The Disaster At Cumnock Mines In Chatham County.

Twenty-Five Others Escape. Carr to Speak At Chapel Hill. The Case of Commissioner White And Court De

ecial to Journal.

RALEIGH, May 28-News of the exosion at the Cumnock coal mine, about 50 miles from here came about midnight last night, but not until 8 o'clock this morning did the accurate news arrive. It was taken by courier to Sanford. At first it was said 50 men had been killed.

It turns out that mine boss Connolly, who was from Pittsburg, Pa, and 21 miners were killed. There were 27 in the east level and of these only 5 were saved. Those in other parts of the mine, some 25 in number were uninjured. The output of the mine has recently been about 100 tons a day, the Seaboard Air Line taking most of this. This is the fourth explosion. There was one in the early 30's and another about 1859. The third was in December, 1895, when 43 men were killed. The latter explosion was due primarily to dynamite, of which 200 ounds were stored in the 200 foot level This set off the gas. The explosion yeserday afternoon was due to the broken gauze on a safety lamp. The mine was SOUND SOUND SOUND SOUNDS not inspected by the State last year. The egis ature of 1897 enacted a law requiring such inspection but falled to make my provision for pay for the work.

(o). Julian S. Carr finds that he can ot deliver the address at the dedication of the monument to the memory of the Confoderate dead in the Cemetery a Winchester as he has to be at Chape Hill then at the dedication of the Carr Memorial building, which is his lates gift to the University. The date of the ledication of the monument is June 6 11 Col. Carr's request (apt. Claude B enson of Raleigh will deliver the acress. Several veterans from here will ecompany him to Winchester, among hem W. C. Strongeb, Superintendent of the Soldiers' Home.

The State today chartered the "Southera Golf' publishing company of Ashrville, capital \$5,000, B. S. Smith and others stockholders. It amended the charter of the Double Shoule Cotton mill in Cleveland county, so as to make its capital \$50,000, with power to increase it to \$200,000:

The Supreme Court has at last decided the apparently very knotty case of Theophilus White, the fusion oyster ommissioner. This case went over from the last term. It is the last of the State cases" invading tenure of office, &c, of which there were about a dozen. The court decides on party lines. The Republicans found for White. The Democratic legislature of 1899 sought to pla oust White and created a shed fish commission of 7 members at \$400 salary each. White was decided at the last term to be still in office. Then he wanted to be given \$3,800, that is the salary of all ? commissioners The auditor and treasurer refused to pay this. The court now says they must pa) him \$400 a year. There were no less than four opinions filed in the case. Justices Clark and Montgomery dissent and the former scores the court. The mathe legislature in point of authority, everything. Beware of counterfelts. F. State Treasurer Worth said today: "One S Duffy. judge says if you don't pay the salary to White the court will punish you for con-tempt, while another says if you do obe; the court the legislature will impeace you. The court, or rather its majority, it certainly at cross-purposes with the Demogratio legislature.

W. S. Musser, Milibelm, Pa, saved the life of his little girl by giving her One Minute Cough Cure when she was dying from croup. It is the only harm-iess remedy that gives immediate results. It quickly cures coughs, colds, brea-chitis, grippe, asthma and all threat and lung troubles. F. S. Duffy.

CENSUS QUERIES.

Their Importance to the Country. Questions Asked Are Necessary.

next census are now being distributed by the Census Office to the enumerators, ho will start to work on June 1. The schedules contain questions which some persons may think prying, purposeless, or excessive in number. But their number and character have been determined by Congress, not by the Consus Office, and all of them have been asked in previous censuses. The only important change since 1800 is that some questions have been abandoned.

People are often offended at the ques tion, "How old are you?" and are apt to wonder what use the Government can make of their replies. Taken as a whole the replies are as important as any class of information the Census Office collects. Age returns penetrate and elucidate bave decided to attempt to delay the every other branch of statistical knowlprevalent, and where the proportion of of caunon, including several 100-poundshort life of the negroes under present will fight to the last man. The Boers at conditions. They make it possible to the Rhenoster now number 7,000, comlife is increasing or decreasing, how Boths being ill. many men the nation contains who are capable of voting or of bearing arms, and whether the relative number of children is increasing or decreasing.

In Mohammedan or semi-civilized ten unwilling to answer the question regarding the sex of persons in the house but in civilized countries where the soxes are regarded as on an equality, a :ch unwillingness does not appear. The answers to the questions show that in nearly all cities the females outnumber the males and that the same is true of the States along the Atlantic coast, The elief is widespread that taking the orld in general there are more females dive at any given time than males, and that if it were not for immigration there would be more females in the United tates than males. But census statistics show that we can not explain the great excess of males (over one and a half million) in the United States by Immigra tion alone, for when the foreign-born are left out of account, there are still bove 600,000 more males than females.

Few would dispute the necessity for asking questions regarding race. All arguments regarding the future of any earticular race in this country, like the Indian, the negro, or the Chinaman, must hinge upon the returns in the cen-

Some mothers may shrink from stating the number of children they have had and the number who are living But from the answers to these questions, the country will learn whether the native American population is holding its own. or whether, as some have claimed, it is being gradually supplanted and dis-
