Imagination

Plays the leading part when it comes to buying clothes of a tailor. You imagine they are better because you are paying more.

Now, we make to order, and we make to fit; and if you buy here, we make you judge and jury, besides if the clothes wear, if they do not give satisfaction in every way, we give your money back. The most important point in a suit of clothes after the quality of the cloth is considered is the care and skill displayed in making it. On that point alone is based the charges of the highest-price tailors.

In our stock you will find skill, care and taste displayed to an extent far beyond the previous standards. By pricing it at the proper profits we have our prices right.

\$4 50 For a Suit of Excellent Serviceable Quality.

\$6 50 For a Better One.

\$8 00 and \$10 00 For Excellent Suits of Quality Seldom excelled.

DAMAGED BY HAILSTORM.

Great Interest In Wilmington's Counterfeits.

Teachers Assembly, Murder at Gastonia. Dr. Hoge, Raleigh's Costly Small Pox Experiment. Carrutuck Gets Prize.

RALEIGH, N. C., June 12.—Hailstorm Friday and Saturday swept through various sections of this State. The worst one yet reported was in Davidson county and was three miles in width. It literally beat the wheat into the ground. It was accompanied by high winds, and struck the town of Lexington, breaking a great many windows, including those of a church, and several buildings were unroofed or overturned.

The event of this week in the State is the North Carolina Teachers' Assembly, at Morehead City. All the leading educators will be present. Some State officials will attend.

The real estate assessors are causing a sensation at Wilmington by the large increase in valuation, ranging in many instances from 35 to 100 per cent.

William G. Brown, assistant superintendent of the Gastonia Cotton Mill, was killed Saturday by Crane Madin. There had been a dispute the previous day regarding the amount due Madin's children, who worked in the mill. Saturday the trouble was renewed. Madin left, got a revolver, returned and went into Brown's office and advanced on the latter, shooting him twice before he could draw his pistol. He then ran, and Brown shot three times at him, but missed. Madin fired a fourth shot, which missed. He was captured and is in jail at Gastonia.

Rev. Dr. Peyton H. Hoge, pastor of the First Presbyterian Church at Wilmington, has accepted the call to the pastorate of the Warren Memorial Presbyterian Church at Louisville.

The grand jury of the Federal Court at Wilmington has returned true bills against Nicholas Politz and Walter Silvy for counterfeiting. The Government officials say there is a perfect case against these men and also against other persons. The arrest of Attorney Marshall at Wilmington on the same charge has created a sensation. The Government, it is said, will present as evidence against him the testimony of a Philadelphia firm that it sold him large quantities of materials used in making counterfeit coin. Next Wednesday Marshall will be given a hearing.

The Standard Life and Accident Insurance Company has notified the Secretary of State that it would domesticate.

The State Superintendent of Public Instruction has sent the following letter to each of the county superintendents of schools: "I have frequent inquiries as to the effect of the recent decision of Judge Timberlake in the case of the Sampson county school, and also inquiries as to the effect this will have as to county school boards throughout the State, if said decision is sustained by the Supreme Court of North Carolina. I write this to say in reply to the first inquiry that the effect this will have as to county school boards throughout the State, if said decision is sustained by the Supreme Court of North Carolina. I write this to say in reply to the first inquiry that the decision of the Sampson county case does not affect any county board of education except that in Sampson. I recognize the old board of Sampson because the Superior Court of said county has so ordered, and I obey this order until it is passed upon by the Supreme Court. In all the other counties where the old boards are contending, I recognize the boards of directors appointed by the General Assembly as de facto official boards, until ordered otherwise by the courts, as in the case of the Sampson county board. I, as executive officer, take it for granted that the statute enacted by the General Assembly is the law, and must govern myself accordingly, until I am otherwise ordered by the courts. Therefore you, as county superintendant, will recognize this board of directors as the legal board of your county, until otherwise directed by the judgment of your court. In regard to the second inquiry, I will say that it will be time enough to answer it after the Supreme Court shall have rendered its decision. We have trouble enough to take it as it comes, without going ahead to look for it."

The State Superintendent of Public Instruction announces that the summer schools for colored teachers, to be known as the State Teachers' Institute, will be held at Winston-Salem, June 21 to July 7; Goldsboro, July 10 to 21; Plymouth, July 24 to August 4. Prof. B. G. Atkins will be conductor. The teachers will be responsible only for their board and lodging.

The small pox pest house and detention camp, which a month ago were so populous, are now nearly deserted. The

small pox here was costly. Faulty diagnosis, "political delay" in ordering compulsory vaccination and the behavior of not a few people in hiding or trying to hide cases of the disease, were the causes of the cost. The lesson is a useful one for any city or town.

It is strange but true that there are people who are ashamed of the smallpox. In a white family here there was a true case of smallpox and also one of varioloid. Members of the family are intensely angry, when told that they had smallpox, and even threatened a damage suit! The lesson taught is immediate vaccination, without fear, and without catering to the whims of cranks.

Carrutuck county will get Julian B. Carr's gift of \$500 as the county which cast the largest percentage of its registered vote for the special tax for public schools. It gave 27 per cent of its registered vote. Families comes next, with 22 per cent. The official announcement of this decision by the committee will be made at the North Carolina Teachers' Assembly at Morehead City this week.

DEMOCRATS DIVIDED.

National Committeemen Give Views on a Statute Cry. Set Back for Free Silver.

CHICAGO, Ill., June 11.—Telegrams sent to members of the National Democratic Committee asking what, in their opinion, should be their party's battle cry in 1900—whether "Free Silver," "Down with the Trusts," or both—have brought some queer answers.

"An apparent desire to pass from 'Free Silver' to 'Down with the Trusts,' or something else, coupled with reluctance to say so plainly, is revealed in the answers.

While none of the Democratic leaders say in set terms "Drop Free Silver," they are unanimous in giving the trust question a prominence it never has had in the platform of their own or any other party. All who speak freely suggest that some other issue will divide the stage with free silver.

Some say "Militarism" or "Imperialism" will be one of the prominent issues. Others frankly emphasize the trust question as the big thing. Still others speak for a twin battle cry, excusing their words in behalf of silver by making their adherence to the free coinage doctrine a battle against "the money trust."

Those who most strenuously insist upon retention of the silver question as a cardinal principle of party faith make concession to the "anti-trust" advocates by calling the trust question. Not one of them says flatly, "the issue of 1900 will be the issues of 1900."

Of the committeemen who are either non-committal or refuse to be quoted, one is George Fred Williams, of Massachusetts, prominent as a silver advocate in 1896. The others are D. J. Campan, of Michigan, a sixteen-to-one silverist; R. S. Smalley, of Vermont; Frank Campbell, of New York; T. D. O'Bryan, of Minnesota; and J. U. Dudley, of Texas.

Committeemen who say "free silver" must have first place in the platform, combined with the questions of trusts and "militarism," are from Colorado, Kansas, Nebraska, Arkansas and Indian Territory.

Mr. Troop, of Connecticut, is still enthusiastically for free silver. All the others either put the trust question first or lay much stress upon issues arising from the recent war. Ryan, Montana, a mining State, and Southern States, whence the silver idea first spread from the mining regions, through their commitment go back on the old issue.

SOUTHERN IMPROVES SERVICE.

Fullman Library Observation Cars Between New York and Atlanta.

The Southern Railway's "Washington and Southwestern Limited," between New York and New Orleans, is well known along the famous modern limited trains of this country, and the Southern has made another attractive addition to this service by putting on a line of elegant Pullman Library Observation cars between New York and Atlanta.

These cars are in some respects an innovation in this section. Half of the cars are taken by Pullman sections, and the rear is the observation end, with a library and a number of large comfortable chairs and settees. These cars are open to all passengers of the train occupying Pullman space. Traveling is indeed a pleasure when passengers may recline in easy chairs with the latest books and magazines at hand and view the beautiful Piedmont country as the Limited races along.

The public is invited to inspect these elegant trains, especially the observation cars. Dining cars serve all meals between New York and New Orleans.
