CHAPPEE AT TIEN TSIN.

Inspects Base For Winter. Talks To Earl Li. Appointment Of Prince Tuan.

Special to Journal.

WASHINGTON, Sept. 27.—General Chaffee arrived at Tien Tsin to-day and conferred with his staff officers of the various departments regarding the establishing of a winter base near the city, and then made a general inspection of the place.

General Chaffee visited Li Hung Chang and informally discussed the outlook of affairs in China and for a settlement of the Chinese troubles.

He offered an American escort to Li Hung Chang to Peking. No other power except Russia has yet officially recognized Li.

The British Foreign Office denies that a reply has been sent to Germany refusing the Kaiser's plan as to the policy to be pursued in China.

It is feared in official circles that Germany is rushing into a war with China.

On account of this the authorities here are much gratified that the President ordered the withdrawal of General Chaffee's command before the arrival of Count von Waldersee. In case war should occur between Germany and China General Chaffee and his legion guard will remain in Peking to protect the American Legation.

Definite and official information has been received that Prince Tuan has been appointed President of the Privy Council of China, instead of Grand Secretary, as was first reported. A number of other Chinese officials prominent in the recent uprising have been similarly honored. The Chinese Minister has not been advised of Prince Tuan's appointment, but he expressed the belief, after calling at the State Department, that the report probably was true.

Architect Sandbagged.

Special to Journal.

NEW YORK, Sept. 27.—Charles J. Pret, one of New York's leading architects was found dead on the sidewalk this morning. He had been clubbed or sandbagged and robbed. He was badly bruised.

Breaking Racing Records.

TERRE HAUTE, Ind., September 25.—Two world's records were broken this afternoon on the famous four-cornered track. The Abbott, driven by Ed Geers, clipped half a second from the world's trotting record of 2:03 1/2, held by Alva, finishing a wonderful mile in 2:02 1/2. The quarters were made in: 31 1/2, 1:04 1/2, 1:21 1/2, 2:02 1/2, the third quarter being trotted in 29 1/2.

Coney, 2:02 1/2, driven by Ed Gaylord, of Denver, went against time to beat the amateur world's pacing record to wagon finishing a mile in 2:02 1/2, which clipped half a second from Free Bond's record, made in New York. The mile by Coney was done as follows: .30 1/2, 1:01 1/2, 1:23, 2:02 1/2.

Bryan's New York Tour.

NEW YORK, September 26.—The Democratic State Committee has been informed by telegram from Chicago that Mr. Bryan will be able to give six days of his time in this State—double the time first allotted. He will get here early on the morning of October 16, and will speak here that night. Then he goes up the Hudson to Albany, down the Delaware & Hudson to the southern part of the State, up the Lackawanna to Syracuse, and then to Buffalo.

To prevent consumption quickly cure throat and lung troubles with One Minute Cough Cure. F. S. Duff.

Contents of the Forum.

Of the fourteen articles which constitute the October offering of the Forum no less than eleven may be classed under the head of timely. In a ringing article Senator J. P. Dilliver discusses what are "The Paramount Issues of the Campaign" from a Republican point of view. Two views of the Cuban question are given, one being "A Plan for the Annexation of Cuba," by a Cuban, whose name cannot be disclosed, and the other a forcible exposition of the reasons "Why Cuba Should be Independent." The Hon. Charles Denby considers "The Future of China and of the Missionaries" in a tone that will find thousands of sympathizers even among those who decide such questions by the test of political expediency. "The Negro Problem in the South" is taken up by Representative O. W. Underwood, of Alabama, in an article that may be considered a reply to Gen. O. B. Froese's late plea against the disfranchisement of the ignorant negro voter. There is not an article in the issue which does not maintain the standard of interest and usefulness set by The Forum.

Organizer Winston Looks For That Many State Clubs.

Reduction in Number of Convicts Artesian Well At Blind Institution A Success. Kin-saults To Hang.

Special to Journal.

RALEIGH, N. C., Sept. 27.—The attendance at the State Convention of Democratic Clubs yesterday was very small. Ex-Judge T. B. Womack, referring to this said: "I never thought it would be large. It is difficult to get such a State convention. The true work and efficiency of such clubs is local in character." The organization of clubs will be rapid and it is the expectation of the organizer, F. D. Winston, to have about 1000 of them.

There are now at the "Caldonia" farm, near Weldon, owned by the State, and operated by convicts, 327 beef cattle and 403 turkeys, which are to be sold. Manager Arcandall of the penitentiary says: "There are dairy herds at all the farms."

Chairman Travis of the penitentiary executive board says as to the reduction of the number of convicts from 1500 to 900 in the past four years: "I do not think there will be much further reduction. The falling off is due to the use of convicts by counties on their roads. I think that almost all the counties which will desire this road system now have it."

Contractor Sylvan of Richmond, who is doing so great a work in boring artesian wells in this State, last night struck water at the well at the institution for the blind here, at a depth of 157 feet. The flow is 18 gallons a minute, the temperature of the water 53, which is a degree cooler than that in the deepest well here. Tomorrow the work of boring a well at the institution for negro deaf-mutes and blind will begin. Mr. Sydney says that out of 900 wells he has driven, only 2 are failures. He has 13 machines at work in this State. A well like the one above referred to cost \$400, he states. Speaking of wells which are failures he referred to the one at Galveston, sunk to a depth of 3,000 feet, at a cost of \$75,000 and giving only salt water, the soil formation at 2,000 feet being the same as near the surface.

Colder Weather.

WASHINGTON, Sept. 27.—For North Carolina: Friday, colder in west and central portions. Rain followed by colder on coast.

Weather Conditions:—Maximum temperatures of 90 to 92 occurred yesterday in the Ohio, central Mississippi and lower Mississippi valleys. The cold weather over the northwest has intensified since yesterday and spread eastward into the lake region and south and southwestward into the interior and southwestern states. Heavy frost is reported from St. Paul and freezing temperatures are general from the upper Missouri valley westward into the Rocky Mountains.

McClure's For October.

The October number of McClure's opens with an article on "The Strategy of National Campaigns," attractively illustrated by Jay Hamblidge. The front-piece, showing Governor Roosevelt and Senator Hanna in conference at Republican National Headquarters, and the strikingly original portraits of Cleveland, Blaine, Quay, Croker, Bryan and others, lend special interest to this paper on tactics of party managers in the Presidential campaigns of the past twenty-five years. The author has been in the thick of the fight and has evidently been brought very closely into contact with the great leaders in the battles which he describes.
