RALEIGH.

The Corporation Commission Hears A Number of Cases.

Many People From Norfolk and Vicinity, Event at St. Mary's. Building Operations Large. Damages Against Railroad. Wilmington Postmaster'ship.

RALEIGH, August 4.—The corporation commission met and heard argument on the exceptions by the Mercantile Trust and Deposit Company of Baltimore to the order of the commission putting it on the list for back taxes rolling stock to the value of some \$1,250,000, alleged to be owned by the Baltimore company and operated by the Seaboard Air Line. John D. Shaw appeared as counsel for the trust company.

The commission heard a very long and elaborate argument by John W. Hindsdale, Governor Russell's counsel, in favor of imposing back taxes on the Mercantile Trust Company, of Baltimore, and on the Seaboard & Roanoke Railroad, the latter for rolling stock on the Roanoke & Tar River Railroad.

During July there were 23 deaths in Raleigh and 22 births. Twelve of each were whites. Of the whites who died six were under five years of age. The city prints each month a complete mortality report, giving the character of the diseases which have caused deaths and publishing the names of all adults who die.

The trains coming this way from Norfolk are crowded with people from Norfolk, day and night. These are going to various resorts, particularly in the mountain and Piedmont sections, and to quite a number of places in this section.

The last two days made a record as the hottest of the year here, the mercury ranging high.

In the spacious grounds of St. Mary's School here last evening, there was a largely attended reception in compliment to Bishop and Mrs. Cheshire and Rev. Dr. and Mrs. Bratton. All the clergymen in the city were invited and nearly all were present. Refreshments were served. The reception was given by the congregations of Christ Church and the Church of the Good Shepherd. The grounds were beautifully illuminated.

Judge Parnell decides in a bankruptcy case which comes up from Warsaw that a debtor may select property to the value of \$500 and receive his prorata share at the sale.

The amount of building in progress here is the largest in the history of Raleigh.

Zachary & Zachary, contractors, of Raleigh, will next Monday begin work on the Carr dormitory building at the State University, and also on the superstructure of the alumni building. The foundation of the latter was completed some time ago.

There appears to be general commendation of the action of the trustees of the Agricultural and Mechanical College in deciding to admit women only to the textile school and in such lines of study and practical work as dairying, designing, horticulture and floriculture. The abolition of the preparatory department has the heartiest approval.

J. C. L. Harris appeared before the commission on behalf of the Pullman Car Company, saying that while the latter would not object to the increased assessment, it did not admit the latter to be precedent.

At Oxford court this week Engineer Wingo was allowed \$6,000 damages against the Southern Railway. Mr. Wingo jumped from the train when he saw that an accident was unavoidable and had one of his legs crushed. He was the only man on the train who was hurt, and would have escaped had he remained in the cab. He sued for \$25,000.

The Dallas Cotton Mills are making arrangements to double their manufacturing capacity. The addition to the plant will be hurried to completion.

The people of Martin county claim to be as prosperous as any county in that part of the State. There is one township in that county from which there is not recorded a single agricultural lien, and two townships which do not receive any help from the county for paupers.

The cash receipts at the dispensary at Greensboro, Wednesday were said to be over \$800.

It was said by some Republicans that George Z. French was entirely out of the race for the Wilmington postmaster'ship. A leading Republican says French is still "in the pack"; that the vote is between him, a Miss Dancy, and a man who is now a postal route agent on a railroad leading out of Wilmington. There are Republicans who are antagonizing French, but there are some who say he ought to be sent back to Wilmington as an official.

"Our baby was sick for a month with severe cough and catarrhal fever. Although we tried many remedies she kept getting worse until we used One Minute Cough Cure.—It relieved at once and cured her in a few days."—E. L. Nelson, Prin. High School, Winfield, Texas. F. S. Duffy.

ROYAL BAKING POWDER

ABSOLUTELY PURE
Makes the food more delicious and wholesome

Jumped From Brooklyn Bridge.

NEW YORK, August 5.—Henna Hauser, treasurer of the Herald Square Theatre, in this city, jumped from the middle span of the Brooklyn Bridge at 3 o'clock this afternoon. He was rescued from the water, and will recover. Hauser was a passenger on an electric car bound from Brooklyn to New York. He sat calmly reading a newspaper until the middle of the bridge was reached, when he jumped off the car.

Throwing off his coat Hauser climbed upon the outer railing. The bridge police men, passengers on the cars and the car men made a rush for him. He regarded their approach coolly, hesitated a moment, and then leaped clear of the structure. He struck the water just astern of a ferryboat.

A passenger sprang overboard and seized Hauser when he reappeared on the surface; he was lifted aboard, taken to shore and sent to the hospital.

Hauser is about thirty years old, and is very well known in the theatrical fraternity.

When asked why he made the jump he said it was because he was a drunken fool. He insisted that he had had no trouble of any sort, either in his family or financially. Finally he jokingly remarked: "That's what Coney Island booze does for a fellow."

Root Wants To Crush Them.

WASHINGTON, August 3.—It appears probable from developments in the last days in the War Department that Secretary Root has in contemplation an army of quite 40,000 men for the Philippines. While Mr. Root has been at the head of the Department only a brief time he has been making diligent inquiries among the bureau chiefs regarding supplies and equipments and the trend of his questioning has been in the direction of an increase in the available force in the Eastern archipelago. The belief is growing in army circles that Secretary Root has in mind a plan practically matured to make General Otis' available force at least 40,000 men.

One Minute Cough Cure quickly cures obstinate summer coughs and colds. "I consider it a most wonderful medicine,—quick and safe."—W. W. Merton, Mayhew, Wis. F. S. Duffy.

The Shamrock Sails.

FAYETTE, August 3.—The cup challenger, Shamrock, started for New York today, but after proceeding a short distance had a slight mishap to her bowsprit and had to return.

At 5 o'clock this evening another start was made, amid an enthusiastic send off the yacht stock off down Bute Sound. Sir Thomas Lipton, having bidden the challenger farewell, immediately started for London.

It is said that the Shamrock will clear the Mull of Kintyre tonight and that the Irish, Sir Thomas Lipton's steam yacht, will catch her off Malin Head.

Kodol Dyspepsia Cure thoroughly digests food without aid from the stomach and at the same time heals and restores the diseased digestive organs. It is the only remedy that does both of these things and can be relied upon to permanently cure dyspepsia. F. S. Duffy.

Troops to Welcome Dewey.

ATLANTA, Ga., August 3.—Governor Oandler today received a letter from Major General Charles F. Roze, commanding the National Guard of New York, inviting the Georgia State troops to take part in the Dewey reception parade in New York upon the arrival there of the Admiral.

The Governor at once replied, accepting the invitation and stating that Georgia will send as many of her troops as possible to aid in welcoming and honoring the hero of Manila. Practically all of the Georgia troops will go to New York.

Kodol Dyspepsia Cure cures dyspepsia because its ingredients are such that it can't help doing so. "The public can rely upon it as a master remedy for all disorders arising from imperfect digestion."—James M. Thomas, M. D., in American Journal of Health, N. Y. F. S. Duffy.

Officers Can Testify Freely.

PARIS, August 3.—The Minister of General Marquis de Gallifet, has absolved all military witnesses at the court martial of Captain Dreyfus at Rennes from professional secrecy, with the exception that he has requested them not to divulge the names of French agents abroad or disclose anything which could complicate the foreign relations of France.

Irritating stings, bites, scratches, wounds and cuts soothed and healed by DeWitt's Witch Hazel Salve,—a sure and safe application for tortured flesh. Beware of counterfeits. F. S. Duffy.

WASHINGTON.

Vacation Time Not the War Department is Busy. Cabinet Changes. A Dewey Medal.

WASHINGTON, August 4.—It is apparent even to casual visitors to Washington that the official vacation season is at hand. The President is away and the White House is going through its annual renovation. Only three members of the Cabinet—Secretaries Gage, Hitchcock and Root—are in Washington. In all the other departments assistants are in charge, which means that important matters are being let alone and only routine work being done for the time being. This doesn't mean that important matters are being neglected, but that they are not brought up because of the absence of the heads of the departments and of the President. The War Department is, however, a striking exception. There are fewer of its prominent officials away from their desks than usual at this season. This is probably owing to a hint given as soon as the date of Gen. Alger's retirement became known that the new Secretary would want lots of information and would prefer to get it from first hands. Every day since he took charge, Secretary Root has been putting his subordinates through a thorough cross examination on the business methods of the department, with a view of informing himself, much as he would witness in an important case in which he was counsel.

No official reports have yet been received of the Louisiana lynching, but the information claimed to have been received at the Italian Embassy does not agree with what has reached Washington from other sources. The Embassy claims that four out of the five men lynched were Italian citizens; also that there were no justifying circumstances. The official reports are awaited with much interest.

Every President starts his administration with the hope of being able to keep his Cabinet intact during his term of office, but only one of them—Pierce—ever succeeded in doing it. But with the exception of Jackson and Tyler, whose Cabinets went all to pieces for well understood reasons, President McKinley has had more changes in his Cabinet than any of the presidents and his administration is not two thirds gone yet. Only three of the original members of Cabinet are still members—Gage, Long and Wilson.

The committee charged with making the arrangements for the Washington reception of Admiral Dewey have succeeded in getting from the Navy Department metal from the relics of the battle of Manila Bay, to be used in making souvenir medals of the reception, and a well-known artist is now making a design for the medal, which will be appropriate and artistic.
