NEARBY AFFAIRS.

Matters of local interest in the City and Country.

The report of burning fire crackers last night, gave token that the Glorious Fourth had arrived.

The JOURNAL will post the bulletins received from Kansas City convention as they come today. It is hardly to be expected that any will come before 8 p. m.

The dinner at Stanly Hall given by the Daughters of the Confederacy to the New Bern Camp of Confederate Veterans, is the chief patriotic celebration here today.

Owing to this being a national holiday, the usual hours for such days will be observed at the postoffice. Only the early mail will be collected from the city mail boxes.

Fusion in Jones County.

At their meeting last Saturday, the Republicans and Populists in Jones county decided upon a fusion in the present campaign.

Next Week's Tournament.

There is plenty of work and enthusiasm among the real teams here, preparation to next week's firemen's tournament in Wilmington.

There will be a good, large delegation of firemen from here, but the outlook is that the list of spectators will not be large.

This is due to the fact that the Atlantic Coast Line will run no special train, and a visit to Wilmington, for a whole day in that city, means three days absence from here, with the attending expenses.

No special railroad rates have been announced as yet, and it is largely guess work about visitors from here to Wilmington.

With special trains run on two days, with low rates for the occasion, five hundred to a thousand persons would go to see the contests.

Dazed by His Appointment.

A prominent local mill man, who was paying his customary visit at Oca Cola's shrine, yesterday, was for a time overcome by the announcement of his appointment to the office of constable on day of election in August.

Regardless of the fact that he had just left his horse and buggy outside, he rushed to the telephone and called up the livery stable, to send him his horse and buggy.

This action was a great surprise to those standing near, and the gentleman was asked why he called for his horse when that animal was hitched outside.

Making his way to the street the still dazed mill man, walked to his horse's head, gazed into the faithful creature's eyes, but still failed to recognize the animal.

However in a minute, he came to himself again, and after joining in the laugh at his actions, he jumped into his buggy and drove to work.

This is it seen how a little political appointment will overcome even the mightiest.

State Normal and Industrial College.

The attention of our readers is called to the advertisement of the North Carolina State Normal and Industrial College appearing elsewhere in these columns. This college places the best educational advantages within the reach of the young women of the State at a cost ranging from \$62 to \$113.

We notice that 490 young women representing every section and nearly every county in North Carolina were enrolled as students during the session of 1899-1900. Of these 290, according to their own statements, would have attended no other college; 173 of them defrayed their own expenses; 40 of them earned most of their expenses by work in the dining-room and laundry; 105 of them had taught before entering college; 427 of them were prepared partially or entirely in the public schools.

Any young woman upon taking the pledge to teach after leaving the college two years in some public school or private school of the State will receive free tuition. All free tuition students cannot secure boarding places in the dormitories but each county is entitled to a certain number of appointments of these places. The entire expenses including the use of text-books of a young woman holding such an appointment would be \$93 for the college year.

Orange county is entitled to two places in the dormitory.
