ROBERTS MOVING.

Some Fighting is Reported. Butler Can Now Advance.

LONDON, April 20.—Two important statements, pointing strongly to a probability that Lord Roberts' advance toward Pretoria has already begun, come from the field of war in South Africa.

According to a dispatch from Lady Smith, it is authoritatively reported there that the Boers are retiring from the Diggaberg mountain range with their heavy ordnance. Probably they have heard of Roberts' advance and are anxious to make sure of their line of retreat or they may intend to take up a more easily defended position, allowing part of their force to be transferred to the army in the Free State.

The other fact, tending to the same conclusion, is that cables from the Orange Free State are couched with particular severity, not a word being allowed to reach the press respecting the movements of troops in the main body of Roberts' army.

Fighting is reported at Karoo Biding, 13 miles north of Bloemfontein. The fighting there does not appear to have been serious, and was probably little more than outpost skirmishing. There seems to be at least one British division near Karoo, which is the most northerly point occupied by Roberts' forces so far as is known here.

LONDON, April 20.—The latest advice as to military movements in the Orange Free State shows that General Chamberlain and Bullard are moving over the sodden roads.

Rain was still falling when they went into camp Thursday afternoon 18 miles west of De Wet's Durg. They hold the railway and the southern frontier of the Free State with 30,000 men.

How many are going with the general, who will engage the Boers at Wepener, as mentioned in the dispatches from Oostergoort, where the British bivouacked Wednesday night. The field telegraph says there.

LONDON, April 20.—The Government's reason for making public Lord Roberts' Spion Kop dispatches was explained this evening at Hall by Walter Home Long, president of the Board of Agriculture, who said the country was entitled to receive the information the Government could give.

"The Government is told," continued Mr. Long, "that having published the dispatches it is bound to deal immediately with the general's affected. But in following such a course, the Government might have to dismiss every general at the moment he made a mistake. Had such a policy been pursued in the past many glorious deeds would not have been performed."

"The Government used its discretion in publishing the dispatches. From the beginning of the campaign Her Majesty's ministers have not swayed from the role of leaving the conduct of the operations to the discretion and judgment of the commander-in-chief."

J. J. Carson, Prothonotary, Washington, Pa., says: "I have found Kodol Dyspepsia Cure an excellent remedy in case of stomach trouble, and have derived great benefit from its use." It digests what you eat and can not fail to cure. F. S. Duffy.

Stand by the Colors.

RALEIGH, N. C., April 20th.

To the Democrats of North Carolina:—

We are engaged in a campaign of education. We want every white man in North Carolina to understand the amendment. We want no white man in North Carolina to be misled by the miserable falsehoods and misrepresentations that our enemies are circulating with reference to this measure. It is certain if the white people of the State do understand the amendment, its effect upon the State and the individual citizen, that they will give it such a majority as no measure submitted to the people has ever before received in the history of the State, and will give the ticket representing this measure the most decisive majority of recent years.

To print and distribute literature and to circulate papers and to defray other necessary expenses of such a campaign as we are now engaged in is expensive and requires ready money. Your Committee is practically without funds. Indeed, for the last three weeks it has been borrowing money to meet current expenses.

The Committee takes this method of appealing to our Democrats and all the friends of good government and White Democracy in the State for contributions to pay the legitimate and necessary expenses of the campaign. We feel sure this appeal will not be in vain.

Contributions can be sent directly to the Chairman of the Committee at Raleigh and will be duly acknowledged.

Yours truly,
F. M. HEMMELL,
Chairman.

W. E. Stephens, Secretary, Minister with, may be suffered from symptoms for twenty-five years. Doctors said nothing was to be done. He finally tried Dr. Williams' Pink Pills for Pale People, and he has now recovered his strength and has no more pain. He writes: "I am now what I was once, a strong, healthy man, and I am sure that every man suffering from any of the symptoms mentioned in the book should try Dr. Williams' Pink Pills for Pale People."

Politicians Still Discussing the Chances of Fusion.

Skinner Will Appear Again. Populists Concede the Amendment. Convict Ke-Captured. Standard Oil Buys Some Property.

RALEIGH, April 21.—Dr. O. Thompson says about the county fusion matter of his party and the Republicans that he did not know what the Republicans would do; that he knew that under certain conditions the Republicans would be glad to fuse, but he declined to say what those conditions were. Dr. Thompson said the action of the Populist State convention was not binding as to counties, but that was left a matter for individual action. He knew of no arrangement for county fusion. He declared that he knew of nothing which led him to believe that there would be any endorsement of the Populist State ticket on the part of the Republicans and that he presumed there would be three tickets in the field.

Never did the Populist machine so unmake itself as it did Wednesday. Butler made a complete exhibit of himself, and was like one of those articulated figures, those marionettes, which one can take to pieces, dissect, so to speak, and put together again at will.

Republicans whose word is beyond question tell me that Populists during Wednesday's State convention said to them: "We expect Republicans to vote our ticket and we will pay them back." The Republicans say they knew well the meaning of these words to be that the Populist would vote for McKinley. They say further that they have known all the while that many of the Populists intended to vote for McKinley.

Butler "downed" Skinner in the convention, but Skinner refused to stay down. He will hold up again at the National convention at Sioux Falls, May 16th. He says he will ask that body to instruct Butler to take down the Populist electors in North Carolina. Skinner awaits Butler's move for McKinley. It will be interesting to hear Bryan's opinion of Butler. The declaration of Editor Saksamon of Charlotte, that the majority of the Populists are anti-Bryan, is interesting.

The Populists know very well they can't defeat the Amendment. They know they can't do anything in the east. They will work in the west and in the Piedmont sections, with the Republicans, to carry the Legislature, or to get as near a majority as they can. They will be ready for any and all deals. They want a Senator; that is, an anti-Democratic Senator.

Official notice was received that the monument to the North Carolina dead at Winchester would be unveiled there on June 8th.

Judge Farnell says the Federal Court terms have been held at Elizabeth City on the 20th Monday in April and October regularly since 1899.

The first train from Jacksonville on the Seaboard Air Line has passed here.

The negro convict, Pat Singleton, who after four years of freedom, was captured this week in the navy yard at Norfolk, was brought to the penitentiary to complete a 30-year sentence. He was originally sent up for manslaughter, and just before his term ended murdered a fellow convict. He was for this sentenced to 20 years, and has served 10 of them. It cost \$119 to recapture him. He is one of the most desperate of all the convicts.

The State charter the Tarboro Knitting Mills, capital \$20,000 (with leave to increase it to \$100,000) near Tarboro. The mills will make hosiery, underwear, etc.

The recent rumor that the Standard Oil Company was trying to secure a controlling interest in the Union Copper Mine was not altogether an idle one, for now they own all the shares of stock except 10,000. The mine means that the Standard Oil Company will have the controlling interest in the mine in the future. Those who know most about the transaction state that the Standard Oil Company was enormous. Mr. Rowman still owns the Gold Hill Mine and will continue in the county looking after the working of the Union Mine.

The trustees of the Baptist Female University here meet this evening. The posture for universal is so great that more, auxiliary room must be provided. Yesterday was the date fixed for the high-scholarship games at Oxford. The weather presented any outdoor sports.

NO DEALING WITH THEM.

Chairman Simmons Refuses Joint Debate. Fake Pretenses of Butler.

Special to Journal.
Raleigh, April 21.—Replying to Butler's request for candidates to divide time Simmons says,
"That Populist Convention said amendment would not be made a party question, but must be settled by judgment and conscience of the voter. You ask for joint debate upon amendment; that is a disingenuous purpose to commit you in party to position which it refused to take in Convention. This shows secret understanding with Republican party. It is known that there is perfect understanding between the two parties and nomination of State ticket and request for joint debates as to direct and divide attention of whites, while Republicans fasten negro rule on the State and under these circumstances it is impossible for Democrats to consider proposition of Populists."
