## RALEIGH.

### Vance Statue Being Cast and Will Be Ready.

The Bankers' Meeting. The Vance County Republican Convention. Guthrie Says Nothing. New Project For Durham.

RALEIGH, May 1.—Joseph G. Brown, of the committee on the Vance statue, was in New York last week at the meeting of the American Bankers' Association and while there saw the president of the Gorham Manufacturing Company, which has its factories at Providence. The president said the Vance statue was in hand for casting and would certainly be ready by June 30th. The committee will get to work now on the plans for the grand ceremonies of July 4th, the date of the unveiling. A great deal has to be done to organize so great an affair.

The North Carolina Bankers' Association meets at Greensboro June 19th. All the trading banks are now members, and it is expected that every bank will be in the association by the date of the convention.

The advance guard of the delegates to the Republican State Convention began to arrive yesterday. They will tap the Republican "barrel" at a quite lively rate. The leaders are giving it out that there is no slate; that their party never has one. This makes the initiated laugh. Isaac A. Meekins, of the first district, is on hand. He is to be his party's nominee from that district.

The Republican convention of Vance county was held at Henderson Saturday. All of its officers were negroes. Every delegate save one was a negro. The one who was not a negro was Sheriff Smith. The sheriff was elected an alternate to the State convention. The convention elected a delegation half of whites and the other half of blacks. The sheriff was, by the way, at the Populist State convention here recently.

The State charter the Northrop Lumber Company, of Wilmington, capital \$20,000. It will operate saw, planing and shingle mills.

The Supreme Court, Associate Justice Douglas says, will be in session until June 1st.

W. A. Guthrie, Charles Price and Robert W. Winston have arrived. Major Guthrie came to read Judge Simonton's opinion in the Blackwell Tobacco Company case. He said he had nothing to say for publication concerning the matter.

The very pleasant and profitable session of the State Convention of Christian Endeavorers came to an end Sunday. In the morning about 300 members of the order went to the penitentiary and held special prayer exercises for the convicts. Music was furnished by the cadet band of the Agricultural and Mechanical College. The convicts greatly enjoyed the affair.

Judge Purnell left yesterday for Richmond to be on the bench at the term of the United States Circuit Court of Appeals.

The New York Herald has for the past three Sundays had a new special department devoted to "Society in Dixie" with photo-engravings of many beautiful girls and young married women.

A syndicate of capitalists have surveyors estimating the water-power of Koo river at the site of the old Shields Mill, seven miles west of Durham with the purpose of bying the property, establishing a cotton mill and an electric plant to run a line of cars from East to West Durham. A former survey placed the capacity there at 264 horse power.

### Cuba is Peaceful.

HAVANA, April 30.—The Spanish Consul General, Senor Sagrarjo, denies having cabled to Spain that there were uprisings in Cuba. He says he does not believe such occurrences probable and that he could not have communicated an idea so absurd to his Government. "No agitation exists," he remarked today, "and I do not believe that any will exist. So far as I can judge the relations between the Cubans and the Americans are most cordial."

### BASE-BALL AT RALEIGH.

Trinity College Defeats Wake Forest by Good Batting.

Special to Journal. Raleigh, May 1.—As predicted, Trinity defeated Wake Forest in the base-ball game here today, the score was Trinity 6, Wake Forest 4. Hits, Trinity 11, Wake Forest 4. Errors, Trinity 3, Wake Forest 2. Batteries, Dannenhower and Legend for Trinity; Moore, Holtgood and Royter for Wake Forest.

Trinity excelled in batting and made 6 runs off Moore's delivery in the 7th inning. But in that inning Wake Forest made a triple play, one of the first ever seen here. This play was by Freeman, Sames and Weaver.

"After suffering from piles for fifteen years I was cured by using two boxes of De Witt's Witch Hazel Salve," writes W. J. Baxter, North Brook, N. C. It heals everything. Beware of counterfeits. F. S. Duffy.

### Weekly Crop Bulletin

RALEIGH, May 1.—The Weekly Crop Bulletin for week ending Monday, April 30, 1900 is as follows:

"In the eastern portion of North Carolina the weather during the week ending Monday, April 30, 1900, was undoubtedly the most favorable experienced so far this season. A light rain occurred on Tuesday followed by six days of fair weather, during which the ground dried out nicely and farm work proceeded uninterruptedly. In a large number of central and western counties, however, rains continued during the 24th, 25th and 26th which, while not heavy, kept the soil from drying until Saturday throwing farm work further behind than in any other section. The temperature during the week was a few degrees above the normal, but the nights were rather cool. The fair, sunny weather of the last few days greatly encouraged farmers everywhere and work has been resumed with vigor. Vegetation made rapid growth; forests even in the extreme west are becoming green.

A great deal of corn was planted this week in the east, where the work is approaching completion except on low lands; in the west planting corn is still greatly behind, but is proceeding on uplands. Corn is generally coming up to good stands and has been plowed for the first time in a few southern counties. Planting cotton is nearly ten days later than the average, but is now progressing rapidly; early planted cotton has come up nicely, and chopping to stands will begin next week in counties along the southern border. Tobacco plants continue to grow nicely; transplanting has made good progress in eastern counties. Some farmers have finished sowing live. Planting peanuts has commenced. Gardens are doing well in the west, especially in lettuce, onions, and radishes are up. Truck crops are improving, peas are in bloom. Irish potatoes are in and sweet potatoes are sprouting. Potatoes have been sown. It is feared the pea leaves will injure the pea crop. Spring oats, clover, and grass have made good growth. Peach trees are full of fruit, apples and cherries promise well, but peaches and plums are falling in consequence of injury by blight. Small amount of strawberries now beginning to ripen.

The cotton and wool markets are quiet, with a few scattered sales. The wool market is somewhat better than the cotton market, but the price is still low. The market is expected to remain quiet for some time.

## SOUTH AFRICA.

### Boers Retire to Mountain Ridges. Making Relief Movement.

LONDON, April 30.—Continuous fighting, though not of a very severe character, has been in progress in the neighborhood of Taba Nchu during the last few days. The Boers have been steadily thrust back on the eastern side of the town by a strong force of mounted troops, under command of General French, but, as was to be expected, they are preparing to offer a stout resistance to the further advance of the British in the direction of Ladybrand. Consequently they have only fallen back to take up a strong position on one of the endless mountain ridges barring the British path.

LONDON, April 30.—The Daily Express has received the following dispatch from South Africa. Cape Town, April 30.—I have it on the highest authority that Sir Archibald Hunter has been sent to Kimberley to command a strong column intended for the relief of Mafeking. Barton's Brigade, which is part of Hunter's Tenth Division, also has been directed to participate. The operation will probably be seconded by General Methuen, but the chief movements will be controlled by General Hunter.

"I had stomach trouble twenty years and gave up hope of being cured till I began to use Kodol Dyspepsia Cure. It has done me so much good I call it the saviour of my life," writes W. R. Wilkinson, Albany, Tenn. It digests what you eat. F. S. Duffy.
