C. P. HUNTINGTON DEAD.

Carried Off By Heart Disease At His Summer Camp. No Warning Of The Attack.

RACQUETTE LAKE, N. Y. Aug. 14—Col. C. P. Huntington, President of the Southern Pacific Railroad Company, died shortly before midnight last night at Pine Knot Lodge, his luxurious camp in the Adirondacks near Racquette Lake. He was in his seventy-ninth year. Death resulted from heart disease.

The remains are to be conveyed to the Huntington residence in New York. The funeral cortege is expected to start from Racquette Lake tomorrow, but may not be able to reach New York city before Thursday. The time for the funeral has not yet been announced.

Mr. Huntington, with Mrs. Huntington, went into the woods last Thursday afternoon and was in apparently excellent health. On Friday and Saturday he was at his camp noting the progress of the improvements which he had been carrying on this year. On Sunday he remained at his lodge quietly, receiving the calls of several friends from the neighboring camps.

Apparently well on retiring, at 11 o'clock last night, he was taken suddenly with a choking spell, which was quite common with him, and which was not thought to be serious, but he became worse. As soon as the seriousness of the attack was realized a messenger was dispatched to the neighboring camp of Governor Lounsberry for a doctor. Mr. Huntington died without regaining consciousness, not more than ten minutes having passed between the attack and his death. Mrs. Huntington and Mr. Huntington's secretary, G. E. Miles, were at his bedside at the time of his death.

Early yesterday Mr. Huntington appeared to be enjoying the best of health, walking about his preserve and taking a trip on his private steamer, the Oneto, and he remarked to friends that he was feeling unusually well.

STEYN UNDER SURVEILLANCE.

President of the Free State Practically a Prisoner in Dewet's Camp. Pursuit Continues.

LONDON, August 14.—Lord Roberts reports to the War Office under date of Pretoria, August 13th, as follows:

"Kitchener reports from Schoolplatt, eight miles east of Ventersdorp, that Dewet blew up three of his wagons. Six British prisoners who escaped from Dewet's camp state that Mr. Steyn is confined in the camp under surveillance; and that Dewet was forced to abandon his ammunition and thirty horses. They also confirm the report that Methuen captured one of Dewet's guns and shelled the main camp effectively. Jan Hamilton telegraphs that he hopes to be at Blauwbank today with his main body. Mabone's mounted troops are pushing on to the westward."

Another report from Lord Roberts, of the same date, says:

"Methuen and Kitchener still following Dewet and Steyn, yesterday reached Modderfontein ten miles east of Ventersdorp. Methuen is in touch with Dewet's rear-guard."
"Smith-Dorrien reports that the Shropshires recently marched 43 miles in 32 hours and the city of London Imperial Volunteers 30 miles in 10 hours, hoping to prevent Dewet from crossing the Krugersdorp-Potchefstroom railway."
"Dewet's occupation of Ermelo is having a good effect. A field cornet and one hundred and eighty-two burghers of the Standerton commando surrendered yesterday to Clerly."

AT THE GATES.

Force Used to Make Ministers Leave Peking.

China Yields to Demands of This Country. Delivery of Foreigners in Peking Sought by China. Objection to Landing British Troops at Shanghai.

Special to Journal.

WASHINGTON, August 15.—The undated cipher dispatch from Minister Conger received by the State Department, contained confidential military information relative to the defense of Peking, and charges that the Chinese government has stopped urging and persuading the Ministers to leave Peking and now the Chinese government is trying to force the ministers to leave.

China has yielded to the demand of the United States, and the Imperial government is now negotiating with the commanders of the allied forces, at the gates of Peking, for the delivery of the foreigners in the Chinese capital, to the allies.

LONDON, Aug. 15.—Special—A dispatch from Shanghai says that the British troops from India have arrived, but the Chinese Viceroy objects to their landing, and it is believed that the Viceroy has been urged to take this course, by the French and Russian consuls, at Shanghai.

A dispatch says the French government has given its consent to the appointment of Count Von Walderssee to be commander in chief of the allied forces in China.

WASHINGTON, Aug. 14.—It was stated today by an official who has lived at Peking that nothing short of the heaviest artillery can make any impression upon the walls of the Imperial City. He said light artillery would be of no avail, and for this reason the advance of a flying column even up to the walls of the city could effect little if a stubborn defense were determined upon.

The walls are 50 feet high and wide enough on top for two coaches to pass abreast. They afford opportunity for planting guns, while from a defensive point of view they cannot be breached except by the use of the heaviest projectiles.

INGALLS SINKING RAPIDLY.

Famous Ex-Senator Is Now In A Critical Condition.

ATLANTA, Ga., August 14.—Ex-Senator John J. Ingalls, who has been in New Mexico and Arizona since early last fall for his health, is sinking rapidly, and his son Sheffield was today summoned to Las Vegas, where he now is.

Mrs. Ingalls has been with her husband over two months, during which time it has become known that his recovery was doubtful. His son Ellsworth Ingalls, who is at Sioux Falls, S. D., was notified and left for his father's bedside.

Mr. Ingalls was attacked with grip in South Dakota while on a lecturing tour in the fall of 1896 and has been failing in health since. After leaving Sioux Falls he came to Kansas to make speeches during the gubernatorial campaign, but found his throat in such a condition that he could not make public speeches. He took his family to Washington where he was engaged to write political letters for newspapers. His throat continued to trouble him, and in the spring of 1899 he returned to Atchison, putting himself under the care of a specialist.

He got no relief and early last fall he was informed by his physicians that it would be dangerous for him to remain in this climate during the winter. So he went to Las Vegas, but did not improve, and continued to Tucson, Ariz., where he found some relief. He was able to write for newspapers and contemplated returning to Atchison early next spring.

John Bull's Banker.

LONDON, August 14.—Truth, Henry Labourer's paper, replying to some of the criticisms upon the placing of a large portion of the Exchequer loan in the United States, says:

"We can see nothing derogatory in selling the bonds to America. It is an indication of the enormous growth of wealth in the United States. Nor would we be surprised if, in view of their continued prosperity, our American cousins were to act as our bankers in the future in a good many instances. We can see no harm in such a relation."

RALEIGH.

Political Headquarters. Church Dedication. State Fair Outlook.

RALEIGH, August 15.—Republican Chairman Holton was here yesterday in close conference with Populist Chairman Butler at Populist headquarters. He does not know where the National Republican headquarters for North Carolina will be located here or at Greensboro.

The new Presbyterian church here will be dedicated the third Sunday in September. There will be many visiting ministers here. Among them, Rev. Dr. J. S. Watkins, of Spartanburg, S. C., Rev. Dr. Wharton Moore, of Richmond, Va., Rev. Wm. McPherson, of Columbia, S. C., and Rev. A. R. Shaw, of Henderson, N. C.

Ex-Judge James E. Shepherd has gone to Charlotte where he is to resume hearing, as standing master in equity, the railroad taxation cases.

Everything points to a tremendous success at the State Fair. There will be fully 800 yards of fencing moved giving 100 feet more room. The railroad will probably give a cent a mile rate for four days instead of two as heretofore.

The committee are at work perfecting the plans for the unveiling of the Vance statue here one week from today. Colonel F. S. Kennan is Chief Marshal.

WHAT "REDEMPTION" MEANS.

Concise Answers to Currency Queries Raised Every Day.

WASHINGTON, August 14.—The questions affecting the redemption of various notes and certificates, raised almost daily, are clearly answered by Mr. A. T. Huntington, chief of the Division of Loans and Currency, Treasury Department, in his pamphlet recently issued for the benefit of the public generally. The answers are here given:

Gold coins and standard silver dollars, being standard coins of the United States, are not "redeemable."

Subsidiary coins and minor coins may be presented in sums or multiples of \$20 to the Treasurer of the United States or to an assistant treasurer for redemption or exchange into lawful money.

United States notes are redeemable in United States gold coin in any amount by the Treasurer and all the assistant treasurers of the United States.

National bank notes are redeemable in lawful money of the United States by the Treasurer, but not by the assistant treasurers. They are also redeemable at the bank of issue. In order to provide for the redemption of its notes when presented every national bank is required by law to keep on deposit with the Treasurer a sum equal to 5 per cent of its circulation.

Gold certificates, being receipts for gold coin, are redeemable in such coin by the Treasurer and all assistant treasurers of the United States.

Silver certificates are receipts for standard silver dollars deposited and are redeemable in such dollars only.

"Coin" obligations of the Government are redeemed in gold coin when gold is demanded and in silver when silver is demanded.

Bombarding Hill Clouds.

WASHINGTON, August 14.—To protect their vineyards against the ravages of hailstones the vinegrowers of Southern France attack approaching storm clouds with volleys of fire from powder-charged cannon until the cloud is finally dissipated and the danger to their crops averted.

The practice of shooting at the clouds originated in Italy and was known in France over 100 years ago, says United States Consul Covert, at Lyons, in a report upon this subject to the State Department, but it is to be more extensively employed this year than ever before.

Fifty-two cannon, manned by 104 cannoneers and their chiefs, have been distributed over an area of 2,500 acres of rich vine land. A point is selected as the central post of observation. At the approach of the destructive hail cloud a shot is fired from this post and at this signal all the remaining cannon are fired twice a minute at first, and then more slowly after the first 10 shots.

This "bombarding of the heavens" is almost invariably successful, and all places in France heretofore ravaged by hail, it is said, are to be provided with storm-attacking artillery.

You will never find any other pills so prompt and so pleasant as DeWitt's Little Early Risers. F. S. Duff.
