SINGULAR ROBBERY.

Thieves Break in the Post Office at Raleigh.

Penitentiary Warrants. A. & M. College Presidency. S. A. L. Loss Big Case. Question of Milk Salt. Counterfeiting by Convicts.

RALEIGH, June 21.—So far warrants aggregating about \$30,000 for penitentiary debts have come in, but only \$1,500 have been paid, the other warrants having been returned to the senders. The only ones paid were those which were received before last Thursday, when the Attorney General decided that only the debts up to the end of 1898 could be paid.

Very little is now heard here about the Agricultural and Mechanical College presidency. The next meeting of the trustees is not very far away and is apt to result in some interesting developments. The supporters of Dr. George T. Winston are said to be still firm in their attitude. There are several applicants and of course some dark horses. There is considerable objection to electing any one who has been in some way identified with North Carolina. It was in this correspondence that the fact was first made public that President Holliday has never resigned, but that his attitude in the matter is that he will retire if it is thought best by the trustees to have another president. This statement is accurate and does him justice.

The Corporation Commission meets here and will be in session for a week. Thursday and Friday the commission will hear exceptions as to the new rates, as filed by the American and Bell Telephone companies and the question of freight rates on fertilizers as filed by the Southern Railroad and Atlantic Coast Line. Senator John W. Daniel, of Virginia, will be here to represent the telephone companies.

Mr. W. W. Ashe, of Raleigh, who for years has been connected with State Geologist Holmes in his geological survey work and his forestry work has been appointed to prepare the United States forestry exhibit for the Paris Exposition. Mr. Ashe left here for Washington City, and from there he will go to the most important forest regions of the United States and Alaska to secure material for this exhibit.

For about three months work has been suspended on the Church of the Good Shepherd here. Rev. Dr. Pittinger, the rector, says that it will be resumed at once.

The Seaboard Air Line, by reason of failure to perfect an appeal in time, loses the suit for damages by the partial burning of the Hygenic Ice Factory here, and has to pay \$28,000. The railroad attorneys are pretty sore about this case, which was a remarkable one. The railroad does not relish it either and there are people who say the jury verdict, as showing animus toward a corporation, was unfortunate for Raleigh coming at a time when the corporation was considering the matter of largely increasing its local investments.

Mr. Rogers of the Corporation Commission, says summer travel to the mountains is beginning and that Asheville and Waynesville commence to show it. He says there is quite a lively fight by the people of the town of Franklin against the new dispensary law for the county of Macon, the people there saying that there has been no whiskey sold in the county and that they do not want the sale to begin. It was said in speeches before the Legislature that that ferocious animal, the "blind tiger," was quite numerous in Macon.

The postoffice here has made great gains in business since the old rating. It has jumped from \$23,000 to \$38,000 a year. Bailey of North Carolina, the postmaster, goes up one peg, his salary being increased from \$9,000 to \$9,500.

Mention was made the other day of counterfeiting by convicts, in the penitentiary and on the farms. A convict, a white man, serving a five-year sentence on the penitentiary farm at Castle Hayne is the last to engage in this business. A lot of the money and his counterfeit outfit was found. He cannot be touched by the government, as he has several years yet to serve, and after three years there is impunity. It seems that the counterfeiters make money for use in gambling. How they get time to make it is a puzzle. Miserable stuff it is, not calculated to deceive anyone. Habitual metal is the material used generally, with a little antimony.

There is to be here a permanent home for aged, infirm and incurable women. For five years it has been maintained locally, but now it is to be for the State at large. Mr. John T. Pullen is the trustee and to him contributions may be sent.

The smallpox post house for negroes has been vacated for some days. No less than three attempts to rob it have been made, and one of these was successful.

Imagination

Plays the leading part when it come to buying clothes of a tailor. You imagine they are better because you are paying more.

Now, we make to order, and we make to fit; and if you buy here, we make you judge and jury, besides if the clothes wear, if they do not give satisfaction in every way, we give your money back. The most important point in a suit of clothes after the quality of the cloth is considered is the care and skill displayed in making it. On that point alone is based the charges of the highest-price tailors.

In our stock you will find skill, care and taste displayed to an extent far beyond the previous standards. By pricing it at the proper profits we have our prices right.
