NEW BERN'S GOOD HEALTH.

Now that the season has so far advanced, and all probability of small pox coming to New Bern being removed, it cannot be amiss to congratulate ourselves as citizens of New Bern, over the good health of this community, both at present and during the period when it seemed as if each day must find New Bern in the condition of sister towns in North Carolina, with one or more cases of small pox within her borders.

That this city escaped having a single case of small pox, is remarkable, when it is known how many chances there were of having the disease brought here.

Besides the railroads, over which so many colored persons were constantly traveling, and who were the means of bringing this disease into North Carolina and spreading it, there were the various small and large river craft, sail and steam, which were daily arriving at this port.

Yet with all these avenues open, New Bern most fortunately had no case of small pox, while at other places the disease was prevalent, and besides endangering the lives of the people in places where small pox prevailed, there was the injury to business of all kinds.

It cannot be said that good fortune alone, is responsible for New Bern's escape from this most loathesome disease, but that the city authorities for their unceasing vigilance in the matter of looking after the city's health, in guarding the approaches to New Bern as far as practicable, and granting free vaccination to the people of the city, deserve most sincere thanks for their efforts in preserving the city's health to the high degree it has been kept.

With the city control of Water and Sewerage, there would seem every reasonable opportunity for making New Bern the healthiest city, summer and winter, in the South.

$100 Reward $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucus surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & Co., Toledo, O.

Sold by druggists, 75c.

Hall's Family Pills are the best.

A Wife's Solicitude.

Jones was just leaving his home to catch the morning train for a neighboring city, where he had been called suddenly on business.

"Now, do be careful, John, about getting on and off the train," cautioned his wife. Remember you don't carry a cent of life insurance."

Their Business Booming

Probably no one thing has caused such a general revival of trade at F S Duffy & Co's drug store as their giving away to their many customers of so many free trial bottles of Dr King's New Discovery for Consumption. Their trade is simply enormous in this very valuable remedy, from the fact that it always cures and never disappoints. Coughs, colds, asthma, bronchitis, croup, and all throat and lung diseases are quickly cured. You can test it before buying by getting a trial bottle free, large size 50c, and $1.00. Every bottle warranted.

Cruelty.

"And by the way, brother," asked the minister who had been called in to smooth the pathway of the expiring pioneer, "were all those bear stories the truth?"

The old man opened his eyes.

"Parson," said he, "that's a mighty mean advantage to take of a dyin' man!"

KEEP your blood pure and your stomach and digestive organs in a healthy condition by taking Hood's Sarsaparilla and you will be WELL.

WHAT HE SAYS.

But For the Whole Case.

Raleigh is very proud over the fact that she now has in her possession a gun taken from the Spanish cruiser, Christina, by the crew of the Raleigh, and presented to the capital city. Well, let Raleigh rejoice. Raleigh is a part of North Carolina.—Durham Sun.

Rats Provided in Stales.

We did not want to believe it, and now our doubts are realized. Mr. Carnegie, the free lunch and pinconnis has neither gone into trust nor sold out to anybody letting willing to go into that, he did not feel it would be right to sell out his holdings to one for a big price. He has simply agreed to pool issues with his other great coiaborer in the same business, Mr Frick, and the two will work together in harmony hereafter, for the public good.—Raleigh Post.

And Uses It for Advertising.

Raleigh is the only city in the United States that possesses a cannon captured from a flagship of the enemy, presented to it by the officers and crew of a battleship named in its honor.—Raleigh News-Observer.

HIGH LIFE IN GOTHAM.

(Special Correspondence of the Washington Evening Star.)

The Waldorf-Astoria hotel is a great temple of Mammon. You go there at any time and the only things you hear about are millions. You see millionaires of all sorts, fat and lean, young and old. You hear them, at the bar or gathered around tables, talking "margins" and at times and of millions. Everybody seems around the Waldorf at least, to be money mad. The ballboys won't look at a $10 bill (that $10 is the rate an egg costs at lunch and a quarter meal. Chairs at $1 apiece are quite the ordinary thing. You may spend a month's salary on a dinner for four, and wine at $15 per bottle is not at all exceptional.

The place is crowded all the time by the wealthiest visitors to Manhattan from all over the world. You are told in awe inspiring whispers that there are suits of rooms costing $250 per day. You are shown the safe which at this very minute holds $7,000,000 worth of valuables belonging to guests. And you'll see millionaires eating with their knives, and you'll hear dowagers telling their friends "I done it" and "I seen her." Money, money, money! The continual elevation of it is nauseating. There is something sordid in all the Waldorf-Astoria splendor.

The atmosphere of the Waldorf-Astoria is reeking with vulgarity and all unhealthiness. All these millionaires are nothing, after all, but a horde of gamblers. And the women, so far as one sees them, seem to be oppressed by their wealth. If there is anything more horrible than the high Gotham life in which every man and woman every day is sentenced to evening dress after 6 o'clock, where is it?

A distinguished man of letters said to me, after a view of the Waldorf-Astoria cafe in the evening, where you have to reserve your table in the early afternoon, "The trouble with these people is that they have no souls." And most of them haven't. They live solely for the senses. They are to be pitied rather than envied.—Exchange.

THE HEADSMAN.

He Used the Sword and Not the Ax Prior to 1483.

I am inclined to think that prior to 1483 the sword and not the ax was usually employed as the weapon for judicial decapitation and that a block was dispensed with, the victims receiving their doom "meekly kneeling upon their knees," and in this opinion I am fortified by the concurrence of an eminent clerical historian. This learned writer agreed with me that the ax did not become the "regulation" lethal implement until after the rough and ready "heading" of Lord Hastings on the Tower green, when he was summarily dispatched by order of the protector, Gloucester.

In this instance, according to the chroniclers, the victim's neck was stretched upon a piece of timber then in use for the repair of the adjacent church of St. Peter ad Vincula, probably a "gatlog," part of the scaffolding which, we read, "conveniently lay in the way." Contemporary accounts seem to indicate that the executioner straddled over the prone body, and from this position I infer that the decapitation was effected by the tool known as an ax, the cutting edge of which is at a right angle to and not in a plane with the haft.

I may add that the only contemporary reference I have come across of the use, or proposed use, of an ax and block for inflicting capital punishment prior to this tragedy is in one of the Paston series of letters describing the peril of an unfortunate captive of Jack Cade's rebels (A. D. 1450), a generation before Lord Hastings was so clumsily hacked to death.—Notes and Queries.

American Speech.

The faults of American speech, according to an authority on the subject, originate in the primary school. The child is not taught the melodic value of his phrase. He is allowed to use the throat instead of the tongue, and the flow of speech becomes therefore, halting and guttural.

"Educate your alphabet and you will find your language as mellow as any of the family of Latium," is the advice given. "Your l's are throaty, your m's are too labial, your s's are too hissing, your c's are not soft enough. When you can train your scholars to emit these and the other consonants within the pitch, using the tongue instead of the throat for their emission, then you will see that for rhythm and sonority your English language may be compared with the Teuton, the Roman, the Spanish and the Provencal."

The Doctor Heads.

A well known chemist states that a surprising number of well to do young ladies have taken to buying the various forms of doctored up coca extracts (cocaine) in large quantities, also phenacetine and various brainders, because "they make one feel so nice and happy." It is needless to say that such practices are exceedingly risky. Perhaps, however, they are preferable to another extremely foolish trick—that of sniffing chloroform dropped on a handkerchief, with the object of producing a pleasant, dreamy languor.—New York Telegram.

Injured Innocence.

"That, sir," exclaimed the indignant merchant, "is what I call a gratuitous falsehood."

"It's nothing of the kind," replied the unscrupulous salesman. "I get a salary and a commission for telling that falsehood."—Washington Star.

RAW AS BEEF FROM ECZEMA!

No Torture Equal to the Itching and Burning of This Fearful Disease.

Not much attention is often paid to the first symptoms of Eczema, but it is not long before the little redness begins to itch and burn. This is but the beginning, and will be followed by suffering and torture almost unendurable. It is a common mistake to regard a blemish and redness of the skin as merely a local irritation; it is but an indication of a humor in the blood—of terrible power, and can not be reached by local applications of ointments, salves, etc., applied to the surface. The disease itself, the real cause of the trouble, is in the blood, although all suffering is produced through the skin; the only way to reach the disease, therefore, is through the blood.

Mr. Platt T. Jones, of Minneville, Ind., writes:

"I had Eczema thirty years, and after a great deal of treatment my leg was so raw and sore that it gave me constant pain. It finally broke into a running sore, and began to spread and grow worse. For the past five or six years I have suffered untold agony and had given up all hope of ever being free from the disease, as I have been treated by some of the best physicians and have taken many blood medicines, all in vain. With little faith left I began to take S. S. S., and it apparently made the Eczema worse, but I knew that this was the way the remedy got rid of the poison. Continuing S. S. S., the sore healed up entirely, the skin became clear and smooth, and I was cured perfectly."

Eczema is an obstinate disease and can not be cured by a remedy which is only a tonic. Swift's Specific—

S. S. S. FOR THE BLOOD

—is superior to other blood remedies because it cures diseases which they can not reach. It goes to the bottom—to the cause of the disease—and will cure the worst case of Eczema, no matter what other treatment has failed. It is the only blood remedy guaranteed to be free from potash, mercury or any other mineral, and never fails to cure Eczema, Scrofula, Contagious Blood Poison, Cancer, Tetter, Rheumatism, Open Sores, Ulcers, Boils, etc. Insist upon S. S. S.; nothing can take its place.

Books on these diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.

Red Hot From the Gun

Was the ball that hit G B Steadman of Newark, Mich, in the Civil War. It caused horrible ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cure cuts, bruises, burns, boils, felons, corns, skin eruptions. Best pile cure on earth. 25 cents a box. Cure guaranteed. Sold by F S Duffy & Co, druggists.

Wanted to Know.

"What was it that Tommy asked that you scolded him so for?"

"Why, the little ninny wanted to know if they planted bird seed to raise 'sparrow grass.'"

If you have piles, Cure them. No use undergoing horrible operations that simply remove the results of the disease without disturbing the disease itself. Place your confidence in DeWitt's Witch Hazel Salve. It has never failed to cure others. It will not fail to cure you. F. S. Duffy.

Who Tells the Story.

"Do you believe men show character in the way they carry their umbrellas?"

"No, but they show lack of character in the way they carry other people's umbrellas."

J. D. Bridge, editor and proprietor of the Democrat, Lancaster, N. H., says: "I would not be without One Minute Cough Cure for my boy when troubled with a cough or cold. It is the best remedy for croup I ever used." F. S. Duffy.

No Interpreters Wanted.

"Wallace, you don't seem to care for concerts."

"Yes, I do, when I can sit by somebody who lets the music speak for itself."

A Great Nerve Builder.

The Mystic Life Renewer is the most Powerful Nerve Builder known. It absolutely cures all forms of Nervous Diseases and Weaknesses no matter how aggrivated or how long duration, such as Neuralgia, Nervous Prostration Paroxysms, St. Vitus' Dance, Palpitation of the Heart, Physical and Mental Weakness, Debility of Old Age, etc.

"Trachoma, or "granular lids," is widely spread among the 8,000,000 inhabitants of Hungary, no fewer than four in 1,000 being afflicted with the disease. It spreads by contagion, and neglect of its makes a patient liable to fine or imprisonment.

People who have once taken DeWitt's Little Early Risers will never have anything else. They are the "famous little pills" for torpid liver and all irregularities of the system. F. S. Duffy.
