THE GREAT COAL STRIKE;

Each Side Makes Claims. Peace Prevails Thus Far.

Special to Journal.

WILKESBARRE, September 18.—The Pennsylvania striking coal miners are as a rule maintaining order. No serious trouble has occurred yet. An attempt was made to burn one coal breaker.

President Mitchell of the Miners Union, claims that 112,000 miners have struck. He says:

"The outlook is very bright, and from the spirit and disposition of the men I am confident of success. Everything indicates that the mine owners will be compelled to meet our demands within a very short time."

The coal mine owners and operators claim that 60 per cent of the miners are at work. Today the strikers gained somewhat in numbers.

ALTOONA, Pa., September 17.—Inquiry by telephone among the nearby bituminous coal towns today developed the fact that the anthracite coal strikers will receive little, if any, help from the region north and west of Altoona.

While it is reported that representatives of the hard coal men have been in this field agitating sympathetic strikers, there is no evidence of the fact in this vicinity. The bituminous miners at each place say they will not even contribute money to help the Eastern men, as they did not receive a cent from them during the bituminous wage troubles of recent years.

Steamer Cuts Down a Tug.

Special to Journal.

NEW YORK, September 18.—The tug America was cut in two today near New York by an ocean liner. The firemen of the tug were drowned.

Raleigh's Contribution.

Special to Journal.

RALEIGH, September 18.—Raleigh's total contribution to the Galveston relief fund is \$1,124.

The Plague in Glasgow.

Special to Journal.

GLASGOW, September 18.—A girl died in this city today from bubonic plague.

Five additional cases of the bubonic plague were reported yesterday. The five new cases are those of the wife and two children of a hospital worker and his mother and sister. The family comes from the neighborhood where the plague appeared at first. The new outbreak has caused a fresh scare.

The Weather Conditions.

WASHINGTON, Sept. 18.—For North Carolina, fair, continued cool. Wednesday light northerly winds.

Weather Conditions.—The high barometer area extends from the lake region southward to the Gulf and has caused a general fall in temperature in the Gulf States, except Texas, and northward to New England. Light frosts are reported from Pittsburg, Buffalo, Detroit, Chicago, St. Paul and Marquette.

A low area is central in the Rocky Mountain region and is causing higher temperature and unsettled weather over the western and northwestern States, with wind shifting to east and south-east.

Fair and continued cool weather is indicated for this section during the next 36 hours.

THE MARKETS.

The following quotations were received by J. E. Latham, New Bern, N. C.

PEABODY FUND.

Annual Report of Allowances to Schools and For Scholarships.

Special to Journal.

SEEDS FROM CEYLON. Compulsory Education Question Campaign Work. Heavy Wind Storm in Wayne. The Crop Report.

Special to Journal.

RALEIGH, September 18.—The demand for negroes to go North seems not to have abated, for on a bulletin board here is this notice, "Wanted, 500 negro men and women to go North."

The annual report on the Peabody fund for North Carolina was made up today. It shows that the receipts for schools were \$4,450, of which \$2,000 was an allowance to the State Normal and Industrial College at Greensboro. There was a special allowance for the negro teacher's institutes, of which \$500 has been expended. A report is also made on the Peabody scholarships allowed this State. It is singular but true that almost every one of these scholarships is given to persons in the extreme western part of the State.

The agricultural department today received a quantity of seeds from the Royal Botanical Garden in Ceylon, with which tests are to be made.

Assistant labor commissioner Faison says the question as to the need for a compulsory education system in North Carolina is again asked this year, and that the replies show a great increase in the popular desire for it. He says the question will certainly be presented to the legislature in some shape. The most possible plan, he says, is something like local option in cities and towns where there is a public school system; in other words to start the plan where it can be enforced.

Hard work is beginning at Democratic headquarters on the National campaign. The officials there are sending out a great many copies of the Congressional Record containing information about trusts, and also 40,000 copies of Lent's speech on "Imperialism."

Saturday night a wind storm tore through a very narrow strip of Wake and Franklin counties, grazing Wake Forest village and striking some buildings at Yreenville. At the latter place it wrecked the Methodist and a Baptist church, causing a loss of \$900. It is estimated, and also a tobacco prize house, loss \$1000. It is said the crop losses will approximate \$3000. The track of the storm was only about 100 feet wide.

The police made renewed attempts last night to capture "Boots" Brown, the negro who murdered Sarah Davis. The negroes are giving no help in catching him, nor are they expected to do so. Yesterday negroes asserted they had chased him, but this was untrue. Negroes will in nine cases out of ten protect negro criminals, simply because they are negroes.

The rains have caused the top of all the cotton to grow about six inches and to be a vivid green, full of little squares.

The hospital at the Soldiers Home is completed save the plumbing. The Soldiers Home buildings by the way were a Confederate hospital in June, 1861, the first regular hospital in the Confederacy, it is said.

The United States crop report for N. C. today says:

During the first portion of the week ending Monday, September 17th, 1900, precisely the same conditions continued to prevail which have caused the unfavorable outcome of the farmers' labors this summer, for the weather remained extremely warm and dry until the general rains began in the South on the 14th and in the eastern section on the 16th. The mean temperature again averaged 6 degrees above the normal daily, and the extremes almost reached 100 degrees at several points on the 16th and 17th. Perfectly clear skies prevailed, and increasing winds caused a very dusty atmosphere, but these distressing conditions were completely relieved by the general rains of the latter part of the week.

Many correspondents say that cotton is three-fourths open, some that all is open, and as picking is progressing rapidly everywhere, the outlook is that the entire crop will be gathered by the end of October, if not earlier. A good deal of corn is dry enough to house, and some has been gathered very early. Fodder pulling is practically over. Tobacco is nearly all cured except in north-counties, where, in some cases, nearly half the crop is still uncut; no improvement is reported in the late cuttings. Harvesting peanuts and sweet potatoes is underway, and both crops are inferior, as expected; peanuts will probably turn out to be very short.

To prevent consumption quickly cure throat and lung troubles with One Minute Cough Cure, F. S. Duff.

BEGINNING TO AWAKE.

Measure of Protection Proposed by China. Waldenses Has Arrived.

Special to Journal.

WASHINGTON, Sept. 18.—An Imperial Chinese edict is issued to protect all native christians in China provided that they refrain from meetings.

Count Waldenses has arrived at Hong Kong. Li Hung Chang is now at Tientsin.

It is claimed that all the Powers have accepted Li Hung Chang, and will probably accept Prince Ching as negotiators, also that the Powers have agreed to insist that a central government, satisfactory to the powers, shall be exacted for the attacks upon the legations.

The British commander at Taku telegraphs that a fatigue party engaged in destroying powder at Tung Chow had been blown up. Sixteen were killed and twenty-two injured by the explosion.

Firm of Brokers Fail.

Special to Journal.

NEW YORK, Sept. 18.—Hatch & Foste, bankers and brokers, failed today.

River Police Meet Enemy.

Special to Journal.

NEW YORK, Sept. 18.—Fifteen harbor police had a fight today with river pirates on Staten Island. Five of the thieves were captured, two were drowned and one was seriously wounded.

Threats Against Salisbury.

Special to Journal.

LONDON, Sept. 18.—Threats to assassinate Lord Salisbury have been made. He is strongly guarded.

Secretary Reitz of the Transvaal, is going to Paris. From Paris, it is said, he will proceed to the United States, where he will probably remain.
