AFTER AUGUST.

All Candidate Booming is Postponed Until After Amendment Passes.

Work to Begin in Earnest. The Fertilizer Hearing, County Education Board, the Case of Theophilus White, Inspection of Offices.

RALPH, December 13.—There is great satisfaction at the work of the Democratic committee. It was an open season; that is, any Democrat in good standing was admitted. There was wisdom in the leaving of the senatorial question to the people, which means primaries—the very things the people want. Chairman Simmons took the floor and made a stirring speech in favor of leaving the whole matter to the people. He said he knew there was no objection to his plan and he prepared a resolution, which Col. Paul B. Means elaborated, and which was adopted unanimously.

The committee's unanimous adoption of Mr. Travis' resolution in the shape of a recommendation that no congressional conventions be held until after the August election is held, was another evidence of its accurate judgment. It is the plan to do nothing and have nothing done which will interfere with the great central idea—the ratification of the constitutional amendment.

Candidates were pretty numerous, but were very modest. For instance, there were Simmons and Carr for the Senate, and Justice and Cunningham for the governorship. D. H. McLean for Secretary of State, etc, but these gentlemen all subordinated themselves to the party.

There were some members who thought the convention ought to be held in March, and declared that the State cannot be carefully canvassed in three months. But March is rather inclement, and it is hard to do much work then. But a large force of speakers will be put in the field as soon as the convention is held, April 11th, and there will be a tremendously lively movement. Of course there will be speaking and other campaign work in January.

Yesterday there was a continuation of the hearing, at chambers, before Judge Fred Moore, of the case of the divisions of the Seaboard Air Line other than the Carolina Central Railroad, against the corporation commission, to prevent the latter from carrying out its order reducing freight rates on fertilizers. All day yesterday the evidence of H. W. H. Glover, traffic manager of the Seaboard Air Line, was taken, and today he was again on the stand. There is other oral testimony on behalf of the railroad. The commission will hardly introduce any witnesses. Shaw, Day and Batchelor appear for the railroad, and Battle & Mordcaid and Simmons, Pau & Ward for the commission.

The fiscalists who chance to get in on county boards of education can only hold until next June. Then the Democrats will go in. There are seven counties in which the fusion boards did not step down—and out, these being Davie, Ashe, Yadkin, Forsyth, Granville, Sampson and Chatham. The State Superintendent of Public Instruction said there would be confusion in these counties, as in most of them both boards have been acting.

The Attorney General says that the Supreme Court will have again to pass upon this question of title of the boards, as there are varying conditions in various counties. Some Democrats decline to retire.

The State charter of the Raleigh Ice and Electric Company, to make ice, furnish cold storage and also electric light, heat and power in consumers, capital \$75,000, E. G. Hillyer owning 16,000 shares, T. L. Eberhart 10,000 shares and T. F. Jerome 1.

The State Auditor has notified the sheriff of Wake that fortune tellers must pay a tax of \$150 to the State and \$100 to the county.

The Supreme Court fixes the end of next week for the hearing of the case of Theophilus White, chief clerk of the county mission. The question at issue is his salary. Judge Starbuck decided that he is entitled to \$775 per month, which he used to get. He wants the \$1,000 which the last Legislature allowed for the pay of seven commissioners and so he appealed from Judge Starbuck's decision.

The Supreme Court sustains the decision of the lower court that where the attorney of an insurance company died without his orders his character under the Osgood act, the company can have the charter returned.

The joint legislative committee has begun the annual inspection of the books etc, of the Treasurer and Auditor. This work will occupy a week's time.

The Baptist mission board is called to meet here on the 21st, when it will distribute \$50,000 to district places.

A revenue officer of wide experience tells that in a county in this State there is a preacher who puts in his hands time breaking the fifth district. He preaches a stirring sermon and then he and the class among his flock go on the warpath. They buy their guns, too. Last week he and their captain a bill and bid it in a talking. White he was preaching the sermon, he seemed to get sick. He died.

Next Friday evening at 8 o'clock, W. D. A. Tompkins will lecture before the students of the Agricultural and Mechanical College. His talk will concern the rising industry of the State with reference to the cotton.

TRENTON.

Entertainment Christmas Week. Cotton Seed Selling. Plenty of Hogs. How to Keep Collards. Two Deaths.

December 13. Bale cotton sold on Friday last at 7.40 to 7.60 per cent; seed cotton 2.75 per cent; corn 30 cents per bushel; potatoes; 40 cents; hams 85 cents per bushel.

The ladies of the Disciples church of Trenton will have tableaux, accompanied with recitations and supper, on Thursday during Christmas week for the benefit of their church at Trenton. As it will take place during the holidays a nice time is anticipated. It is to be held at the Court House.

Died at her home in Beaver Creek township, on Sunday last, Mrs. Jesse Goresier-Walker.

"Gaze Town, Monday, December 11—Gatsacre reports as follows:

"The idea to attack Stormberg seemed to promise certain success, but the distance was underestimated by myself and the local guides. A policeman took us round some miles, and consequently we were marching from 9:30 p. m. until 4 a. m., and were landed in an impossible position. I do not consider the error functional. The Boers commenced firing from the top of an insurmountable hill, and wounded a good many of our men while in the open plain. The Second Northumbrian tried to turn out the enemy, but failed. The Second Irish Fusiliers seized a kopje near and held on, supported by the mounted infantry and Cape Police. The guns under Jeffrey's could not have been better handled, but I regret to say that one gun was overturned in a deep ditch and another sank in quicksand. Neither could be extricated in the time available.

"Seeing the situation I sent a dispatch rider to Maitland with the news. I collected and withdrew our forces from ridge to ridge for about nine miles. The Boer guns were remarkably well served. They carried accurately 4,000 yards. I am holding Bushman's Hook and Oysterberg. Am sending the Irish Rifles and Northumberlands to Sterkstroom to re-organize. The wounded proceed to Queenstown. The missing Northumberlands number 395, not 300, as previously reported.
