Indeed You Would Laugh!

If only you knew how very comfortable and elegant
LEWIS' SHOES ARE.

Have you tried them? If not, better waste no time in so doing.
Our line of Zeigler and Plant's Ladies \$3.00 Shoes are so much better and more stylish than ever before and the \$3.50 and \$3.00 Grades defy competition for the money. Do not forget that you can find the **Asbestos Soles** at our place. They are excellent for Rheumatism and Cold Feet.

Oh, we have such a superb line of **SILK WAIST PATTERNS** in Parisian Cords, Shadow Stripes or Taffetas. The Venetian Cloth, 38 inches for 50c is a beauty. The Triumbe Kid is a perfect gem, only 95c. The new Neva Lining is pleasing all who have tried it.
What about handsome Portieres?
We know that we can gratify the most fastidious taste in Embroideries and Val. Laces.
Only give me a call.

E. B. HACKBURN.

NO RACE.

Neither Yacht Covered the Course
Within Time Limit.

Columbia and Shamrock Beached
Within a Boat's Length of Each
Other, Columbia Ahead at
Turning Stake Boat Race
to be Resailed.

Special to Journal.
New York, Oct. 3.—The first race between the Columbia and Shamrock for the America's cup today proved a fiasco, the yachts not covering the course of thirty miles in the time limit of five and a half hours. The race was declared off at 4:48 o'clock.

The Shamrock crossed the starting line at 1:35 minutes and 40 seconds past eleven, and was fifty seconds ahead of the Columbia. The Columbia then gained to the stake boat, the course was laid down the Jersey coast, the wind being northeasterly.

The first part of the course was sailed at a speed of twelve knots but it dropped to seven knots before the stake boat was reached.

The Columbia turned the stake boat at 1:38 p.m. and the Shamrock turned at 1:40. The run up was very slow.

The yachts were finally becalmed on the return course within a boat's length of each other. The Shamrock was ahead when the race was declared off.

One of the greatest surprises for yachtsmen since the arrival of the Shamrock in these waters was the announcement officially made at the New York Yacht Club that the Columbia will have to allow the Shamrock 231-100 seconds on a 30 mile course.

An international yacht race, says the New York World, is the costliest of sports to the persons who are immediately interested. The mere cost value of one of these challenges, though great, is but a small part of the actual expense of competing in one of the races. It has been estimated that it will cost a cool million to prepare the spectacle which so many thousands are now gathering to witness.

It is at first difficult to realize how such a fortune can be expended upon craft which appear to be so simply constructed. The Shamrock cost about \$125,000 and the Columbia \$150,000.

The steel mast of the Columbia alone cost \$1,000, the boom \$1,200, the gaff \$1,100, the bowsprit \$600—a total of \$4,900. The rigging cost \$3,000 and the joiner work alone \$3,000. The bronze, nickel and steel cost \$18,000; the castings, bolts and screws \$3,000.

The entire country was searched to provide flawless pieces of timber, and the best machine shops were put in competition with each other to supply metal fittings as perfect in their way as pieces of jewelry. Several men were brought from a distance merely to do the riveting—men who were "artists" in their specialty.

The sails of these racing yachts are worth in themselves as much as an ordinary sailing yacht. The Columbia's sails cost \$8,000. In the case of the Shamrock the cost has been even greater, for the sails were woven to order from Egyptian and Sea Island cotton mixed with silk, and in consequence her big expanse of canvas cost \$1 a square yard. Besides this the yachts carry a splendor and other light sails of pure silk which cost from \$2 to \$4 a yard.

It is because of this great mass of canvas that so large a crew is required. An ordinary commercial vessel three times as large as the Columbia would require less than half the crew carried on the cup defender. The expense of maintaining this crew is high.

WASHINGTON, Oct. 3.—A dispatch from General Otis was received at the War Department this morning, giving an account of his meeting with the insurgent envoys. General Otis said the interview with Aguinaldo's representatives indicated that the leaders were maneuvering solely with a view to securing recognition of the insurgent government. All such overtures were rejected, and the envoys were informed that the only thing that the United States would recognize was a white flag and the grounding of arms.

He also informed the envoys that such capitulation on the part of the insurgents should come in quickly, in order to avert the consequences of active war, as the United States did not intend to permit any delay in the matter. The course of General Otis is approved by the War Department.

Felling Down Heavier Rails. New Cotton Mill. The Catholic Orphanage. Russell's Long Vacation.
RALEIGH, October 3.—It was stated when the Southern Railroad bought the Atlantic & Danville Railroad, not long since, that the bulk of the passengers to Piner's Point would be handled over this road, but such is not the case. The Southern will put down this fall on the North Carolina Railroad 88-pound rail and ballast the road eight inches deep with crushed rock to accommodate the big engines. Only two years ago 65 pound rail was put down.
About 80 recruits left here yesterday for the different volunteer regiments for the Philippines.
The twenty-first colored State Fair is to be held October 31st to November 3rd.
No decision has been rendered in the case of \$90,000 damage suit brought by the Hygenic Ice Company here against the Seaboard Air Line. It was argued in the Supreme Court last week.
At the Academy of Music Saturday, where Lee, the hypnotist, has been holding the boards, one of the students at Peace Institute had a violent attack of hysterics and had finally to be carried home in a carriage.
Another cotton mill to cost \$50,000 will soon be started at Wake Forest College.

HOURS OF FIGHTING.
Conflict in Africa Reported Not Uncommon.
London, Oct. 3.—A dispatch to the Exchange Telegraph Company states that the Boers have captured Dundee, in the British colony of Natal. This cannot be confirmed.
Many other rumors that fighting has begun are also in circulation.
Lord Lansdowne, Gen. Lord Wolsley and Gen. Sir Evelyn Wood were busily engaged at the War Office today. Gen. Sir Redvers Buller called at the office in the afternoon and a special board meeting was held. It is understood that General Buller will not proceed for the Cape until next week, except in case of unforeseen developments.
The Duke of Argyll, in reply to an inquiry as to what he thought of Sir William Varnon Harcourt's words, said they were pure party claptrap, adding: "I have no respect for a petty State which invites, rises by means of, and depends upon the labor and brains of strangers, and then refuses them the common rights of humanity and condemns them to an intolerable life of serfdom."
A letter from an Outlander received in Birmingham was published today. The writer says:
"If it comes to a fight, I believe the Boers will make a massacre of it, blow Johannesburg to bits and shoot us on sight. In fact, I have been told so by one in office."
Reports from arsenals and garrisons in Great Britain testify to the active continuance of military preparations. The reserves have received preliminary notice to be prepared, and several regiments have been notified to hold themselves in readiness for active service.
