If the court will allow me the expense would rather have the trial here than trial anywhere else, as that would mean s vindication away from my home. We

The 5th district republican convention was held today to nominate a candidate for Congress and to elect the two last delegates to the national convention. Democratic State Chairman Simmon said today that he thought the outlook was improving, because the party is get-ting at work actively. In a few counties, where the democrats are not work ing, the conditions are not satisfactory. out this is largely the fault of those who ught to be at work, and not the fault of conditions. Wherever the Democration ire at work these results are obtained. It now rather appears that the Vance tatue will be unveiled July 12. By fune 3, it is assorted, a definite announce nent can be made. Troubles In China pecial to Journal,

LOSDON, May 29-The uprising of the Boxers in China is spreading. Russia will land twenty thousand work, troops from Port Arthur and is hurry-

ing forward a gunboat. WASHINGTON, May 28-While pre-pared to act concurrently with, though independently of, the European powers in the protection of the life and property of foreigners in China, AdioIral Kempff has not at present any intention of making a hostile demonstration in the Pel-Ho river. It is more probable that he is at Taku solely with the purpose of getting as near as possible to Minister Conger and the American legation at Pekin, and it may be that he is placing himself in readiness to rapidly dispatch a marine force from his ship to Pekin to guard the American legation just as is was protected two years ago when riot-ous conditions prevailed near the Chiness capital.
