A WORKER POR HOSTE CARG-LINA.

The Southern Farm Magazine for August, has upon the front page of its cover an excellent picture of Prof. Joseph A. Holmes, of North Carolina, and in Italeading article "Workers for the South" it gives a sketch of the life of Prof. Holmes, with some notes of his work, to which reference below is made.

If the entire State should be gone over, it would be difficult to flud another North Carolinian in the same class as Prof. Holmes, namely, one who was so indefatigable in his efforts to advance the material interests of the State, and who was actually accomplishing so much, and with it all, without ostenta-

While just now Prof. Helmes is specially identified with the good roads movement, this is only one interest, a most important one, in which he has given his best talents and time.

In all geological matters pertaining to the State, Prof. Holmes has been a leader, and in the matter of good water, notably for Eastern Carolina, he has worked splendid results by his study of soil conditions, and then by his advice on the matter of walls.

The Southern Farm Magazine has the following on Prof. Holmes' road work:

"His latest product for the encourage-ment of the practical campaign was a road-builders' institute held for several days last month at Charlotte, This institute was the outcome of the conviction that the inclination of the people to pay taxes for road building will be greatly enhanced by their knowledge that the money so paid will be expended judiciously. Accordingly, under the di-rection of Professor Holmes, assisted by Gen. Roy Stone, director of the governrection of Professor Holmes, assisted by Gen. Roy Stone, director of the government office of road engineering; Mr. D. P. Hutcheson, manager of the Charlotte township road work; Mr. C. A. Spratt, engineer for the city and county an engineer for the city and county road work, road supervisors and other persons interested in good roads were given practical instruction in methods of con-structing highways on a basic soited to

Mr. J. E. Lilly, a prominent citizen of Prof. J. A. Holmes has become a citizen of this commonwealth, and the honers which have been shown him, by appointments, indicate in some degree the high esteem in which he is held by our people.

If there were more such workers North Carolina would indeed be blessed.

Mr. J. E. Lily, a prominent citizen of Hannihal, Mo., lately had a wonderful death. It is telling of it he says: "I was taken with Typhoid Faver, that ran into Pneumonal and My inags became hardened. IS IT RIGHT

From Sylvan Valley News, Brevard, N C. it may be a question whether the edi-tor of a newspaper has the right to pub-licly recommend any of the various pro-prietary medicines which flood the market, yet as a preventive of soffering we feel it a duty to say a good work for Obamberiain's Colle, Cholera and Diarchamberiain's Colle, Cholera and Diar-rhora Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of the remedy would save hours of suffering while a physician is awaited. We do not believe bottle of Chamberiato's Diarriora Remedy were kept on band and administered at the inception of an attack much auffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by F. S. Duffy & Co.

Watering the Bith.

The milimnes of Naples have a way of carrying concealed in their waist-costs bladders full of water.

From these bladders india rubber tubing stretches down their arms, and by aimply pressing their sides while they are drawing the milk they are able to squirt water from the bladder into the jug or basin simultaneously with the milk. So it is quite a common plan for a woman who is getting her jug filled with milk to hold the milkman's wrists while he milks his cow or goat. Until the stranger has the reason explained to him be thinks it very odd to see women cropeling down by the milkman, keeping a tight hold on to each of his wrists—fian Francisco Cail.
