that the agreement between Russia and Great Britain in regard to "spheres of influence" in China will be followed by the partition of the Empire among European nations.

The remains of 253 soldiers who died in Cuba and Porto Rico were interred with military honors at Arlington.

Henry B. Hyde, president of the Equitable Life Insurance company, died Tuesday.

Representative Mark L. Davis, who was accused of offering a bribe to a fellow Delaware legislator, was acquitted of the charge by a jury at Dover.

The National Congress of the Sons of the American Revolution adjourned in Detroit after electing officers and providing for medals for its soldier members.

Stone-wall Items.

Summer is making her appearance again after an unusual cold spring.

The farmers are about done planting corn, and like the industrious bees are hard at it getting the cotton seed in the ground.

Irish potatoes are looking fine. I am satisfied Pamlico county has twice as many acres in Irish potatoes as ever before. We hope the prices will be as large as the crop—a good price. If the farmers don't begin to look out for transportation some of their potatoes will get left. Small rail boats are poor dependables. Why the merchants and farmers do not secure a good steamer for the Bay river line I cannot see, we live in a hauling world and he who sits down too long will be hustled out. A word to the wise is sufficient.

The town election passed off quietly, electing S. W. Ferebee, mayor, W. J. Sawyer, J. B. Ferebee and C. R. McCleese, commissioners of Stone-wall. The colored voters would not take any part in the election. I suppose they think white supremacy is at the door, or perhaps it may be that they are taking time by the forelock and it will not seem so hard when the time comes when they cannot vote.

Well, our jolly old friend W. H. Guleson and his friend Brown drove into Stone-wall this evening selling goods, for a mighty dull time for drummers; sometimes they will ride all day and only sell one box of soap, etc., and sometimes sell twenty-five boxes, that is doing mighty well, but Guleson would think so. Excuse me brother I love to see you come to our little town, for I know sister Cherry does a good part by her boarders, she always has the biggest spring chickens in town and she is a good cook and she takes a pride in keeping a neat hotel.

A DEMOCRATIC LANDSLIDE.

The Democrats Sweep the City of Baltimore.

One of the most exciting campaigns in the history of Baltimore city resulted Tuesday in a Democratic landslide. Thomas G. Hayes, was elected mayor by nearly 9,000 majority over William T. Maister, republican, the present incumbent, while his running mate, Shipwith Wilmer, for president of the second branch of the city council, and James H. Smith for comptroller, were chosen by practically the same figures. In addition to these candidates at large, the democrats elected all of their candidates for the second branch of the city, and eighteen of the twenty-four members of the first branch.

The above figures tell a remarkable story; they represent almost exactly the per centage of cures made by

Rheumacide

the wonderful new constitutional cure for RHEUMATISM. The other two per cent, were not curable, or failed to take medicine according to directions. Thousands have been cured. In view of the fact that many physicians think that Rheumatism is incurable, and that most remedies fail, it must be true that Rheumacide is the greatest medical discovery of the age. Particulars and testimonials of many well known people sent free to all applicants.
