RALEIGH.

Prosperity is Shown by the Great Building Activity.

Such Railroad Travel. Opening of Baptist University This Month. Railroad to Southport. Iron Shipped to Europe. Normal College Opens.

RALEIGH, September 4.—There are now 169 Federal convicts in the penitentiary. The number steadily increases by discharges, and of course there are no additions from other States than this.

The 850 convicts at work railroad building are all to be sent back in the fall September 15th to pick cotton.

Governor Russell has yet had no advice of an official nature as to whether J. F. Armfield will decline the appointment as a major in the Forty-sixth Regiment.

Work on the annex of the State Museum had to be suspended by reason of lack of material. The demand for brick is so great it cannot be supplied, although there are five brick yards in operation. The work will probably be suspended a week.

A leading eastern Republican said today that he "could not see any politics in the constitutional amendment though some Democrats had made it a political question and some Republicans were trying to make it one."

Travel on the railroads holds up amazingly. People have money and they spend it. Facts speak louder than cantanality howling.

The negro conference which was to have been held here September 27-28 is indefinitely postponed.

Yesterday and today about 75 students arrived to enter the Agricultural and Mechanical College. One of the pleasant events of this month here will be the opening of the Baptist Female University.

There will be appropriate exercises. It will be a great institution.

The aldermen last night granted the petition of the barkeepers to be allowed to keep saloons open an hour later—until midnight.

Raleigh will cancel its present contract with the water company.

The Republican organ here seeks to make it appear that the penitentiary is now in Democratic hands. That is a big error. The Democrats cut no ice there. The fact is the Democratic directors made a great error in not resigning in a body last April, as it was generally expected; in fact believed they would do.

The State charters the Southport, Wilmington & Western Railroad. William A. Guthrie, of Durham, was here this afternoon and obtained the charter. He said: "The road will be built from Southport to Wilmington. Further than this I am not able to speak at present. Philadelphia capitalists will construct the road. It is evident that the road has larger plans in view, most probably a North-western connection. The charter authorizes the construction and maintenance of the road from Southport to Wilmington, 30 miles, with power to secure rights of way to build warehouses, grain elevators, wharves, docks and all terminal facilities deemed necessary at Wilmington and Southport. The road is given authority to buy, lease and operate ocean and river steamers."

The iron furnace at Greensboro is turning out 45 tons of pig iron of an excellent quality each day. This is sold long before it is smelted, and is mostly shipped to Philadelphia and New York. However there has been steady demand for pig iron in Europe, and much of the Guilford county iron is shipped to Germany and other places on the continent.

The State Normal and Industrial College will open on the 5th of September and Dr. Molyer says that already 805 students have engaged all available dormitory space. He is sure that by the 5th there will be 400 students at the college over 19 years of age, and that a good many pupils younger than this will receive instruction in the preparatory department. This is the first year that the college has been there open to outside States, and students will come from Virginia, South Carolina, Kentucky, Alabama, District of Columbia, Georgia and New York. These are charged 50 per cent. more than the North Carolina students.

The Benbow House property at Greensboro has been sold, and transferred by Capt. Fisher to Jordan, Walker & Porter. The parties will not finance the purchase price of the property, though it is supposed that it is about \$25,000, the amount specified in the option. They will at once commence to build a new and perfectly appointed hotel over the old Benbow hotel.

Clerk Fortune says that the movement to oust him is not by reason of his declared views in favor of the constitutional amendment.

Governor Russell has appointed one or two magistrates in each of 12 counties, to take the place of some elected by the Legislature, who had failed to qualify.

SHOT BUT MISSED.

Narrow Escape of United States District Attorney Bernard at Greenville.

GREENVILLE, N. C., September 2.—United States District Attorney Claude M. Bernard, of the eastern district of North Carolina, has been in Greenville the past two days. This evening he was at the depot, expecting to take the 7 o'clock train for Kinston.

Mr. B. S. Shepard was also at the depot, and seeing Bernard, remarked: "You damned scoundrel, you have ruined my home!" at the same instant drawing his pistol, which he fired at Bernard.

The ball missed its object and Bernard ran into the waiting room of the depot, closing the door hurriedly behind him.

While Mr. Shepard was trying to get into the door after Bernard, the latter jumped out of the window and hastily getting into his buggy, drove rapidly down town and hastily swore out a "peace warrant" against Mr. Shepard, to avoid his following and again attacking him.

The matter is being much discussed by the citizens of Greenville on the streets here tonight, many expressing regret that Mr. Shepard missed the mark.

FEVER-OUTLOOK BETTER.

No New Cases in New Orleans And Few At Key West.

NEW ORLEANS, Sept. 3.—The yellow fever situation here is briefly outlined in a telegram which President Souchon, of the Louisiana Board of Health, sent today to Health Officer Blunt, of Texas. It reads:

"Alabama has not quarantined against freight. Will you not do likewise? No new cases here in last three days. Come and see for yourself."

KEY WEST, FLA., September 3.—Much of the excitement which followed the announcement that yellow fever had broken out here has subsided, due largely to the fact that the type of the disease seems to be mild. Every precaution is being taken to confine the disease to Key West. Two tug boats have been employed to patrol the harbor, and no vessels are allowed to leave port without proper certificates.

The steamer Lampass sailed for New York today carrying nearly 100 passengers, mostly unacquainted persons who have been encouraged to leave. Up to date 80 cases have been reported and but three deaths.

LIGHT IS BREAKING.

The Opinion is That Capt. Dreyfus Will be Acquitted.

RENNES, September 2.—Elation is the only word that expresses the feelings of the Dreyfusards after today's proceedings. The tide has turned at last, they say, and Dreyfus cannot be condemned after the evidence given this morning. The spirits of the Dreyfusards are quite morose. Every day since the opening of the trial has seen their rise or fall. Recently they have been falling heavily, the close of the morning sessions generally finding them in anxious conversation, accompanied by ominous shakings of their heads. Today's buoyancy, therefore, is all the more noteworthy. Yesterday was a fairly good day, but today's session, they claim, puts the verdict out of doubt and the judges must acquit Dreyfus.

The Washington Reception.

WASHINGTON, Sept. 1.—Cordial invitations have been sent to all the Governors of States to come to Washington to participate in the welcome to Admiral Dewey, which, while it may not be so noisy as New York's welcome, will be much more interesting because of its official nature—the Washington welcome will be participated in by the President, the Vice President, and every member of the Cabinet, and one of its most interesting features will be the presentation of the sword voted to Admiral Dewey by Congress, by the Secretary of the Navy.

Albinus E. D. Wm. Kalmanson, M.D., says: "Royal Dyspepsia Cure cured me of a severe case of indigestion, gas, acidity, nervousness, and all dyspepsia. Digestion what you eat without aid from the stomach, and nerves tranquil." F. S. Duffy.

KEEP your blood pure and your stomach and digestive organs in a healthy condition by taking Hood's Sarsaparil and you will be WELL.

KENTUCKY AND OHIO.

Exciting Campaign Begun in These States. Contest For Governor Permal and Hines.

WASHINGTON, September 3.—As frequently remarked in political circles, the campaign in the States of Kentucky and Ohio will literally be "red hot" this year. It will be a desperate, continuous struggle from now until the finish, and both local and national interest will be concentrated upon the two Common wealths.

It is rather remarkable that bitter faction fights exist in both parties in both States, and this fact adds more or less to the piquant and picturesque features of the situation and the uncertainties of the result.

Exciting incidents will crowd each other, and lucky it will be if personal encounters with tragic endings are not frequent accompaniments in the State of Kentucky.

In Ohio there has already been considerable plain talking and there will be plenty more, but there is no grave apprehension of blows succeeding words, as they look at things differently in Ohio and Kentucky. It is said here by Kentuckians that blood will inevitably shed before the campaign has made much further progress, and when the ball is once opened there is no telling where it will stop.

Candidate Goebel cannot afford to pass without notice the opprobrious epithets thrown in his teeth by Breckinridge and Owen, but he may possibly defer calling them to account until after the election. Of course, according to Kentucky style, he will probably reply in kind to their strictures in his speeches, but the hand-to-hand fights may be deferred for more fitting opportunities.

If the Republicans of Kentucky were harmonious, they would unquestionably have a splendid chance, but they are at odds, and certainly up to this time have given no indication of the purpose to make more than a perfunctory fight. It possibly may be best for them to let the opposing factions of the Democratic party fight it out among themselves. The leaders of both the factions are daring and desperate men, whose blood is up to fever heat, and who hate each other ten times more than the common enemy.

In Ohio the Democrats have been counting upon Republican dissensions, which are two notorious to be made light of. With a united Democracy this must have counted considerably. How it will be now the future only can tell. In Kentucky the fighting will be done on the stump. Money does not ever play any prominent part in Kentucky elections. At this time the conditions are such that so amount of it could exercise any appreciable influence.

There will be great speaking in Ohio also this autumn; in fact, the campaign will be fully as lively as any which have preceded. But money is going to do a great deal of the talking, and money will surely talk to effect. The head of the barrel of both campaign committees will be knocked out, and the barrels of both sides will be tremendous big ones.

"Best on the market for coughs and colds and all bronchial troubles; for croup it has no equal," writes Henry R. Whitford, South Caanan, Conn., of One Minute Cough Cure.
