a small quantity of honey. He found that approximately 125 heads of red clover yield 15 grains of sugar, or 125,

When the campaign of 1800 was at its height, an ardent Republican in Boston in whose store a cost mark was in use that had been invented by his grandfather marked all his goods over in order to use the mark, "Abe must win," and this mark renained in use for years after "Abe" had wen the fight against Douglas, Breckinridge and Beli, who were all candidates against Lincoin. About that time the cost mark "Hit Douglas" was invented, and that and "Republican" are still in use in places where plain figures have not superseded the puzzle marks.

A large dry goods house which had the patronage of hundreds of pack, basket and wagon peddlers used as a cost mark the words, "Revoch Gilt," a Yiddish phrase, which means "Profit tells," and the translation was also used by the same concern.

"These marks were useful," said the manager of one of the large New York dry goods stores, "when houses had an 'asking' and a 'taking' price. In those days the man behind the counter had to know what the goods cost to put on the shelf so that he could regulate himself accordingly. An offer to 'split the differ-ence' when one price was asked an an-other offered could be entertained them. other offered could be entertained then, and salesmen were often compelled to 'shade' prices. 'We will do this for you,' and 'It's the last we have of the lot.' or 'We want to make a customer of you' were among the reasons given for 'coming down' on prices, but all the time the salesman had the cost mark before him and knew that he was on the safe side."—New York Tribune. -New York Tribune.

The Old Apothecary Art. In the old days the Magi ordained that "the Pyrethrum parthenium the fover-few) should be gathered with the left hand," says The Humanitarian, "that the fevered patient's name must be spoken forth, and that the herbalist must not look behind him."

Later we hear that "gost was treated with henbanes only when the moon was in Aquarius or Pisces—I, e., three times a year, before sunset. It must be dug up with the thumb and third finger of the left hand, when one must say: I declare, I declare, hely wort to thee! I invite thee tomorrow to the house of Fileas to stop the rheum of the feet of M. or N. and say. I invite thee, the great name, Jehovah, Sabnoth the God, who steadled the earth and stail the sea, the filler of flowing rivers, who dried up Lot's wife and made her a pillar of saft, take the breath of thy mother earth and her power and dry the rheum of the feet and hands of M. or N."

Henry VIII, who studied medicine and took great interest in inventing new mistures and remedies, devised many quaint "cramp" rings to be worn for the cure of rheumatism and curious liniments and cataplasms, for the full benefit of which a large amount of faith was necessary. Later we hear that "gout was treated

The same writer in two places sets forth a very marked distinction between the dwellings in the champaign and the woodland parts of the country. "The houses in the first lie uniformile builded in careful towns tentiles with streets and in everie towne togither with streets and lanes, whereas in the woodland countries (except here and there in great market townes) they stand scattered abroad, each one dwelling in the midst of his owns occupieng."—Architect.

NO CITY OF REFUGE.

The Way With a Warrant Goo "A very interesting fact of modern life that seems to have escaped attention," remarked a New Orleans lawyer the othlast city of i, fage off the map. There is no longer any spot on the globe where our fugitives from justice are safe from extradition. When I first began to practice law, an American criminal of retir-ing disposition had a wide range of choice in the matter of foreign residence. Spain,

Turkey, Algiers, Japan, Holland, Chile, Equador, the Philippines, Cuba and all of Central America except British Hon-duras guaranteed security to assorted brands of fugitives, from murderers down, and the list of resorts open to sim-ple embessions was very much larger. "For years, you remember, every runn-way bank cashier made a bee line for Canada, and the thing got to be a standing joke, like the mother-in-law gag and the merry quips about plumbers. Nevertheless, the circle kept stendily contrac ing, and one by one the different countries entered into mutual treaties and put

tries entered into mutual treatics and put up the bars, so the American crook who wanted a change of air began to find himself in the position of Dick Swiveller when he checked off the Loudon streets he couldn't traverse without meeting creditors. It was mighty hard work to figure out a safe itinerary. Canada hung tensciously to the tourist trade, but at last she passed a law Zaninst bringing atolen property into the Dominion that practically excluded the litting banker. "Japan was one of the last of the diatart powers to adopt a treaty covering what are called 'crimes against property," what are called 'crimes against property, to felonious gentlemen in delicate health. It robbed them of the balmy climate of Vokobama. Eventually things simmered

down to Central America and then by process of elimination to Spanish Hon-duras. That was the final stronghold of the tugitive, but in 1808 the congress of that nation approved a new treaty clause containing the usual extradition provi-

Ten and Rheumatism.

Dr. Kellogg says the habitual use of tea as a means of relieving headache is without doubt an efficient cance of rheumatism in numerous ways. A writer in The Family Doctor says he has met many persons who could not foreign the morning cup of tes or collec without auffering severaly from headache and depression during the day. The theine or caffeins of the tes has precisely the same effect as are seld and hence has come to be a favorite domestic remedy for headache. When used habitually, however, as will readily appear, the effect must be 10 cause a storing og in the body of uric seld and urutes, thus laying the Toundation for chronic rheumatism and the vertous ailled conditions which have their foundation in the so called uric acid distribusion of lithumin.
