99 MIDDLE STREET.

NEW BERN, N. C.

RALEIGH.

The State Museum Enriched by Gift of a Collection.

A Candidate Secured. First Sale of Cotton. The Charge of Cruelty. Brought Around Alhemaris. Winston Horse Show. Rainbow Case.

RALEIGH, August 25.—Ex-Congressman John Nichols ventures the prediction and says it is well founded, that ex-Judge Spencer B Adams will be the next Republican candidate for Governor.

The collection of North Carolina bird eggs in the State Museum has been greatly enlarged by the addition of the collection of Dr. Smithwick, of LaGrange, Lenoir County. This is his gift. He personally collected most of the eggs in the eastern counties. Curator Brinley has completed the work of mounting a very fine specimen of a shark. A saw fish is nearly completed.

The floor of the Supreme Court library has been torn up and the sills so placed off as to bring it to the proper level. The stairs to the second floor are torn away and a circular steel stairway will replace them.

The State charter the Bay River Transportation Company of Hayboro in Anson County.

The first bale of cotton of this year's growth was marketed here yesterday. It was grown by J. W. Wyatt, in Johnston county, and is somewhat earlier than usual.

Owing to the sickness of Supervisor Summerville at the Halifax farm, the penitentiary investigating committee did nothing yesterday in looking into the charges of cruelty to convicts last February which are brought against him. It is asserted that Summerville was struck yesterday. He has sued one newspaper for libel. It is said that this was done at the suggestion of Superintendent W. H. Day and that some other papers are to be sued.

The manager of the Hickory Manufacturing Company, which turns out the finest of hard woods, says that they are operating at their full capacity. The majority of their output is all exported and billed direct from here to London.

The Piedmont Wagon Company has a larger force of hands than ever before. Its capacity is the second largest in the South.

The Adjutant General was here yesterday. Commissions were issued to the following officers of the State Guard: Company C, Third Regiment, at Henderson; Captain, J. S. Poythess; lieutenants, W. K. Sturgis and A. S. Benn; Blue Ridge Rifles, at Asheville, lieutenants, John E. Hampton and Herbert Walker.

The prolonged drought in the Albemarle section is getting to be quite serious. Wells are going dry, springs and creeks have scarcely any water in them at all, and vegetation is parching. The water supply at the cotton mills in the town is getting short. Little Long creek is the lowest it has been in fifteen years.

Some of the Republican friends of Mr. I. B. Fountain do not appear surprised at his expected removal from office. Some of them say that Judge Farnell was displeased with him from the first, and that the judge has stated more than once that he objected to Fountain's "confidential way with newspaper people."

Mrs. Cray and her children returned to Winston yesterday, and her two daughters, Misses Elizabeth and Isabel, will then go to Wilmington to live with the sons and brothers. Dr. Cray carried \$10,000 insurance on his life. This was left to his wife and children.

The Winston horse show, in conjunction with which will be held the Forsyth County Agricultural Fair, will supersede the annual tobacco fair. A splendid half mile race track is being constructed and there will be a spacious modern grand stand and a large exhibition hall. A street for a Midway is being laid off. The site of the show is about one mile north of Winston and is naturally beautiful. The show will open October 24th and close October 28th.

The attorneys, who went to Hendersonville to appear in the Beahow bankruptcy case, returned home. They say that Judge Ewart allowed ten days for the filing of additional briefs, and reserved his decision until after that time.

At Warranton there is to be a big educational rally. Prof. J. Y. Joyner, of Greensboro, is conducting a teachers' institute there. State Superintendent Mebane, will make a talk tomorrow. The latter today received a letter from a school committeeman in a western county, which contains no less than 23 errors. Dr. Mebane says: "I will use it tomorrow as an illustration of the need of properly qualified school officials. I feel sorry for the children who are subject to his jurisdiction. Of course no name will be given."

The soothing and healing properties of Chamberlain's Cough Remedy, its pleasant taste and prompt and permanent cures, have made it a great favor with the people everywhere. For sale by F. S. Duffy & Co.

Lemons 15 cents dozen at McSorley's.

ROYAL BAKING POWDER

ABSOLUTELY PURE
Makes the food more delicious and wholesome

THE INSURGENT SIDE.

The War in the Philippines To Last Years. Plenty of Money and Food.

MANILA, July 23 via San Francisco, Aug. 24.—In Manila, talk of the ending of the war deals no longer with weeks, but with months and even years. Among the mass of people here, military men and foreign residents, there is but one opinion.

The whole effort of the insurgents for three months was to hold off Americans until their ally, the rains, came. In this they have been as successful as they could have been. Unless affairs take some unforeseen turn the Philippines will resume the war this fall with fresh spirit and a replenished stock of arms and ammunition. One ship load of arms, it is learned on good authority, has reached them within this week. Of money, the leaders of the insurrection have no lack. They control the resources of a large and rich section and even if no crops were harvested for several years they could still obtain enough cash and supplies by impressing to their use the treasures of the churches, the storehouses of farmers and manufacturers and funds of private individuals, a system of levy which they have long enforced to considerable extent. All the ships coming and going in the ports open to trade pay heavy tribute to the insurgents.

WAR PREPARATIONS.

Troops Moving to the Transvaal Frontier. Enemies Are Well Supplied.

SOUTHAMPTON August 24.—The British steamer Arundel sailed from this port today with thirty officers and 770 men of various regiments bound for Cape Town.

GIBRALTAR, August 24.—The Manchester Regiment numbering 1,000 men, has sailed for Cape Town.

CAPE TOWN, August 24.—The Delagoa Bay incident coupled with the recent transit of a large amount of ammunition has directed the attention of the British officials to the immense accumulation of munitions of war in the South African Republic, especially in the Transvaal.

DURBAN, NATAL, August 24.—The men belonging to the British first-class reserve residing here have been ordered to hold themselves in readiness to rejoin their regiments.

Cost Of The War.

WASHINGTON, Aug. 25.—Increasing the army so largely and sending so many men to the faraway Philippines and maintaining them there for an indefinite period has made it certain that the expenditures of the government will be largely increased during the coming two years, as the general expectation is that all of the volunteers will serve the full term of enlistment. During the last fiscal year, the government expenditures were \$90,000,000 in excess of its receipts. This indicates that more money will have to be raised. There are only two ways of raising it. More bonds must be issued, or new taxes must be imposed. Neither is likely to be popular, but it is a question of necessity, not popularity.

Under the act of Congress providing authority for issuing bonds to carry on the war with Spain, only half of the \$400,000,000 were issued, and none of the \$100,000,000 in certificates of indebtedness have been issued, but the fact that Treasury officials have been quietly investigating with a view to an extension of the stamp tax indicates a desire to try to raise the money needed by new taxes rather than by more bonds, although Secretary Gage says that neither bonds nor additional taxes will be necessary, and expresses doubts of his legal right to issue more bonds, if the necessity to do so should arise, under the law authorizing their issue to pay the expenses of the war with Spain, which officially ended with the signing of the treaty of peace.

Hamilton Clark, of Chaucery, Ga., says he suffered with itching piles twenty years before trying DeWitt's Witch Hazel Salve, two boxes of which completely cured him. Beware of worthless and dangerous counterfeits. F. S. Duffy.

Otis Is to Slick.

WASHINGTON, Aug. 25.—Secretary Root declines to discuss the nature of his conference with the President, this week, and says that Gen. Otis will remain in command of the army in the Philippines.

Irritating stings, bites, scratches wounds and cuts soothed and healed by DeWitt's Witch Hazel Salve—a sure and safe application for tortured flesh. Beware of counterfeits. F. S. Duffy.

Dr. Judge Hilton Dead.

SARATOGA, August 24.—Dr. Judge Hilton died at 2.10 p. m. after a protracted illness.

BE SURE that your blood is rich and pure. The best blood purifier, enricher and vitalizer is Hood's Sarsaparilla. Be sure to GET HOOD'S.

OFF CAPE HATTERAS.

Additional Particulars of the Hatteras Wrecked by the Gale.

NOFOLK, Va., August 14.—Lieutenant Johnson, of the United States Revenue Cutter Service, who arrived here today brought important news from Cape Hatteras of the recent shipwrecks there. Lieutenant Johnson was sent down to investigate, as is the custom of the revenue cutter service, the wrecks of vessels upon which lives have been lost.

He went especially to inquire into the loss of the schooner Aaron Reppard, of Philadelphia, of which Captain Westall and four of the crew were drowned when the schooner went ashore on Hatteras during the recent hurricane. He was upon the scene of the awful disaster some days and confirms the stories brought in here by survivors of the wreck of the several vessels whose experiences have been recently printed and told much which has been hitherto unknown.

He confirmed the report of the foundering of an unknown steamer far off shore at Hatteras and said that the bodies of two of those lost from this steamer came ashore before he left the coast. Pieces of wreckage which came ashore and which Lieutenant Johnson was apparently confident came from a steamer bore the name of Agnes. From this vessel, Mr. Johnson believed the 206 bales of cotton previously reported as drifting ashore came.

Postmasters Combine.

WASHINGTON, August 25.—Post Office department officials are a little uneasy over the reports they have received concerning the organization of a lobby to work Congress in the interest of the fourth class postmasters, of whom there are 70,000 in the country. The Post Office department has a very stringent rule prohibiting the presence in Washington for the purpose of trying to influence legislation of any postal employee, and under that rule the man who is now getting the fourth class postmasters into the National League of Fourth Class Postmasters was discharged. The object of the league is to get legislation from Congress raising the pay of fourth class postmasters, and they are now raising money to be used for that purpose by assessing themselves from 10 cents to \$3 each, according to their pay. The Post Office Department can prevent postal employees coming to Washington to lobby before Congressional committees, but it cannot prevent their employing lobbyists and sending them to Washington.

Always Croup Syrup is the best remedy for whooping cough on the market. We have numerous testimonials of its efficiency in whooping cough, every one of them given by some grateful father or mother. We guarantee every bottle every dose; if it does not relieve Croup, Whooping Cough or any form of children's cough, we will refund the money paid. Sold only at Bradham's Pharmacy.
