RETALIATION.

City of Tien Tsin Destroyed By The Allies.

No Hope of Advance On Peking Until September. Russia Has Secret Plans. Minister Wu Lying. Li is Suspected.

Special to Journal. WASHINGTON, July 19.—The allies have burned the city of Tien Tsin to the ground in vengeance for the massacre of the envoys at Peking.

It was realized that no advance could be made upon Peking until September.

Minister Wu begged Secretary Hay not to agree to the destruction of Tien Tsin, which he said would require a century to rebuild.

A cablegram to the New York Journal from Shanghai says that Russia is secretly negotiating with Prince Tuan who is at the head of the Boxers and that the next step will be for Tuan to invite the czar to restore order in China. It will then be said to the Powers that the Emperor Dowager personally ordered the slaughter of the envoys and that Russia's invading troops would then be joined by those of Prince Tuan to seize and hold Peking for Russia.

It is believed now that Viceroy Li Hung Chang is positively acting in concert with Prince Tuan, and that his trip north from Peking is in that purpose.

The Chinese loss at Tien Tsin when the city was taken was over three thousand.

Lieut. General Grenfell is to command the British forces in China.

The Department of State strongly suspects Minister Wu and believes that his dispatches are merely lies. It is believed that the Chinese government is not only identified with the Boxer movement but that the Chinese government is directing it.

All the Viceroy's are undoubtedly in league with the Boxer movement and are getting secret instructions from Peking and trying to temporize with the foreign powers in order to gain time to perfect defenses especially at Shanghai.

The czar declares that the Amoor territory is in a state of war.

Missionaries have been killed near Shanghai.

The battleship Oregon has been ordered to proceed to Taku as soon as safely repaired.

New York, July 18.—The Herald will publish tomorrow the following dispatch from Washington:

"Though reports are being received announcing the safety of the foreign Ministers in Peking, there is no prospect that the allied troops will reach the Chinese capital before the latter part of September, and some of the officials fix November as the month during which they will arrive at their destination.

"This Government is extremely anxious that the allies shall commence their march on Peking, not only because prompt action will prevent the spread of the revolt, but because there is a chance that the Ministers may still be holding out, and in this case they should be rescued with all dispatch. Minister Wu, who called on Secretary Hay today, expressed the opinion that the legation officials had been accredited by the Peking Government.

"A tentative proposition is now under consideration by the Powers for the appointment of an international commission to investigate the entire Chinese question and map out a plan of co-operation of the Powers and for the future government of China in such a way as to give assurance of the safety of foreigners and their property in the empire. This proposition has not yet taken any shape."

Missionaries Desist.

Victoria, B. C., July 18.—News via the steamship Empress of India says that from all parts of China the refugees are flocking to the treaty ports and every ship is bearing them to Japan.

Nagasaki, the port at which they first arrive, is already unconsciously crowded and Kobe is beginning to fill up. Many of the missionaries are in a destitute condition and appeals for aid are filling the papers. It is generally felt that while their application will be generously received here it is incumbent upon the Foreign Missionary Board, upon whom responsibility for the aid of their missionaries rests, to make unlimited credits to meet the emergency.

MEAN ATTACK.

Democratic Speaker Egged While Speaking Near Wilson.

Special to Journal. GEORGETOWN, July 19.—Democratic Editor C. W. Gold of Wilson while making a speech for the amendment at Blooming school house near Finch's mill in Taylor township, six miles from Wilson last night was egged by some parties.

Mr. Gold was speaking to Populists, there being only one Democrat present, those present deplored the unprovoked and outrageous affair, declaring they knew nothing of the perpetrators.

Cotton Growers Organize.

MONTGOMERY, Ala., July 18.—The Cotton Growers' Prospective Association was organized here today. The object of the movement is to obtain statistical information in regard to the crop through weekly reports and, with the help of bankers, hold it until full prices can be obtained.

Cuba in Good Shape.

WASHINGTON, July 18.—Governor General Wood, of Cuba, came North loaded with enthusiasm and statistics concerning the Pearl of the Antilles. He said the present year would show a cash balance of \$3,500,000 in spite of spending \$300,000 a month for schools. There have been 3,100 new schools established, 3,500 teachers enlisted in the work and a summer school for teachers started in addition to the large party of teachers now at Harvard.

The island, Governor Wood says, is more than self-supporting, the tobacco crop next to the largest on record and sugar is improving. Municipal courts and jury trials have just been authorized and will be in operation in a few weeks.

One of the hopeful signs is that the military authorities have been able to close 19 of the orphan asylums in Havana and Pinar del Rio provinces in the past few weeks, the children having all been taken care of by relatives who were able and glad to provide for them under the new regime of quiet and prosperity.

St. Petersburg, July 18.—Muzaffar-Ed-Din, Shah of Persia, arrived in St. Petersburg today.

He was welcomed at the railway station by Emperor Nicholas and other members of the imperial family, who greeted him cordially.

The party drove together to the Winter Palace along the Nevskoi Prospekt, the principal street of the city, which was lined with troops and beautifully decorated with triumphal arches. The Shah was cheered by the populace.

BUTLER WORRIED.

Will Try to Work Some Scheme to Save Himself.

Question of Fresh Injunction on Assessment. The Convict Shirt Factory. Cotton Still all Right. McNeill Dropped.

Special to Journal. RALEIGH, July 19.—The corporation commission devoted today to the exceptions filed by several railroads to the assessment. The attorneys who represent the three great systems in this State went to Hendersonville yesterday afternoon, in order to see Judge Simonson and secure a continuation of the federal injunction which was granted last August and which restrained the commission from making the 1899 assessment greater than that of 1898.

The commissioners were asked by your correspondent today if a first injunction would be necessary. They said yes; that each assessment stood upon its own footing and that the injunction of last year against that year's assessment does not apply to this year, but is out of date, as the law requires the commission to make an annual assessment. The commissioners went on to say that the value of a railway might fluctuate greatly in a year. The Western Union, it will be remembered, procured an injunction against the commission last year, and day before yesterday it procured a new one from Judge Simonson.

The Norfolk and Western railway today notified the State treasurer of its readiness to pay taxes for this year.

Mr. John W. Graham, Attorney for Populist State Chairman Butler, was with the latter until late last night. Democrats say they think Butler plans to have some election registrars arrested and thus follow in the footsteps of Republican Chairman Holton. Butler is ten times as smart as Holton. The latter has made a failure of his campaign. It is quite clear that Butler is rattled. They are now trying to take some steps by the aid of the Attorney General of the State. Democrats here express much pleasure at the dropping for this ticket in Brunswick county of Dr. McNeill, who twice voted in the legislature against the Constitutional Amendment disfranchising illiterate negroes. He ought to have been dropped long ago. Reinhardt of Lincoln county, the only other Democratic member who voted against the Amendment, has declared for it.

It is the current comment that after the intense excitement of the State campaign the Presidential campaign will be very flat and tame, by comparison. The penitentiary authorities have filed the shirt factory with State convicts. Ninety are now at work there. Of these 30 are women. The officials say the work done by the State convicts is far better than that by the Federal ones, and that since the latter were taken away the change is all for the better.

Cotton dealers here insist that the intense heat and drought have not in the least hurt the cotton.

Senator Hill's Campaign.

ALBANY, July 18.—Former Senator David B. Hill, will open the Democratic campaign in Indiana, where his first speech on behalf of Bryan and the Democratic will be delivered. Mr. Hill is in great demand as a speaker, and is daily in receipt of many letters and telegrams urging him to make appointments.

His principal speech-making tour will include Virginia, Alabama and Georgia, he having pledged himself to deliver at least three speeches in each State. Neither his dates nor his route has as yet been arranged, but he does not expect to take the stump before the middle of September.
