THINK IT SAFE.

So Fourth Class Postmasters Make False Returns.

State Superintendent Public Instruction Asks Important Question. Parrell Fortune Trouble Is Up.

RALPH, Nov. 25.—James M. Pittman, colored, postmaster at Tillery, was arrested by Deputy Marshal Perkins last Saturday, at Rocky Mount, on complaint of Mr. Connolly, of the Postoffice Department, charged with making false returns of cancellation of postage. He was given a hearing at Elm City and was being able to give bail, he is in jail at Wilson. Mr. Connolly says that quite a number of the fourth class postmasters make false returns, under the impression that they cannot be detected, but that they are greatly deceived in this belief.

A deed of assignment was recorded in the register's office here by which John R. Cochran, of New York, and James A. Phelps, of Detroit, Mich., transfer to the North Carolina Lumber Company, at Durham, their holding in the north western part of this country, for the sum of \$100,000. Both Cochran and Phelps are members of the company.

The State Superintendent of Public Instruction asks the Attorney General the following questions: "Does the recent decision of the Supreme Court regarding county boards of education affect the contracts and general business transacted according to the law of 1899 by county boards of directors and their appointees? What effect has the decision upon present county superintendents? What effect upon township trustees and district committees? How much or what part of the general school law as enacted by the last Legislature is law and what part is not? If the old boards are the legal boards, will they perform the duties as laid down in the laws of 1899 for county boards of directors? Have old boards authority under the recent decision to meet and take charge of public schools before the next regular meeting day of the county boards? Please give me your opinion clearly and explicitly on all these points, as I am anxious to act in accordance with what is law and right in these matters of so much public importance."

Senator Robert B. Glenn, speaking of the sweeping decisions of the Supreme court this week said: "They may put the very devil in the Legislature." As one of the very ablest men of that body, what he says is always worth hearing.

Special Agent Wheeler, of the revenue service has been here all this month, making a detailed examination of Collector Duncan's office.

The law as to trapping and netting partridges is being violated. A Chatham man netted three coveys and got them all. There were no less than 60 birds. He shipped them here alive by express and got 124 cents apiece for them. It is said that the buyer resold them for 35 cents. In such cases they were probably shipped out of the State secretly, as they cannot go by express.

The Purnell and Fortune matter is yet on the ragged edge. It is said a special agent of the Department of Justice is coming to investigate Fortune. The latter wants him to hurry, and says his accounts are perfectly straight and that he followed the judge's directions as to discharge in bankruptcy. The judge orders a hearing January 3d in eight cases in which Fortune granted such discharges. There are intimations, more or less plain, that some other Republicans may be mixed up in this squabble.

Secretary of State Thompson finds that chapter 277, private laws of 1895, (a fusion law) chartered the "Barrett Colored People," with power to confer degrees "on other colleges or universities."

WONDERFUL SPEED IN WATER.

Torpedo Boat Viper is Expected To Equal Her First Record.

New York, Nov. 24.—A cablegram from London to the New York Sun says:

"An officer of the Parsons Steam Turbine Company states that at her recent trials the torpedo boat Viper made 33 knots an hour at three-quarter power. Her propellers will be altered and there will be another trial shortly, when it is expected she will be able to make 35 knots an hour."

"The following are the present dimensions of the vessel: Length, 218 feet; beam, 21 feet; depth, 15 feet; displacement, 320 tons; horse power, 15,000; guaranteed speed 33 knots."

"The Viper has four shafts, with two screws on each shaft. Her turbine engines are so arranged that she can go backward at the rate of 10 knots an hour with her four screws working. She is almost a duplicate of the torpedo boat destroyer Express, built by the Laird Brothers."

D. H. D. Hall, General, Ala., says "I think that the people of the South are not yet ready to accept of the new order of things."

NEARING THE END.

The Insurgent's Mother And Oldest Child Captured.

Aguinardo Being Deceived and Followers Captured. Americans Keep Up Pursuit. Oils Claim Philippine Government Does Not Exist.

Special to Journal.

WASHINGTON, November 25.—In addition to the capture of Bascom, General Otis cables that Aguinardo's mother and oldest child have been taken by General Wheaton's troops, the mother being separated from the rest of the party.

Two thousand dollars in gold were found in possession of the woman when captured.

WASHINGTON, November 24.—General Otis sent a dispatch to the War Department today in which he says that the Philippine Government can no longer claim to exist; that its troops and officials are scattered, and that Aguinardo is in hiding. The dispatch follows:

"Claim to government by insurgents can be made no longer under any fiction. President and remaining Cabinet officers in hiding, evidently in different Central Luzon provinces; generals and troops in small bands scattered through these provinces acting as bandits or dispersed playing the role of 'omigos,' with arms concealed. Indications are that Aguinardo did not escape through the lines of Lawton or Wheaton, but fled westward from Bayambang railway station. Telegraphic communication to Dagupan established, probably to San Fabian today, by relaying nine miles of track with material at hand railway communication to that point reestablished."

MANILA, Nov. 24.—Senator Bauteista president of the Philippine congress presented himself to General MacArthur today and formally renounced all further connection with the revolution.

He was one of the influential Filipinos who hesitated at the beginning of the war as to which side to cast his lot. Bauteista was offered a judgeship, of the Manila Supreme Court, but declined. He now announces that he desires to accept the position.

Senator Bauteista says the Filipino congress and cabinet are scattered, never to reassemble. Some of the members have returned to their homes, while others are flying for safety. Many of the congressmen have resigned, and Bauteista says he believes the Filipino soldiers "will lay down their arms everywhere as soon as they learn the truth."

NEW SHIPS ALL FAST.

Alabama and Kearsarge Nearly Equal Kentucky in Speed.

WASHINGTON, Nov. 25.—Of the three battleships which have recently been subjected to speed tests the Kentucky is the fastest, its average speed on the official trial trip having been 18.77 knots an hour and its maximum performance 17.23.

The Kearsarge, its sister ship, comes next, with an average speed on its trial of 18.45 and a maximum of 17.51 knots an hour. The Alabama showed an average speed of but 18.12 and a maximum of 17.45 knots an hour.

The Oregon is the only other ship in the navy which can compare with these new vessels in this respect. This ship on its trial trip made 19.73 knots an hour, placing it ahead of the Alabama, and the remarkable performance of the Oregon on its long run during the Spanish war shows that it is nearly as swift in practical work.

The new battleships which have already been launched were designed for a speed of not less than 18 knots an hour. The entry is now making 19 knots as a standard, so many of the modern European battleships equal or exceed that speed.

Don Schick, Rockland, O., says, "My wife had piles for many years. DeWitt's Witch Hazel Ointment cured her. It is the best cure in America." It cures every kind of hemorrhoids and piles. P. S. Duff.

After Sensational Finish. Scores of Other Games.

Special to Journal.

New Haven, Conn., Nov. 25.—There was the most dramatic finish in the game here today, between Yale and Princeton, that was ever seen on the Yale grounds. Princeton scored 6 in the first thirteen minutes. Yale scored 10, first half.

In the second half neither side scored until very late when the ball fell on the 25 yards line. Poe dropped back for a field kick and made it amid fierce yells from Nassau's followers, making score Princeton 11, Yale 10.

Other games resulted as follows: Indians 81, Oberlin 9. Lehigh 9, Lafayette 25. Western 11, Williams 5. Penn Freshmen 19, Cornell Freshmen 18. Brown 10, Dartmouth 8.

SEEKS RE-INSTATEMENT.

General Egan Wants his old Position in Substantive Department.

Special to Journal.

WASHINGTON, November 25.—The Army and Navy Register says: General Egan, late Commissary General Substantive Department of the Army, will make an effort to be re-instated at the head of his old department.

He will attempt to effect this through Congress, which proposes to hear his appeal early in the coming session.

There have been various statements that General Egan would ask for re-instatement, and then retire, but it is now understood he hopes to regain his old place and discharge the duties of the office.

Taxes Must be Paid.

Taxes for 1899 are now due and payable, and should be paid at once.

The law will be enforced and all persons charged with taxes, due to failure to pay their taxes, as warned, will have to bear the extra expense.

Taxpayers should see to it at once and avoid this additional expense.
