The Chinese Minister at London has a fispatch from the Chinese government out ming Conger's message and saying that the foreigners were safe is Pakin July 18th. The Minister added that his government has been able to afford retief and protection to the Ministers.

The French foreign office has received information that is considered reliable that the foreign ministers at Pekin were not massacred according to information. On July 7th, the Ministers were stacked and the legations barned, but the foreigners succeeded in crossing the city to Ching's palace which was barricaded, the Europeans holding their own when this news left Pekin on July 9th.

Baking Powder

The strongest, purest, most efficient and wholesome of leavening agents. Not lowest in price, yet the most economical; indispensable to all who appreciate the best and most healthful food.

Our country is enjoying prosperity almost unsurpassed in its history.

For every one there is money enough to buy that to eat which is pure, sound, good, wholesome.

Why should we use cheap, impure, unhealthful articles of food? There is no economy in them; they endanger the health, they may cost life. There are reported almost daily cases of sickness caused by eating cake, puddings or biscuit made with the cheap, alum baking powders.

In all articles for food buy and use only the best. The good health of the family is of first consideration.
