FOR GOVERNOR.

Pritchard, Their Candidate Say Republican Official.

Small Party go to See Cruiser at Wilmington. Reorganization A. & M. College. Strawberry Shipments. Sensational Suicide.

RALEIGH, May 5.—About thirty Raleigh people went on a special train to Wilmington to see the cruiser Raleigh. Mayor A. M. Powell headed the city delegation.

Compulsory vaccination went actively into effect here, with eight physicians in the field. There is yet much to be done. Two additional cases of the disease were found and fourteen suspects were sent to the camp. There are now forty-six cases—two whites. One of the latter is a railway employe.

The Republican officials are saying with one voice that Senator Pritchard must be their party's candidate for Governor of this State.

Col. A. Q. Holliday informs the legislative committee to investigate and reorganize the Agricultural and Mechanical College here, that he is not a candidate for re-election, but that he intends to spend next year in Europe. He will therefore be elected emeritus professor of political economy and be given one year's leave. The committee announces that besides the position of president, there will also be filled at the June meeting the following: instructor of textile science and arts, assistant professor of biology, instructor in mathematics and English.

Mrs. M. T. Davis and Miss Beale Gilbert were drowned at Wilmington early Tuesday by the capsizing of a boat in which they were seating themselves. A young man who intended to row them across the river nearly lost his life, but was saved by a sailor.

The twenty-fifth annual meeting of the North Carolina Dental Association here is attended by over seventy-five dentists, mainly from this State, though Virginia, South Carolina and Georgia are well represented. The chief discussion was on "The Influence of the Power of Suggestion on Pain." It was the first time the association had ever discussed it. There were twenty-four applicants for dental license. Only one failed to pass the very strict examination.

An insane woman with small pox escaped from the penitentiary at Monroe and got to Charlotte. She is dangerous and hard to manage.

Strawberry shipments from points along the Wilmington and Weldon Railway filled forty refrigerator cars and three express cars. Many berries are being this season shipped from points along the Fayetteville-Wilmington division of the Atlantic and Yadkin Railroad, formerly the Cape Fear and Yadkin Valley.

A sensation was caused here by the discovery in his room at the house of his aunt of the body of Robert Gatling, son of the late Major John Gatling, and grandson of the late Hon. Bartholomew F. Moore. A man employed on the premises heard the fatal shot, but made mention of the matter. Gatling was twenty-two years old and committed suicide with a heavy revolver.

Little neglected scratches and wounds frequently result in blood-poisoning. Better heal them quickly with DeWitt's Witch Hazel Salve, a thoroughly antiseptic application with a record of always curing piles, old ulcers, sores, cuts, wounds and skin diseases. F. B. Duffy.

Otis Has 15,000 Prisoners.

MANILA, May 4.—The Spanish commissioners have made another futile attempt for the relief of Spaniards held as prisoners by the Filipinos.

Their vessel steamed to the port near Dagupan. Fearing to land, they sent a letter to Aguinaldo, stating that they were authorized to exchange fifteen thousand Filipinos now in the hands of the Americans for the Spanish prisoners. A reply was received from Senor Mabini, Aguinaldo's prime minister, stating that Aguinaldo was negotiating for peace, pending which negotiations he could not discuss the question of an exchange of prisoners.

LAWYON BEHIND THEM.

Is at Least in Position to Cut Off the Filipino Line of Retreat.

WASHINGTON, May 4.—The War Department is satisfied from dispatches received from General Otis today that the American commander has put aside the importing over peace and has turned his attention to extremely aggressive tactics.

The wisdom of this course was fully approved by officials, who say that the natives needed further chastisement in order to bring them to a realizing sense of their position.

Dispatches from General Otis clearly define the general plan of his latest movement. The army is moving in two main columns. General MacArthur pushing straight forward over a nine-mile stretch of country between Calumpit and the latest Filipino stronghold, San Fernando, and General Lawton directed a strong force under Colonel Sumner to prevent the natives from retreating from San Fernando into the mountains to the north. Later dispatches showed there had been hot work in the execution of this movement, particularly in General MacArthur's advance on San Fernando.

Luna has been defeated at St. Tomas and the scattering of the native forces leaves MacArthur four miles from San Fernando with a clear road before him. He will take the town tomorrow morning according to General Otis' plans.

The taking of towns is no longer looked upon by the authorities here as of chief moment, the main consideration being to intercept the Filipinos. General Lawton moved northward today to Masina, which plan is designed to keep a body of American troops to the north of the native army and between it and its line of retreat to the mountains. A successful execution of this move will leave the Filipinos well high surrounded on the north, though there is an open stretch of about seven miles from Masina to the Rio Grande river, along which the natives are retiring.

If the Filipinos succeed in getting into the mountains War Department officials believe they cannot continue organized resistance, as the mountain localities afford much fewer opportunities for sustenance than the rice lands along the foothills and bottoms.

APT QUOTATIONS.

Proverbs, axioms and wise sayings have been uttered by Confucius and other wise men from time immemorial, but few people realize how many there are of them. C. I. Hood & Co., of Sarasopilla fame, have over two thousand and they have originated the ingenious plan of serving them up in delectable shape in thousands of newspapers, with each one neatly turning a point as to the merit of their well known medicine. The extensive use of these proverbs is original and creditable to Hood & Co.

Justified Prosecution.

WASHINGTON, May 5.—While the administration believes that it would have been justified in arresting and prosecuting the officers of the Anti-Imperialist League, of Boston, for sending seditious pamphlets to the Philippines, nothing more will be done than the order of the Post Office Department forbidding the carrying of the objectionable pamphlet to the Philippines in the U. S. mails.
