Commissioner Young Talks Some More On Insurance Matters.

Battle With Moonshiners, Cattle Fever Carried To Virginia, Farmers Alliance Matters, Immigration Commission- er, State Reverts.

RALEIGH, Aug. 11.—Insurance Commissioner Young says a number of towns are passing ordinances imposing taxes upon insurance companies and their agents. The Commissioner states that several agents have written him upon the subject and that it is in direct violation of the general insurance law, which, after giving the tax as imposed by the State says: "No county or corporation shall be allowed to impose additional tax, license or fee upon any insurance company."

The commissioner says: "The State is still being flooded with circulars and advertisements of 'under-ground' and 'wild cat' insurance companies and frequently circulars are sent to him as coming into the State from companies which have no financial standing even at their own homes, and that have not complied with any of the laws of this State. It is evident that every citizen should be on his guard against insuring in these companies, because by encouraging them they are not only cutting the State out of the revenues each of these companies should pay to the state, and no doubt would pay, if they could be passed as solvent by the insurance department of the State, but by using these companies, citizens are practically getting no security against loss, as in case of loss they could not collect the same through any court of the State, nor could they find anything out of which to collect their claim if they could sue the courts."

Revenue Collector Duncan has information of a lively battle with moonshiners in Richmond county. Deputy Collector F. McDonald and Deputy Marshal Cooper captured a still and were on their return to Rockingham, ten miles away, at night, when they were fired on by three moonshiners. One bullet hit the horse and two struck the buggy. The deputies were heavily armed. When they reached Rockingham the horse fell dead.

Deputy Collector M. L. Wood captured an illicit still near Rocky Mount, in Nash county. He, too, had a scuffle with the moonshiners. They fired on him, in the darkness, and he promptly returned the fire.

Near Rougemont, Orange county, deputy collectors captured two stills and made three arrests.

The State charters the Banner tobacco warehouse, at Clarkson, Bladen county. Governor Russell received a letter from a man at Clinchcooke, Va., stating that a man named E. P. Timmons had brought some cattle there from eastern North Carolina, that these cattle had made other cattle there sick and that the native cattle were dying "like hogs from cholera." The letter was turned over to Dr. Curlice, State veterinarian, who discovers that the cattle were taken through the North Carolina sounds and canals and were never inspected at all. The taking of cattle from eastern North Carolina into Virginia is a direct violation of both Federal and State laws.

The State Veterinarian was advised of the presence of splenic fever on two farms near Wadesboro and also at three places in the suburbs of Raleigh.

The August number of the bulletin of Agricultural Department will be twice the size of the July number. It will contain the crop report, the report on manufacturers and also the register of full blooded cattle.

Hous Hopson, a woman liquor seller, and apparently an old hand at the business, is in jail here. She claims that she always give liquor away.

The State Farmers' Alliance has ended its annual session at Hillsboro. During the year it has cancelled \$5,000 of debt and added \$2,000 to its balance, which is now \$2,000. The officers were installed as follows: Maj. W. A. Graham, president; J. A. Mitchell, vice president; T. B. Parker, secretary-treasurer and business agent; J. C. Bain, steward; W. S. Mercer, chaplain; R. H. Love, door keeper; D. A. Watson, assistant recorder. A committee of five, with Maj. Graham as chairman, was appointed to draft an address to Alliancesmen, along the original Alliance lines.

John W. Thompson, commissioner of immigration, will not go to the North-west at present. He will attend the Great Fair at Pittsburg, Pa., where the Southern Railway will have a fine exhibition of North Carolina's resources and products. He will make an effort to get immigrants from Poland to come to eastern North Carolina.

Lieutenant Douglas Selby, U. S. A., says that during the last days of this month he has sent 25 recruits from Raleigh and Crossroads to the army and that North Carolina is doing well, being considerably ahead of Virginia.

NERVOUS troubles are cured by Hood's Sarsaparilla, which purifies and enriches the blood. It is the best medicine for nervous PEOPLE.

The extreme care exercised in our prescription department is further increased by use of typewritten labels for all prescriptions. We claim to be the first pharmacy in the State to depart from the pen written, blurred label. The use of the typewriter has become so universal, and so essential where legibility is required, we have adopted it in writing our prescription labels, precluding the possibility of patient reading the doctors directions incorrectly. We use every means to give our customers the best service. Bradham's Pharmacy.

One Minute Cough Cure quickly cures obstinate summer coughs and colds. It is a most wonderful medicine, quick and safe.—W. W. Merton, Maybew, Wis. F. S. Duff.

"Our baby was sick for a month with severe cough and catarrhal fever. Although we tried many remedies she kept getting worse until we used One Minute Cough Cure. It relieved at once and cured her in a few days."—B. L. Nance, Fria High School, Hildale, Texas. F. S. Duff.

Kodol Dyspepsia Cure cures dyspepsia because its ingredients are such that it can't help doing so. "The public can rely upon it as a master remedy for all disorders arising from imperfect digestion."—James M. Thomas, M. D., in American Journal of Health, N. Y. P. S. Duff.

Washington's Big Demonstration.

WASHINGTON, Aug. 10.—The committee of one hundred which has charge of the reception to be accorded to Admiral Dewey on his return to this city are busily engaged in perfecting plans for the big demonstration.

A special effort will be made to arouse interest in Maryland, Virginia, West Virginia and Pennsylvania. The more distant States will be reached through the correspondents of papers, and who have been named as members of the committee. It is thought that in this way great interest can be aroused in all sections of the country and will result in bringing thousands of people to Washington.
