"Family" In the Cens There are some queer features about the census use of the word "family." It means practically those who eat at the same table. A botel is a family. The Memorial Hall Dining association at Cambridge is a family; so is the Danvers Lunatic asylum. A stray man who keeps bachelor's hall is a family The necessity for this use of the term came with the question of enumerat ing domestic servants. It was found absolutely impossible to attach them to their own families, scattered as they are. They had to go with the family they were living with. This led to continuation of the principle, with the result mentioned. As it works out, the ing to run fer President-on the Repubcensus family differs from the actual family in size only by a small fraction of one person.-New York Post.
