COLLEGE MISSING.

One That Has Conferred Degrees Not Known at Home.

Spanish Cannon at the Museum. Sign of Good Times. A Snake From Craven. Will of A. F. Page. Paid Fair Admissions.

RALEIGH, October 24.—The rapid-fire cannon taken from the Spanish flagship at Manila and given to Raleigh by the officers and crew of the cruiser Raleigh, is the supreme attraction at the museum. It is said that it was the first thing asked for by 3,000 visitors to the museum last week. Curator Brumley has just put the gun in the same condition as when it was installed on the flagship, as to paint, polish and bronzing.

The improvements at the public schools here, in the way of heating, etc., are a long step forward. A letter comes from Chicago asking whether there is an institution at Raleigh known as Poe Doe Collegiate Institute, with a Dr. Barrett as president. The letter says: "This so-called university in North Carolina has been conferring degrees upon certain British clergymen in England and a friend from there writes me, making inquiries regarding it. I have written to Dr. Barrett, but can get no reply. Can you give me the number of students and the relative importance of the said institution? There is no such institute here and no one has yet been found who has heard of it.

The annual debate between Wake Forest and Trinity Colleges on the evening of Thanksgiving Day will attract the usual large audiences.

The United States quarantine officials have stopped at Andrews, on the Murphy branch of the Western North Carolina Railroad, 120 head of cattle, which had been driven there from Georgia, for shipment north.

There were today 173 students at the newly opened Baptist Female University here.

The Supreme court will devote this week to appeals from the fifth district. Will Wynne has invented a telephone with new features, and is having the 'phones made here. A button is used instead of the crank and this gives automatic connection with the exchange and also indicates the number called.

There was frost here yesterday. It did no harm. Nearly all the cotton is picked, save in some low grounds. By November 15th practically the whole crop will be gathered.

"Toke" Marshal, for 20 years the justice of the city hall, died yesterday of heart disease. There is literally no bankrupt business in this district. The officials declare that this is but another sign of the great prosperity which prevails.

Superintendent Day, of the penitentiary, insists that there is no question as to the making of both ends meet this year. He did not relish the statement by the directors that there was business friction between them and himself, though no personal friction.

The last arrival at the State Museum is a rattlesnake of immense size, from Craven county. It is a "diamond" rattler, seven feet six inches in length and four inches in diameter.

The will of the late Mr. A. F. Page has been admitted to probate. Among other legacies he leaves half interest in the Academy of Music to the Methodist Conference for the Methodist orphanage, the other half going to his wife for life, then all goes to the orphanage. His estate had originally been valued at \$200,000, but he had elaborately provided some time ago for his children, so the remaining part was left to his wife with the exception of \$5,000 in small legacies. Mr. Page had only recently made Raleigh his home, but he had invested largely in real estate here, and built some large buildings. He owned the Opera House, the Park Hotel, and the Commercial and Farmers' Bank buildings, besides many small dwelling houses and his handsome residence.

The paid admissions to the State Fair were about thirty per cent. larger than last year. The receipts were sufficient to pay a dividend. The Blincoe exhibit got 137 premiums in the poultry department.

The "Plow Boy Prescription" Rev. J. Kirkman, Belle River, Ill., says, "After suffering from bronchial or lung trouble for ten years, I was cured by One Minute Cough Cure. It is all that is claimed for it and more." It cures, coughs, colds, grippe and all throat and lung troubles. F. S. Duffy.

American Officers Detailed.

WASHINGTON, October 23.—Great Britain has complied with the request of the United States Government for permission to send a number of army officers to observe and report upon the military operations in the Transvaal. Formal orders were issued today directing our army officers to proceed at once to South Africa and present their credentials to the commanding general of the British military force.

"When our boys were almost dead from whooping cough, our doctor gave One Minute Cough Cure. They recovered rapidly," writes F. B. Bell, Appleton, Wis. It cures coughs, colds, grippe and all throat and lung troubles. F. S. Duffy.

State vs Mallet and Mahagan, from Edgecomb, reversed.

R & A Railroad Co vs A & W E Railroad from Wake, affirmed.

Collins vs Collins from Franklin, affirmed.

Sydnor Pump Co vs Rocky Mount Ice Co, affirmed.

Benton vs Collins, from Franklin, affirmed.

MAY BE HARD PRESSED.

British Army Faced by Boers in Superior Force. Waiting For News.

LONDON, Oct. 23.—A dispatch to the Daily News from Ladysmith states that a large force under General Joubert and Commandant Vogas opened fire on Dundee Saturday. The firing was continued Sunday. The result, it is stated, is not known at Ladysmith.

General Yule, evidently, is in a tight corner, as he has, or had, to face the main Boer Army, under General Joubert. Gen. Sir George Stewart White, the British commander in Natal, will undoubtedly detach part of the force which was victorious at Elandslaagte and send it to Yule's assistance. Such a detachment, however, will leave Ladysmith poorly protected against the threatened attack from the west, as General Hunter on Saturday wired that the departure of the force to Elandslaagte left him with only "a couple of battalions of regulars, a mountain battery and 500 Natal volunteers" to defend the town, which is the British military base in North Natal.

Further news, therefore, is anxiously awaited in London.

The Parliamentary Secretary of the War Office, Mr. George Wyndham, made the following statement in the House of Commons this evening:

"Lord Wolseley sums up the position in Natal early this morning as follows: In the battle of Elandslaagte, October 21, two guns were captured from the Boers, who lost heavily. A large column of the enemy appeared advancing from the north and west on General Yule, who, consequently, had fallen back from Dundee and was concentrating at Glencoe. In this operation he gathered in the wounded and medical attendants left at Dundee. General White was in position at Ladysmith and was being reinforced from Pietermaritzburg. The enemy appears to be in large numerical superiority."

ATTACK IN THE REAR.

Irish Members in Parliament Utter Bitter Words. Best of English at the Front.

LONDON, October 23.—While the House of Commons was discussing the report on the supplementary estimates today Patrick O'Brien, Ranelagh member for Kilkenny City, declared in a speech that the Boer war was murder and that the hands of the British Secretary of State for the Colonies, Joseph Chamberlain, were as much stained with blood as those of any murderer who ever mounted the scaffold.

The Speaker, William Court Gully, called upon O'Brien to withdraw his remark, but he refused to do so. The House then, by a vote of 218 to 28, resolved to suspend him, and he left the floor, saying:

"You had better bring up another army corps unless you want it somewhere else."

Not since the Crimean War, more than 40 years ago, has England sent out an army on so comprehensive a scale as in the present crisis. A deeper interest attaches to the Transvaal campaign for this reason, as it touches more closely scientific families and country houses throughout Great Britain and Ireland.

From the Queen downward the upper ranks of Great Britain are sending out their best and bravest.

The names among the officers whom the transports seek by week are hurried to Cape include most of those which have been furnished as historical data in centuries in English history and still fill a large space in today's society.

GOOD NEWS comes from three cities which have been responsible for scientific apparatus and instruments. Houghton's HOOD'S CLIPPER

OUR LOSSES LARGE.

At Least 20 Filipino Leaders are Saying.

SAN ISIDRO, Luzon (via Manila), October 23.—General Lawton is giving his personal attention to getting boats containing subsistence and ammunition stores up the Rio Grande, but they are still four miles away. It is a serious problem to undertake to supply the troops here, as the water is too shallow for launches.

Twenty American prisoners are reported to have been moved north from San Isidro two days ago.

A Filipino newspaper makes the statement that independence will be given to the islands in December, when Bryan will be elected President of the United States. The same paper alleges that the American losses have been 25,000 since last February and that the American policy now is a "retreating fight."

A Filipino officer who had been captured said he had no wish to return to camp, as his men were short of ammunition.

One hundred men of the Thirty-fourth Infantry are coming to San Isidro to act as scouts.

MANILA, Oct. 24.—The Filipinos around Calamba and Angles have bothered the Americans lately with repeated attacks which, like most of those made by Filipinos, consisted of shooting a lot of ammunition into their opponent's camp from long range.

Major Chestnut's battalion of the Thirty-seventh Infantry, three companies of the Twenty-first Infantry, a battery of the fifth Artillery and a Gatling gun sailed out this morning from Calamba, drove the Filipinos from their trenches and pursued them three miles, inflicting heavy loss. One American was killed and three were wounded.
