We invite your early inspection. Respectfully,

M. HAHN & CO.

AS TO CROPS.

First Bulletin of Season Issued by Weather Bureau.

Spring is Very Late. Fruit and Truck Backward. Planting Going On. Norton is Regular. Tyrrel Land Case. Pres. Alderman Undecided.

REMARKS, April 11.—The first State weather and crop bulletin of the year was issued by the United States weather Bureau yesterday. It is as follows: The beginning of the crop season of 1900 must be recorded as unfavorable, chiefly on account of the delay in farm work caused by continuous cold, wet disagreeable weather during February and March. Spring is unusually late and vegetation very backward; forest trees west of Raleigh hardly yet show signs of growth; the ground is cold and unfavorable for the germination of seeds. The lack of snow covering and alternate freezing and thawing during winter materially injured winter crops; on the other hand most of the wheat crop though small is thrifty and is progressing favorably. A relatively small crop of spring oats has been seeded. As the value of truck crops grown in the east depends on their early maturity, the backwardness of the season is especially unfortunate in that section; early cabbage, peas and lettuce are not as good as last year; beans, peas and onions are up; Irish potatoes are late. Strawberries also, though coming into bloom rapidly now, are a week or ten days behind the average. The budding of fruit trees has been greatly retarded by the late advent of spring, and so far the prospects of fruit must be considered exceptionally good. The reports of crop correspondents for the week ending last night indicated a continuation of unfavorable conditions for growth to and including Thursday, 6th. Light rains occurred on several days early in the week averaging however less than half an inch for the State, and were followed by frosts. The cold weather culminated in a freeze on the morning of the 5th, which on account of the unusual dryness of the air and the prevailing high winds, did comparatively little damage, though truck crops were slightly injured and some peaches were killed. On the whole the week was favorable for farm work which though very much behind, is now actively under way nearly everywhere except in the extreme west. The ground has dried out and is in excellent condition for working. Much corn has been planted in the south and east portions of the State. The large amounts of fertilizers purchased in an unflagging indication of a large acreage to be devoted to cotton. Tobacco plants are small but growing nicely, and are reported plentiful. Gardens are quite late, generally almost untouched; only a few of the usual vegetables are up, except in the east and south, where peas, onions, radishes, etc., have made some growth. Irish potatoes are very late. The warm weather of the 9th to 11th brought late fall bloom many peach, pear, plum and cherry trees throughout the State. With a continuation of favorable weather the progress of growth and the activity of the farmer will soon bring the season up to an average one. The Democratic State committee and central committee met to consider the contest between George J. Norton and Iredell Meares regarding the senatorial nomination from New Hanover and Brunswick. Both gentlemen spoke and each presented his side of the question. The meeting of the committee was specially called to dispose of this contest. At 12:55 the committee decided in Norton's favor by a vote of 16 to 8. So Norton is the regular nominee for Senator.

Judge Farnell decided negatively in the case involving the ownership of 90,000 acres of land in Tyrrel county, also the case against Henry Greenleaf and Mark Mahette, of Elizabeth City, for contempt. Next time there will be an auditorium. The money is raised. It appears that the location will be between the capitol and the union passenger station. "White supremacy" badges made their appearance on coats, quite numerous. There is quite a lively war on between the morning papers here. The Freshly-baked church here will this week be turned over to the building committee. All the window glass windows are not yet in place. There is much grip here, persons who came from many sections of the State, particularly the west, say it is quite widely prevalent. The State charter the Ochsgericht Oct 20th at Raleigh, to both split and share, capital \$100,000, with an increase to \$200,000 authorized. It is thought that the law by the

cont fire at the power-house of the Agricultural and Mechanical College is \$800. As yet no repairs have been made. President Alderman, of the State University, arrived. He says he will go to New Orleans next week, and then decide whether he will accept or reject the call to Tulane University.

Judge Blount makes an order that Standing Master James E. Shepherd take the evidence in the tax assessment cases without submitting to the court comment or conclusions. The original order imposed too much responsibility upon the standing master.

SOUTH AFRICA.

No Report From Roberts. Making Holes Out. Boers at St. Helena.

London, April 10.—The London session of tonight's war news is contained in the dispatches from Boer sources to the effect that a third serious defeat has been inflicted upon the British forces in the Free State.

The London War Office has not made public any dispatches indicating that such engagement took place, nor have any of the press telegrams received from correspondents with the British, many of which bear a later date than Saturday contained a hint of this disaster. But the British censorship is extremely active at present and could easily prevent such news from reaching England until after Lord Roberts reports on it.

The Bloemfontein correspondent of the Morning Post says:

"The water supply continues satisfactory. Intrenching is proceeding vigorously on the side commanding Bloemfontein. Civilian labor is to be utilized. Sickness among the troops is somewhat diminishing."

Remounts are continually arriving, but competent authorities estimate that the wastage of horses monthly by the British forces in South Africa must be calculated at not fewer than 5,000.

Colonel Baden-Powell wires from Mafeking under date of March 27 saying that the Boers had then been pushed back so far that the town was comparatively out of range of musketry.

ISLAND OF ST. HELENA, April 10.—The Niobe and the Milwaukee have arrived here with the Boer prisoners.

The Governor has been notified of the desire of the authorities that the prisoners be treated with every courtesy and consideration.

W. H. Shipman, Beardley, Miss., under oath, says he suffered from dyspepsia for twenty-five years. Doctors and dieting gave but little relief. Finally he used Kodol Dyspepsia Cure and now eats what he likes and as much as he wants, and he feels like a new man. It digests what you eat. F. S. Duffy.

PORTO RICO BILL.

Finally Passed by the House. With Senate Amendments. Hawaii Cable.

Special to Journal. WASHINGTON, April 11.—The House this afternoon passed the Porto Rico bill with the Senate amendments. The bill passed by a majority of 8 votes, the vote being 161 to 153. Seven Republicans voted for free trade with the island. The Louisiana Democrats did not vote on the bill. The Senate today passed the bill carrying a three million dollar appropriation for a cable to the Hawaiian Islands.

New Convention Hall.

KANSAS CITY, April 10.—A \$50,000 bond was today given by the Gillette-Herzog Manufacturing Company, of Minneapolis, to insure the erection of the new convention hall in time for occupancy by the Democratic National Convention in July.

Against Senator Clark.

WASHINGTON, April 10.—The Senate committee on privileges and elections today decided by a unanimous vote to recommend the adoption of a resolution declaring that Hon. W. A. Clark, of Montana, is not entitled to occupy his seat as a Senator from Montana.

"I think DeWitt's Little Early Risers are the best pills in the world," says W. B. Lake, Happy Creek, Va. They remove all obstructions of the liver and bowels, act quickly and never gripe. F. S. Duffy.

New Shoes.

I have just opened a beautiful line of men's fine shoes in C. D. and E. last in all styles and colors. Don't fail to see them before buying. Respectfully, J. J. BAXTER.
