## RALEIGH.

### How They Played it on New Students at A. & M. College.

Firing Will be From Capitol Square. Supreme Court to Examine For Attorneys. New Knitting Mill Museum Work Resumed.

HALEIGH, Sept. 14.—Some of the old students at the Agricultural and Mechanical College played a practical joke on sixty of the freshmen last Sunday, by telling them they were under orders to go to the Baptist Tabernacle to attend the morning service. Four students, in uniform and with arms, appeared and escorted the 60 victims to the church. At the capital square three of the escort "fell out," saying they had to go on guard duty there, but one went on with the freshmen and quite a jolt was created as they marched into the church. The solitary escort departed and the freshmen were left to get back unprotected. They told the president that they did not like their escorts thus leaving them.

### THE OCEANIC ARRIVES.

Biggest Vessel Afloat Safely Reaches Her Pier in New York.

NEW YORK, September 13.—The new White Star Oceanic, the largest vessel afloat, from Queenstown, arrived at her pier in North river at 1:45 o'clock this afternoon and debarked her passengers.

A big crowd of those who had secured passage to the dock, and a bigger crowd which was kept back of the fence cheered the new steamer as she crept up the river and swung slowly into her berth. Coming up from Liberty Island the boat appeared unawfully and her funnels too big for symmetry, but as she came closer the impression of great length grew clearer. It took six tugs forty minutes to shove her bow around and force the huge vessel into place. Docked, she filled almost the whole length of the long pier.

The Oceanic's time was six days and two hours. She was launched at Belfast, January 14th, at the shipbuilding yards of Harland & Wolff. Her dimensions are 704 feet long, 73 feet beam and 68 feet in depth, with draught, light of 22 feet and loaded 334 feet. She registers 17,000 tons. Her engines were designed to develop 45,000 horse power. Her coal capacity is 8,000 tons and she consumes about 800 tons of coal daily.

She is fitted with three masts and equipped with two funnels, each of twenty feet diameter and eighty feet above the fire grates.

### The Outlook in Ohio.

WASHINGTON, September 13.—Although Ohio Republicans laugh at the idea of a defeat in that State this year, it is well known the President is watching politics there with intense interest. He will most certainly give all the assistance he commands, and notwithstanding the predictions of forty or fifty thousand majority, all the indications show that the Republican leaders, local and national, from the President down, will work just as hard in the next six weeks as if victory was anything but assured. The President cannot afford to lose his own State this year, for while it might not prevent his re-election in 1900, it would undoubtedly detract largely from the enthusiasm in his behalf.

### Cyclone in Bermuda.

HAMILTON, Bermuda, Sept. 13.—A cyclone swept over Bermuda last night, doing heavy damage, but as far as is known no lives were lost.

It began with a heavy gale, and at midnight the barometer had fallen to 29.10. At 3 o'clock this morning the barometer had fallen to 28.40, and the wind, which had shifted to the southwest, was blowing at the rate of 90 miles an hour.

Many buildings were reduced to ruins. The storm also wrought heavy damage to shipping in the harbor.

The damage done is estimated at about \$500,000.
