RALEIGH.

The Vance Monument Unveiling, Government Crop Bulletin. Butler in Raleigh.

RALEIGH, Aug. 7.—The crop report is very favorable indeed. The farmers were never in finer spirits.

The special rate of one fare to the Vance monument unveiling here Aug. 23 is made by the railways, and a rate of one cent per mile for organizations is uniform. The committees are hard at work. A great deal is to be done. The statue was photographed last week and the photographs will be sold for the benefit of the Vance monument association.

The apportionment of railway taxes among the various counties, cities and towns has been completed by the corporation commission.

Some populists have been heard to intimate that Senator Butler could or would cause trouble as to the seating of his Democratic successor. The Senator is still here.

The government Crop and Weather Bulletin for this State for the week ending last night, was issued today and says the reports of correspondents indicate favorable conditions prevailed and that crops made good progress since the rains of the preceding week. Clear, bright weather was the rule, with occasional showers in the eastern portion of the State; the temperature has been moderately high, averaging hardly two degrees daily above normal, while toward the close of the week the nights became agreeably cool. The amount of rainfall was very small, and crops are again beginning to need rain, though so far doing well. However, in quite a number of counties the drought has really not been broken and still severe, chiefly in the central-west, Randolph, Cabarrus, Iredell, Yadkin and Henderson counties. Droughty conditions also prevailed more or less in Tyrrell, Beaufort, Rockingham and Cumberland counties. The cultivation of crops has practically ceased everywhere, farmers are beginning to plow for fall crops, to sow turnip and late Irish potatoes, and pull fodder. Cotton made favorable progress during the week; it is quite generally reported to be fruiting well, although the weed is small; some early bolls are opening in Scotland county; complaints of rust and shedding are comparatively few. Young corn looks fine and is earing well; many farmers are cutting old corn, which was ruined by drought, for feed in preference to pulling the fodder. The rapid growth of tobacco caused by the sudden abundance of moisture last week has made the plants rather rough and coarse in some counties; the condition of the crop continues to be very diversified; too much has been said about curing; curing is progressing favorably. Minor crops continue in good condition, especially field peas, peanuts, and sweet potatoes. A fine crop of grapes will be gathered; canning and drying fruit is becoming a favorite way of utilizing a portion of the abundant fruit crop in North Carolina. Melons are fine everywhere.

The quicker you stop a cough or cold the less danger there will be of fatal lung trouble. One Minute Cough Cure is the only harmless remedy that gives immediate results. You will like it. F. S. Duffy.

BRYAN'S FIRST ACT.

Will Call Congress Together At Once If Elected To End War in Philippines.

New York, August 6.—A dispatch from Chicago to the New York Herald says: "William J. Bryan's speech of acceptance of the Democratic nomination for the Presidency, which will be made at Indianapolis Wednesday, has been read and re-read at the National Headquarters, and has been absolutely approved by the party managers. His leading supporters here are thoroughly satisfied and delighted with it.

"The address of Mr. Bryan is devoted almost entirely to a discussion of imperialism, the Philippine question, militarism, standing armies and the invasion of foreign lands. This is the keynote of the speech.

"Mr. Bryan deals with imperialism almost altogether, and says if he is elected President of the United States he will immediately after his inauguration, call an extra session of Congress to end the war in the Philippines and to provide a stable self-government for the Philippines.

"He alludes to the 16-1 plank only once, charging the Republican party with having made a new issue in declaring for the gold standard and repudiating international bimetalism. He charges the Republicans with having changed their principles in regard to silver from professing international bimetalism to advocating the monometallic gold standard—gold, pure and simple."

ADVANCE CONTINUES.

Allies Hold Chinese Forts Captured At Peit Sang.

Chinese Position Strong But Stormed By Allies. Pei Ho River Full Of Torpedoes. Ministers Reported Safe July 28th.

Special to Journal.

WASHINGTON, August 7.—Cablegrams received here say that the Chinese works at Peit Sang were captured by the Allies in the first battle, and the Allies still hold them.

In the fighting the Ninth and Fourteenth United States Regiments, Reilly's Light Battery, and Marines were engaged.

The Chinese were in a strong position in deep trenches, with heavy brass works.

The Allies rushed the works and literally swept the Chinese army.

The American force, 3,000 in number fought most gallantly.

The Allied advance guard left Tientsin, August 3rd, and numbered 16,000 men. The Pei Ho river was found full of torpedoes. At Peit Sang, 40,000 Chinese were found well armed and entrenched.

The Americans and the British marched up the west bank of the Pei Ho, the Russian and Japanese along the left bank. Light draught transports with artillery, moved up the river between the troops.

The Russians are reported as having defeated the Chinese at near Tai Chow killing 3,000 of them, but the Chinese refused to surrender their fort.

General Chaffee telegraphs the Navy Department that the Allies at Peik were certainly safe on July 28th.

WASHINGTON, August 6.—According to the information in possession of the War Department the town of Peit Sang is at the head of the tidewater on the Pei Ho, between 11 and 12 miles by road from Tientsin. It is a village of mud mounds, of considerable size, but not navigable by anything larger than a steam launch, and it is thought that the troops probably reached there in small boats towed by the naval launches.

The country all along the river between Peik and Tientsin is a low alluvial plain, almost impassable for wheeled vehicles in the wet season, and under quite a high state of cultivation. It presents no natural defensive features, and the War Department knows no strategic reason why the Chinese should have made a stand there rather than at any of the other of the dozen villages east of the walled town of Tung Chow, where is stored an immense amount of provisions upon which the city of Peik would have to depend in case of siege.

WILLING TO SURRENDER.

Kruger Only Wants to Know What Will Be Done With Boers.

Special to Journal.

LONDON, Aug. 7.—A dispatch from Pretoria says that Oom Paul Kruger makes statement that he is willing to surrender, provided that satisfactory promises are given of the Boers ultimate destination when peace is declared.

LONDON, Aug. 6.—A dispatch to the London Daily Telegraph from Le-ranzo Marques states that the Frenchmen just returned from the Boer front confirms reports which have been received during the last few days describing the pitiable sufferings of the Boers.

General Botha's home commando originally 750 men, it is said to consist of only 63 men now, and other commandos have been reduced in like proportion. The government will be transferred to Lydenburg soon.

A dispatch from Pretoria, dated August 5 says that General Kitchener has narrowed the circle around General De Wet and President Steyn by driving out the Boers from one of the flank positions which they held.

From Sky to Pawnsnop.

Pawnsnop take some curious pledges, but it is not often that they receive one from another world. A London pawnsnop, however, exhibits in his window an unredeemed pledge metal that fell as it were, from heaven to pester a poor man with his beer. A ticket bears the statement that it was brought from the arctic regions by a sailor.—New York Tribune.

THE QUEEN.

"My wife," he said proudly, "has been known as the queen of hearts."

"No doubt," they answered. "It was because she took the knave."—Chicago Post.

TRENTON HIGH - SCHOOL.

Prepares for Life, College or Business.
