A well known white Republican says that the white Republicans are trying to get rid of the negroes, but that orders have come from Washington that the negroes must be given a full share of the negroes must be given a full share of the leaves and fishes. He says further that ber of the executive committee. his party is making a fatal error in arraying itself against the constitutional amendment. There seems to be wide differences and sharp feeling between things may be merely simulated.

It is now fully confessed that the keep the negroes in the background. James E. Boyd is bere from Washing ton. He is far from strong and his friends are uneasy about him.

The matter of the Presbyterian departare from old landmarks is brought to mind here in quite a curious way. Many years ago a lady here left in her will the Presbyterian manse, upon the condition that if the Church ever abandoned its present Confession of Faith the propery should revert to the family. WHAT FOR?

Reference has been made to com-plaints of lack of telegraphic and freight service at aundry stations on the Western North Carolina Rallroad. These complaints were, strange to say, sent to the Gevernor, who turned them over to the corporation commission. The rail-road in reply to the complaints says quite plainly that the people at some of

the points have been aiding the strikers and interfering with the new operators. It is said by a gentleman from the west

that at Sylva citizens made a demon-stration against the new operator and forced him to leave. The ratiroad says that since April 14th its offices have been open. The other side contends that April 25th no telegrams could be sent between Murphy and Asheville, save from one point, and that Murphy tslegrams had to be sent via the Marletta & North Georgia Rallroad. The whole matter will go before the corporation

Nothing more can be ascertained with egard to the rumor of some sort of a ment of the railroad tax assess
