DANGER LINE TO CROPS.

Holton and Butler Know They are Deceitful. Political Rumors. Help to Democrats.

Special to Journal.

Raleigh, July 17.—North Carolina is this week on the danger line as to crops. Weather observer Van Horneman said today: "The situation is very serious indeed. The drought is especially bad on corn and tobacco and is beginning to injure cotton." The crop and weather report for the State, issued today, tells the story.

Judge Farnell left today for Wytheville, where he and his wife will remain a month.

State Chairman Butler and Holton had a conference here yesterday afternoon. They were together at the hotel and at the railway station, with several other Populists and Republicans as attaches. All sorts of rumors are in circulation. Holton would not talk except to say he was going to press the case against the State election registrars. He and Butler knew they are whipped. They show it in their looks, if ever men did.

There were rumors that the Populists would take down Cyrus Thompson, their nominee for Governor. Neither Thompson nor Adams, the Republican nominee, have ever been more than dummies.

When Chairman Holton was asked what he had done during the day, at the conference, he replied: "Nothing. I never do anything. Don't you know that?" Your correspondent assured him that he was accurate in his statement. All he has done in this campaign has helped the Democrats, and not his own party, the Republicans.

Weekly Crop Bulletin.

Raleigh, July 16.—The Weekly Crop Bulletin for week ending Monday, July 16th, is as follows:

The reports of crop correspondents for the week ending Monday July 16th, 1900, indicate that the drought throughout central and eastern North Carolina has become quite serious, and that all crops have been materially injured thereby. Very warm, dry weather has been almost uninterrupted since July 1st, and although showers occurred generally Thursday evening (15th), the amount of rainfall was very small and did hardly more than temporarily revive vegetation. At this period of the crop season abundant moisture is indispensable and a general, soaking rain is much needed. The temperature during the week was moderate but still above normal, and the heat gradually increased towards the close. The sunshine was abundant and conditions generally quite favorable for farm work, so that killing grass and weeds made rapid progress, and laying by crops is approaching completion.

The condition of crops is still fairly good, but all are suffering considerably from drought, except perhaps in the mountain districts. This is especially true of corn, tobacco, minor crops and gardens, while cotton appears to have stood the drought so far remarkably well as few reports of damage to that crop were received. While not growing very rapidly, cotton has still a healthy appearance, and is blooming and setting fruit fairly well. It is reported to be falling rapidly in Johnston and a few other counties. Corn needs rain badly everywhere; chinch bugs are numerous in several counties; the crop in wheat, has been generally laid by, and would be restored to excellent condition by timely rains. Tobacco has also been injured, and in some places has run up too narrow; topping is underway, and cutting and curing have become general in the south and east portions. Thrashing which continues actively, with yields even better than anticipated.

Harvesting oats and rye is practically over in the west. It is feared that gardens will be ruined without rain, soon. All minor crops, especially peaches, field peas and melons, are deteriorating. Hay is progressing under favorable conditions with prospects for a good yield.

WON THE CITY.

Tien Tsin Carried By The Allies At Great Cost.

Americans Lose Heavy, Gallant Ninth Infantry. More Talks of Foreigners Allie. Great Chinese Army Threatens Shanghai.

Special to Journal.

Washington, July 17.—The allies have captured the native city of Tien Tsin. The city and all its forts are now in the possession of the foreign troops. Their loss is 775 killed and wounded. Of this number 315 are American dead. Forty of the dead Americans are marines and 175 of the glorious Ninth Infantry.

Admiral Remy put the wounded in hospital or on the ship Solace. Captain Davis of the marines, from Georgia is killed and two lieutenants of marines were wounded. As already reported Col. Emerson Liscum of the Ninth Infantry is dead and two majors. Four captains and three lieutenants of the Ninth were wounded. Captain Lemley of the marine corps was not killed but wounded.

The allies bombarded Tien Tsin with 40 guns and captured eight Chinese guns and the Chinese arsenal. The Russians and the Japanese suffered most in the three days of fighting.

The walls of the city were breached by the allied artillery. The Chinese were then completely routed with great slaughter.

A hundred thousand Chinese troops armed with modern arms, are encamped within forty miles of Shanghai intending to besiege it.

More warships are urgently needed at Shanghai and Chefoo. The Chinese threaten to burn the immense oil tanks at Shanghai. The Boxers have broken out in Korea.

Reports from Italy say that that country is clamorous for revenge on China.

The Chinese minister Wu received a cable today saying that the foreigners were safe in Peking up to July 9th. Wu took the message to Secretary Hay. A meeting of the cabinet was held this afternoon.

The Gallant Ninth.

The Ninth Infantry, which General MacArthur chose for service in China, has until recently been garrisoning the district along the line of the Daguang railway between Calumpit and Tarlac, 30 miles north of Manila. The regiment was first organized in January, 1799. Its first colonel was Josiah Carville Hall, of Maryland. It has a strength of about 1,500 men.

The history of the present organization dates from 1855, when it was organized at Fort Monroe and went to the Pacific Coast by way of Panama, to take station at Vancouver. During the Civil War the Ninth guarded California and protected immigrants from the Indians on the Slope. After six years in Oregon and Washington it was stationed in the Department of the Platte 17 years, its companies distributed among the Indian agencies and frontier posts. It was represented in the Big Horn, Yellowstone and other expeditions and one of its battalions spent the year 1877 in Chicago guarding the railroads from strikers. In 1895, when its Colonel, Jacob Kent, took a division to Cuba, the Ninth went under Lieut. Col. E. P. Ewers. It lost one officer and four men and had 27 wounded at San Juan Hill. Colonel Liscum, the last commander of the Ninth, commanded the Fourth as Lieutenant Colonel at San Juan. On March 24, 1899, the Ninth sailed from San Francisco for Manila, and immediately went on General MacArthur's firing line in the advance to the north along the railway.

To Use Filipino Cavalry.

MANILA, July 15.—The military authorities have ordered the formation of four troops of native cavalry, to be recruited from the Macabebes and offered by Americans.

Major Hanson, the originator of the idea of employing the Macabebe tribesmen as scouts, is to be commander of the new squadron of Filipino horse.

The Macabebes have long been used as scouts and their value in work has already been demonstrated. The present plan of mounting them is intended to render them more effective by increasing their mobility. Many army officers believe that we must eventually come to a general use of native troops to preserve order in the provinces of Luzon and elsewhere.

Schedule of Mails.

Arrival of mails from north and west daily except Sunday, 10:50 a. m., 7:30 p. m. Wilmington and the south 8:30 p. m., Rockland City 8:30 a. m., Lenoir, North and west 8:00 a. m. and 8:30 p. m., Wilmington and south 8:00 a. m., Marshfield City 8:30 p. m.

Simmons to the President.

Special to Journal.
Raleigh, July 17.—Chairman Simmons has written a very strong letter to President McKinley today, protesting against the interference of Federal officials with State elections.

Mammoth Dry Dock at Norfolk.

NOANPOLE, Va., July 16.—Norfolk will soon have a big new marine plant for hauling out vessels for repairs. The newly-organized Norfolk Ship-Building and Dry Dock Company has secured a large tract of land near Old Fort Norfolk, with a broad frontage on the Elizabeth River.

The plans of the company contemplate the construction of a dry dock 90 feet wide, and of sufficient length to accommodate the largest steam or sailing vessels that come to this port. Options have been secured on adjoining real estate, so that the plant can eventually be enlarged as the growth of the business demands.

Fine Georgia Peaches.

FAYANNE, Ga., July 16.—President Egan, of the Central of Georgia Railway has just returned from a long tour of the Georgia peach belt. He says the damage from the rains has been over-estimated, and that there will be literally millions of baskets of Georgia Elbertas marketed. Daily shipments now amount to upwards of eighty carloads over the Central. On that line there are now more than 1,200,000 peach trees in bearing, many of them loaded with fruit till the limbs are almost breaking. In addition, there are 200,000 plum trees, bearing finer plums than those of California.

Deflection of Funds.

"Have your summer vacation plans matured yet, Billy?"
"Oh, yes, but they had to be sidetracked on account of some summer notes that also matured."

There are no better pills made than DeWitt's Little Early Balm. Always prompt and certain. F. S. Duffy.

GRAND WHITE RALLY.

All White Supremacy Clubs to Meet in New Berns July 26th.

Mr. Eronon—Thursday July 26th will be observed throughout the State as "White Supremacy Club Day." The clubs of the counties will meet on that day at their respective county seats and convene together, with a view to making their influence most effective in the election which will be held one week later.

It is earnestly desired that the entire membership of every club in the county be present at the court house in New Bern at 12 M. on that day.

Distinguished speakers from a distance will be present to address the meeting.

S. M. BURSON,
County Organizer.
