Imagination

Plays the leading part when it comes to buying clothes of a tailor. You imagine they are better because you are paying more.

Now, we make to order, and we make to fit; and if you buy here, we make you judge and jury, besides if the clothes wear, if they do not give satisfaction in every way, we give your money back. The most important point in a suit of clothes after the quality of the cloth is considered is the care and skill displayed in making it. On that point alone is based the charges of the highest-price tailors.

In our stock you will find skill, care and taste displayed to an extent far beyond the previous standards. By pricing it at the proper profits we have our prices right.

INSURANCE COMPANIES

To Generally Remain Says Insurance Commissioner.

State Bonds in Lien Penitentiary Bonds. Judge Timberlake's Decision. State Bankers. Senator Pritchard on Senator Quay.

RALEIGH, June 10.—The Insurance Commissioner has prepared a statement which shows that to date, of 36 life companies licensed, 24 have domesticated, two of which will withdraw. Five say they will not enter the State, and three are considering that question. Of 79 fire companies licensed, 73 have domesticated. Four are considering whether they will domesticate, and three say they will not. Thirteen accident and surety companies are licensed, and 7 have domesticated, nothing having been heard from the other six. The insurance commissioner says he now thinks that not over ten out of all the companies will withdraw.

The State Treasurer, after consultation with the council of State, decided to issue to F. H. Fries \$110,000 of the 4 per cent State bonds on hand and received therefor \$130,502. These bonds are issued in lieu of the penitentiary bonds which will not arrive for two weeks. When the latter bonds arrive they will be substituted for those issued. The State Treasurer announces that next Monday he will begin paying the penitentiary debts. The State Superintendent of Public Instruction is sending out the forms of examinations for life certificates of public school teachers.

The State Auditor has prepared his blanks for inquiry as to stockholders in all manner of corporations.

The Southern Railway has filed with the corporation commission its returns for the twelve-month ended May 31st.

The State Superintendent of Public Instruction has received a certified copy of the decision of Judge Timberlake in the Sampson county case, in which he holds that the fusion board of education holds over and that the county board of school directors has no status. He says these boards are one and the same time as to office, that the fusion board was established to hold until April; that the other board was created in March and that the fusion board is therefore the real board of public school directors.

One case of smallpox was discovered in the jail here, the victim being a negro named John Morgan, a pretty desperate fellow, who is to be tried for shooting another negro.

At the session of the State Bankers Association just ended, the election of officers resulted as follows: President, Joseph G. Brown, of Raleigh; vice presidents, J. F. Sawyer, of Asheville; G. W. Fries, of Winston; H. W. Lilly, of Fayetteville.

Invitations were received from several places in the State, as to the holding of the next annual meeting, but the executive committee will make the selection.

DANGER IN SODA.

Serious Results Sometimes Follow Its Excessive Use.

Common soda is all right in its place and indispensable in the kitchen and for cooking and washing purposes, but it was never intended as a medicine, and people who use it as such will some day regret it.

We refer to the common use of soda to relieve heartburn or sour stomach, a habit which thousands of people practice and one which is fraught with danger; moreover the soda only gives temporary relief and in the end the stomach troubles gets worse and worse.

The soda acts as a mechanical irritant to the walls of the stomach and bowels and cases are on record where it has accumulated in the intestines, causing death by inflammation or perforation.

Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets. These tablets are large 20-grain lozenges, very pleasant to taste and contain the natural acids, pepsines and digestive elements essential to good digestion, and when taken after meals they digest the food perfectly and promptly before it has time to ferment, sour and poison the blood and nervous system.

Dr. Wuerch states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create back and strengthen the action of the heart and liver. They are not a cathartic, but intended only for stomach diseases and weakness and will be found reliable in all stomach troubles except cancer of the stomach. All drug stores sell Stuart's Dyspepsia Tablets at 50 cents per package.
