Ralmon, April 35.—It is really laughable to hear the Ropublicans talking about Chairman Simmons' really soft able to play to Chairman Butler. One can well finagive what the Republicans would say. The United States district atterney, for example, says Chairman Simmons was afraid to meet Senstor Buller on the stump. Collector Dancan says he considers that it was a back-dowd. Resiso considers that the Populista "threw themselves against the amendment." The collector is a great discerner these days. On each of his frequent trips to the east he discovers a freeb lot of Democrats who intend to vote against the amendment. He is nearly as great discerner as Major Hiram L. Grant, who tells the Republicans here that Wayne county will give 1 000 majority against the amendment.

People, who have read the reply of Mr Simmons with care unite in saying that it was a well deserved answer to a question which the flimainess of the disguise which the Populist leaders are trying 40 mask themselves with.
