WORLD'S WHEAT CROP.

Poor Condition Of The Cereal Generally Reported. Situation In Other Lands.

WASHINGTON, August 15.—The official statistics of the wheat crop of the world for 1899-1900 have just been compiled by the Department. They show that in the countries of the Southern Hemisphere, whose wheat crops are commonly included in statements of the world's wheat crop, the production will hardly fall less than 160,248,000 bushels. This is 10,000,000 bushels short of last year's production. Australia and Chile are the only countries showing any material reductions.

The crop in Argentina last winter is believed to be about 105,000,000 bushels, about equaling last year's large figures. In 1898-99 Uruguay's wheat crop exceeded 7,000,000 bushels. The only department of Uruguay yet officially reported has a crop over 8 per cent. smaller than the previous year, but it is thought unlikely that such a reduction was general. Figures for Australia indicate a deficiency hardly much less and may be somewhat more than 6,000,000 bushels.

The Chilean crop of 1899-1900 was so small as to be insufficient for home requirement. Indeed, Chile was said to be importing wheat as early as May last, or within a few months after the completion of her harvest.

Notwithstanding the Indian famine the 1900 wheat crop in Bengal, North-west Provinces and Oudh and Punjab was above the average, taking these three divisions together. Elsewhere the crop has been a lamentable failure. The Indian wheat crop as a whole amounted to 152,982,500 bushels, against 236,679,000 bushels in 1899 and an average of 225,496,000 bushels for the preceding five years.

The Russian wheat crop, as a whole, is anticipated at somewhat below rather than above the average. A report from Poland represents its wheat crop as the worst in many years, implying a deficit of several million bushels as compared with 1899 or 1898 in that division of Russia. More than an average crop is indicated for Central Sweden. In Germany somewhat above an average yield and good quality is indicated.

The Austrian wheat crop is rather poor and thin in some districts. The last figures received in the United States put the Hungarian crop at 135,000,000 bushels. Romanian reports generally are favorable, but the total area is somewhat reduced and the total output may be below the average. The Bulgarian crop is reported unusually good, although it, as well as the crop of European Turkey, suffered somewhat from rain during harvest. About an average crop is indicated, with generally good condition, in Italy, Switzerland and Spain. France indicates a crop slightly above the average for the years 1898-99, but recent bad weather may make the actual output a little smaller. Favorable reports come from Belgium and the Netherlands.

On unofficial estimates a deficiency of about 9,500,000 Winchester bushels in the wheat crop, as compared with 1899, is indicated for Great Britain, and about 1,780,000 Winchester bushels less than the average for 1897-98. The North African crop is reported better than the poor one of 1899. The Mexican crop is unusually heavy and of good quality and a large increase in area is reported. The Manitoba crop is very deficient and the latest estimate for the province as a whole puts it at a little less than 11,000,000 bushels.

Anti-Imperialistic League.

INDIANAPOLIS, Ind., Aug. 15.—The Liberty Congress of the Anti-Imperialistic League of America began its sessions here today. The convention of the National or Third-Party men began yesterday.

About 300 accredited delegates were present at the opening of the Liberty Congress, and more are expected tomorrow. The speeches of Edwin Barrett Smith, the temporary chairman, and George S. Boutwell, the permanent president, brought forth much enthusiasm. The public meeting in the evening was much better attended, and the reading of W. Bourke Cockran's letter was the signal for tremendous applause. But the greatest demonstration of the convention so far came in the afternoon, when the venerable George S. Boutwell, ex-Governor of Massachusetts and Secretary of the Treasurer in the Cabinet of President Grant, concluded his address as permanent chairman with the declaration that he had turned his back on the Republican party and would support Bryan for President. The delegates rose in their seats and tendered the ex-Governor an ovation that lasted several minutes.

The Powers Case.

GREENSBORO, N. C., August 15.—Three good speeches have been made in the Powers trials and the fourth is under way. The juryman has been so impressed that the closest observer has not been able to discover the drift of their sympathies.

Victor Bradley will conclude his speech tomorrow, followed by W. O. Dwyer for the defense, and E. H. Gordon for the prosecution, and J. H. Tinsley for the defense. Colonel Campbell will speak Friday, followed by ex-Governor Brown and Commonwealth's Attorney Franklin will close Friday or Saturday. The large majority of people in Greensboro still believe it will be a long jury.

STILL PARLEYING.

Li Hung Chang Trying For Different Terms.

Report Allied Troops in Peking. Cabinet Meeting to Discuss Chinese Situation. Russia Says Has No Settlement Ends.

SPECIAL TO JOURNAL.
WASHINGTON, August 16.—A dispatch says that all the foreigners in Peking are saved by the entrance into that city of the allied forces on Tuesday.

The State Department has received an appeal from Li Hung Chang, that this government use its influence to have the allied army stop at Tung Chow where it will be met by the high Chinese officials to negotiate for an armistice.

This government will reject this proposition and stand upon the proposition heretofore announced, namely, that a sufficient force of the allies be permitted to go into Peking, and bring away the foreign and native converts now besieged there.

A cabinet meeting was called this morning to consider the China question. In settling this question the United States will in no wise depart from the course adopted at the beginning.

St. Petersburg, August 15.—The Official Messenger states that, while recognizing Germany's motive in view of the murder of Baron von Ketteler at Peking, the Czar accepted Emperor William's proposal to appoint Field Marshal Count von Waldersee to the command of the allied forces, the Czar has not the slightest intention of receding from his political program.

The fundamental principle of this program is a complete understanding with France and the other powers, the pursuance of no selfish aims and striving only for the restoration of order and the best relations with China.

The newspapers of Berlin announce that France has accepted Count von Waldersee as commander-in-chief of the allied forces in China.
