#### ONLY RIFLE FIRING.

By Chinese At Peking Legations. Defences Strengthened. Ministers Refuse to Leave.

Special to Journal. **WASHINGTON, August 8.**—News from Peking, dated August 8rd, says rifle firing by the Chinese on the legations continues, both by the government troops and the Boxers.

Casualties reported since July 15th, when shelling ceased, are slight: Total to date, 60 killed, 110 wounded.

The defenses of the legations have been strengthened. Over 200 women and children are inside of them.

The Chinese refuse to transmit cipher messages. The ministers positively refuse to leave Peking. It would mean their certain death.

Two more American regiments have been ordered to Taku. Light Artillery and heavy siege guns, will be sent to Taku from Manila.

Mr. Isaac Taylor has about completed his new wharf at his mill.

Mr. R. T. Willis of Morehead City is visiting friends of Bachelor this week. Probably there is some little attraction. Everybody of No. 5 Township was well pleased with the Democratic majority. Once in the pages of history our old No. 5 township showed its colors and gave a big Democratic majority.

Sorry to see some of the fusionists so green over the victory of the Democrats. Hope they will not have too serious case of green pills.

#### RALEIGH.

### Charles B. Aycock's Wonderful Campaign in State.

### Southern Railway Case Removed to Raleigh. Hot Wave: Health Bulletin. Fine Cotton Crop. Democratic Headquarters Closed.

#### Special to Journal.

**RALEIGH, August 8.**—Democratic State Chairman Simmons says that Charles B. Aycock's campaign was "the most wonderful ever made in this State." He added: "There never was a campaign in which the press rendered such magnificent and efficient service."

The hearing of the railway tax assessment cases before Standing Master Jas. E. Shupberd will be resumed next Tuesday at Charlotte. The counsel for the three great railway systems say they will be ready.

The Southern Railway has upon petition secured a removal of the case against it, brought by the Seaboard Air Line, and involving right of way of Durham, to the Federal court here, from Durham Superior court. Judge Purnell made the order yesterday afternoon. It is a phase of the old fight between the Southern and the Seaboard, and the question is whether the Southern or the town of Durham owns the land alongside the Southern's tracks through the town, on which is the terminal of the Durham and Northern railway, which is owned by the Seaboard Air Line.

Senator Butler has gone to his home in Sampson county, to fish and think.

The building committee of the Board of Agriculture has formally accepted the great annex to the State Museum. As yet the contracts are not awarded for furnishing it.

Another hot wave is making itself felt and the temperature yesterday and today was very near the 101 degree mark.

The July bulletin of the State Board of Health was issued today. It says there was small pox in 19 counties in all 125 cases. Malaria is epidemic in about ten counties. Typhoid fever is in 40 counties; New Haven having 12 and Wake 15 cases. A case of Hemorrhagic fever is reported in Catawbus. This disease is more deadly than yellow fever but is not contagious. It is cholera in activity in only 4 counties.

It is the remark of cotton growers in this section that they have seldom seen the crop finer, and never more fully fruited. Another feature is the exceptionally large size of the bolls.

Democratic State Headquarters were closed yesterday afternoon, not to be reopened until September 1.

The papers during the past 48 hours show that there will be a lively fight growing out of the attempt of one paper to make the "color line" an issue in National politics in North Carolina during the coming election. The fight is already begun, in fact, and will be to the finish.

You will never find any other pills so prompt and so pleasant as DeWitt's Little Early Risers. F. S. Duffy.

#### QUEEN VICTORIA'S SPEECH.

### Would Make Effort to Punish Authors of Chinese Crimes.

Special to Journal. **LONDON, Aug. 8.**—Queen Victoria in her speech proroguing Parliament, today, said she and the other Allies would make the utmost efforts to punish the authors of the unpardonable crimes in China.

The English Minister declares he does not believe China will declare war against the Powers.

#### Woman in Politics.

"Look for the woman" is an old French proverb, which implies that nothing happens in this world—either tragedy or comedy—in which one of the gentler sex is not involved. Dispatches from Topeka represent that there is trouble among the Populists and Democrats in Kansas, all on account of woman. It is alleged that the Populists want the ladies to take an active part in the campaign, while the Democrats do not desire the women to be a prominent factor in the fight. The two parties hold such divergent views on this momentous subject that already, it is said, strained relations exist, and each party has established separate headquarters, seventy miles apart. There seems to be no good reason why either Democrats or Populists should not utilize the services of the ladies in the battle against imperialism. It would be folly for the Democrats to decline assistance from any reputable source. If they adopt an attitude of antagonism to the women of the State they may not only suffer politically, but may find "rebellion" rampant in their own households when the sex issue is agitated.

If Kansas women are anything like their sisters in the East it would be easy to keep them out of politics without hurting their pride or assuming a dictatorial attitude. All that is necessary would be to provide reforms which are not becoming and benefits which are "simply frightful." No Eastern woman would don such paragonous, not even to become famous as a campaign orator and organizer. The women of Kansas may be superior creature, and not slaves to gown and bonnet, but this is to be doubted. The Democrats of that State would be wise to try the experiment before they break away from their Populist allies because of the political activity of the Populist women. If this plan doesn't work satisfactorily a few nice judiciously distributed at political meetings might discourage activity on the part of the ladies. It is always well to try a little strategy with the gentler sex before adopting the "lord of creation" tone. Many a man would have more hair on his head today if he had applied the wisdom of the serpent to his domestic problems, and not asserted his supremacy too noisily and arrogantly. Baltimore Sun.
