Twenty Tons of Fish Shipped.

Yesterday was a day of large fish shipments, these shipments being probably the largest of any single day's record in this market.

The receipts of fish, crokers, shad, herring and other kinds, were large the previous day and night, and the demand was good, so that the fish dealers bought all the arrivals.

The shipments went out by express over the A. & N. C. railroad amounted to twenty tons of fish.

Death of Mrs. Thomas Gates.

Nov. 17, 1897—March 23, 1900.

Such were the dates bounding the earthly existence of a woman loved and revered throughout this entire community. While it extends beyond the Biblical threescore and ten, her relatives and friends were hoping that she would remain yet several years to inspire them with her counsel and godly walk. Alas, the Messenger came almost suddenly; only three days of the final suffering from pneumonia, and on yesterday morning, as the night shadows fled away, her spirit took its flight into a brighter day than earth ever enjoys.

For Mrs. Gates was a devoted Christian, all who knew her for even a short time were impressed with her deep piety. She was baptized into the fellowship of the New Bern Baptist church on June 19th, 1841. And for all of these fifty-six years she has remained true to her profession, loyal to her church, and faithful in the discharge of every duty. She was the special friend and helper of the poor. It is remembered that upon the death of her lamented son, Mr. B. M. Gates, she for several years kept up his monthly payments to the Benevolent Society of this city. She was one of the charter members of the Woman's Missionary Society in her church and to the day of her death a most zealous promoter of its work. Her pastor always found in her an earnest adviser and a ready helper in every good work. Truly, she was a mother in Israel and will be sadly missed from her place in the church, the home, and the community.

Her husband, to whom she ministered for 40 years with unswerving fidelity, but one of her five children, Mrs. Willis, her grand-children and other relatives, and a host of friends are left weeping by the shore of the river over which she has crossed. But these loss is her gain. She lived among us only to die, and now she has died only and forever to live. "Blessed are the dead which die in the Lord."
HER FAITHFUL.

Rev. W. E. Blyzer, W. Gaston, N. Y. writes: "I had dyspepsia over twenty years, and tried doctors and medicines without benefit. I was persuaded to use Kodel Dyspepsia Cure and it helped me from the start. I believe it to be a panacea for all forms of indigestion." It digests what you eat. P. B. Duffy.

SIMMONS SPEAKS.

Mastery Address of the State Chairman To a Large Audience at Court House Last Night.

Upon invitation of the 2nd Ward White Supremacy Club, Chairman F. M. Simmons last night delivered an address at the Court House. There was a large audience and a number of ladies graced the occasion by their presence. Before the address "Carrollina" was started and the crowd joined in the song.

The Club President, Mr. D. L. Ward introduced the speaker and drew applause by references to C. B. Aycock as the next Governor and to F. M. Simmons as the next elected Senator from North Carolina.

Mr. Simmons spoke for two hours. It was his first speech in this campaign. He proved that he is a master of the questions involved in this State and the address was on a high plane, the sentiments were elevated and his logic was sound. He thanked the people of Craven county and New Bern for their ever-kind reception and smilingly said that "the prediction of Mr. Ward had his hearty approval and he hoped it will be realized."

Very brief attention was paid first to national politics. He was a Democrat not from prejudice, but because he free soil, "if you will have it," at the ratio of 10 to 1 without waiting for the consent of anybody. He was opposed to imperialism, to Militarism in governing distant colonies, to trusts and "because the heart of William Jennings Bryan beats in unison with the hearts of the people of this country." All this was quite orthodox.

When Mr. Simmons struck State issues he was in his especial element. He told why he was a State Democrat. Chiefly at this time because he was for White government. Because only two issues were involved, good or bad government, white or negro government. He then defined the attitude of the western Republicans, that they had no negroes in office in the west and if they understood the situation in the east they would not vote the Republican ticket. There was not a negro postmaster west of Raleigh, but Collector Duncan kept two negroes, Jim Young and "Prof." Shepard in his office on social equality with others in his place.

Mr. Simmons then spoke of the future of political parties in the State and took high ground, speaking almost word for word as Senator Osborne, Mecklenburg's great man, spoke in the Legislature, that he was for the Amendment because it would "enfranchise the white man" when the Amendment was passed white men would divide on issues, would vote their honest opinions, the enslavement of having to vote alike would be at an end. Next the distinction between the ignorant negro and the unlettered white man was clearly and happily defined.

The conclusion of the speech was the Amendment, was it just, was it Constitutional, will any White Man be disfranchised under any conditions what so ever. In answering these three questions incidentally a fine sketch of the negro race in America was given and the speaker asserted that the Anglo Saxon race had done more to help the negro than all the other races combined, illustrating by the brutal treatment of natives in South Africa by the Boers and the contrast in their treatment by our "English cousins," yet telling how they would not suffer them to have the franchise, as illustrated in Jamaica when they gave up self government and became a Crown Colony rather than submit to such a thing.

In conclusion, Mr. Simmons challenged the enemy to make a test case of the constitutionality of the proposed amendment by going to the courts of Louisiana where a similar law was in force. A better presentation of the whole issue of White Supremacy could not have been given.

The meeting adjourned until such time as Hon. C. B. Aycock could be able to deliver an address.

Resolution from Business Men and Merchants on President Bryan of Atlantic & North Carolina R. R.

That the business men and merchants favor the improved facilities of extra passenger and freight service on the Atlantic and North Carolina road, is shown by the following endorsement of the management of the road and President Bryan.

"We, the undersigned business men of New Bern and vicinity desire to testify our appreciation of the great and untiring efforts of President James A. Bryan to improve and build up the Atlantic and North Carolina Rail Road, and thereby greatly add to the material and commercial prosperity of New Bern, Craven county, and the territory through which the road passes.

We regard the double daily mail and passenger service great benefit to us, and heartily and sincerely thank President Bryan for his efforts in our behalf.

We believe if he is permitted to carry out the improvements he has in contemplation in a short time the stock of the road will increase in value, and the territory through which it passes will feel the increased advantages in all the series of commerce and travel."

VOICE OF THE PEOPLE.

Peace and Harmony.

Editor JOURNAL.—I endorse the resolutions passed by the Chamber of Commerce in regard to the financial management of the Atlantic and North Carolina Railroad.

I endorse the resolutions passed by the "Rough Riders" condemning the political management of the Atlantic and North Carolina Railroad.

This is not a distinction without a difference.

There is no reason why approval of the railroad management carries with it the approval of the establishment of a grinding political machine in Craven county and the control of the Democrat party of Craven county by the Atlantic and North Carolina Railroad.

The most momentous Convention of years meets today at noon. If peace and harmony is sought for it must not be obtained by the cramming down the throats of the Convention a set of resolutions endorsing the political management of the railroad by President James A. Bryan and the fact that pledges of the last campaign have not been lived up to by the retaining in office of persons not Democrats and the filling by negroes of positions sought for by white men who have families to support.

If this is wrong, somebody will hear something drop.

SGROFULA AND ITS AWFUL HORRORS

Johnston's Sarsaparilla
CURED BY
A MOST WONDERFUL CURE.

A Grand Old Lady Gives Her Experience.

Mrs. Thankful Orlin Hurd lives in the beautiful village of Brighton, Livingston Co., Mich. This venerable and highly respected lady was born in the year 1812, the year of the great war, in Hebron, Washington Co., New York. She came to Michigan in 1840, the year of "Tippecanoe and Tyler, too." All her faculties are excellently preserved, and possessing a very retentive memory, her mind is full of interesting reminiscences of her early life, of the early days of the State of Michigan and the interesting and remarkable people she has met, and the stirring events of which she was a witness. But nothing in her varied and manifold recollections are more marvelous and worthy of attention than are her experiences in the use of JOHNSTON'S SARSAPARILLA. Mrs. Hurd inherited a tendency and predisposition to scrofula, that terribly destructive blood taint which has cured and is curing the lives of thousands and marking thousands more as victims of the death angel. Transmitted from generation to generation, it is found in nearly every family in one form or another. It may make its appearance in dreadful running sores, in unsightly swellings in the neck or groin, or in eruptions of varied forms. Attacking the mucous membrane, it may be known as catarrh in the head, or developing in the lungs it may be, and often is, the prime cause of consumption.

Speaking of her case, Mrs. Hurd says: "I was troubled for many years with a bad skin disease. My arms and limbs would break out in a mass of sores, discharging yellow matter. My neck began to swell and became very unsightly in appearance. My body was covered with scrofulous eruptions. My eyes were also greatly inflamed and weakened, and they pained me very much. My blood was in a very bad condition and my head ached severely at frequent intervals, and I had no appetite. I had sores also in my ears. I was in a miserable condition. I had tried every remedy that had been recommended, and doctor after doctor had failed. One of the best physicians in the state told me I must die of scrofulous consumption, as internal abscesses were beginning to form. I at length was told of Dr. Johnston's, Detroit, and his famous Sarsaparilla. I tried a bottle, more as an experiment than anything else, as I had no faith in it, and greatly to my agreeable surprise, I began to grow better. You can be sure I kept on taking it. I took a great many bottles. But I steadily improved until I became entirely well. All the sores healed up, all the bad symptoms disappeared. I gained perfect health, and I have never been troubled with scrofula since. Of course an old lady of 88 years is not a young woman, but I have had remarkably good health since then, and I firmly believe that JOHNSTON'S SARSAPARILLA is the greatest blood purifier and the best medicine in the wide world, both for scrofula and as a spring medicine." This remarkably interesting old lady did not look to be more than sixty, and she repeated several times, "I believe my life was saved by JOHNSTON'S SARSAPARILLA."
